and 3 elicitation and collaboration Volume One Principles Issues Debates and Controversies in Visual Research serves as a theoretical backdrop to the field as a whole It introduces core epistemological ethical and methodological debates that effectively cut across the four volume collection as a whole Volume Two Documentation and Representation illustrates approaches to visual documentation and representation from classical documentaries to contemporary state of the art modes of visual anthropology and ethnography Volume Three Interpretation and Classification examines core debates surrounding and approaches to visual analysis Volume Four Elicitation and Collaboration explores participative approaches to visual inquiry *Capturing the Mood of Democracy* Stephen Coleman,Jim Brogden,2020-11-24 This book is about what it means to speak of a political mood Can the electorate be in a mood How do they express it How can moods be captured in a meaningful way This book attempts to answer those questions by looking at one city during the December 2019 British general election This is not a book about campaign strategies target voters turnouts and poll swings It is about how people feel The research approach is ethnographic The telling of the story is lyrical It may not be hard political science but it contributes significantly to an understanding of the health of contemporary democracy Focusing upon the ways that voters and non voters perform their enthusiasm or indifference the stories that they tell and photographic images of Bradford in what is supposed to be a vital democratic moment this book invites readers to engage with the affective texture of an election

Handbook of Ethnography Paul Atkinson,2001-03-22 This handbook provides a critical guide to the past present and future of ethnography *Using Photographs in Social and Historical Research* Penny Tinkler,2013-02-01 Sophisticated original and comprehensive this book investigates photographic research practices and the conceptual and theoretical issues that underpin them Using international case studies and behind the scenes interviews Penny Tinkler sets out research practices and explores the possibilities and challenges of working with different methods and photographic sources The book guides the reader through all aspects of doing photographic research including practical issues and ethical considerations Key topics include Working with images Generating photos in research Managing large archives and digital databases Reviewing personal photos Photo elicitation interviews Written in a clear accessible style this dynamic book is essential reading for students and researchers working with photographs in history and the social sciences *Knowing What's Local* David Landis,Sapargul Mirseitova,2014-10-01 Ethnographic inquiry serves as a unique educational resource that is accessible to students and teachers of all economic and social classes and therefore well suited to building democratic communities in the 21st Century This book is about teachers students and parents in the Republic of Kazakhstan who opened new educational directions and democratic possibilities for themselves through a series of ethnographic studies about their local communities By unfolding practical experiences of teachers and students with ethnographic study this book builds and expands understanding about education and democracy across five points of view Renewing professional development and building academic knowledge through ethnographic inquiry Acquiring democratic living through ethnographic study of

participatory caring citizenship Connecting democratic ways of life with ethnographic study of identity formation in diverse communities Building knowledge about democratic perspectives through reflexive reading and writing about ethnographic inquiry Building meaningful education at the intersections of ethnographic inquiry literacy practices and theorizing about local communities The authors propose that teacher and student led ethnographic inquiries develop educational experiences that enrich educators professional growth and provide innovative research opportunities for them and their students that generate up to date academic knowledge which can be used to inform course offerings design lessons and address state policy mandates

Lives in Context Ardra L. Cole,J. Gary Knowles,2001 The reflexive turn in qualitative research has transformed the process of doing life history research No longer are research subjects examined through the lens of the all knowing but supposedly invisible researcher As Ardra Cole and Gary Knowles point out in this fresh introduction to conducting life history research the process is now one of mutuality empathy sensitivity and caring The authors carry the novice researcher through the steps of conducting life history research from conceptualizing the project to the various means of presenting results with an eye toward understanding the complex relationship between participant and researcher and how that shapes the project In addition to examples from their own research Cole and Knowles bring in the work of a dozen novice researchers who explain the challenges they faced in developing their own life history projects in a wide variety of settings Well written interesting and pedagogically sound Lives in Context is the ideal text for teaching life history research to students and an important reference for the bookshelf of all qualitative researchers

Arts-Based Research Across Textual Media in Education Jason DeHart,Peaches Hash,2023-11-06 In company with its sister volume Arts Based Research Across Textual Media in Education explores arts based approaches to research across media including film and comics related material from a variety of geographic locations and across a range of subdisciplines within the field of education This first volume takes a textual focus capturing process poetic and dramaturgical approaches The authors aim to highlight some of the approaches that are not always centered in arts based research The contributors represent a variety of arts based practices and methods and they weave this marrying of artistic and scientific expertise and experience into the fabric of the chapters themselves Authors from international contexts speak to the importance of utilizing artistic approaches for research processes From multimodal field notes to poetic forms to the dramaturgical chapters in this book represent steps forward in educational inquiry to bringing together both the creative and credible The book includes multiple images and rich descriptions shared from the field This first volume covers amongst other topics co created narratives creative fiction in research analytic portraits dramatic representation and critical poetic inquiry It would be suitable for graduate students and scholars interested in qualitative inquiry and arts based methods in education and the social sciences

School Culture Jon Prosser,1999-06-02 I waited with great anticipation to receive Jon Prosser s book School Culture The wait was worth it and I wasn t to be disappointed This is a fine book bringing to a reader a credible and solid set of work

Youth and Policy The most helpful book on genuine school improvement that I have ever read LDR National College for School Leadership Jon Prosser has put together an eclectic volume School Culture is not isolated from out of school forces most of the authors argue Jon Prosser and Terry Warbuton s piece analyzing the visual representation of schools and teaching shows this in a looking glass manner The different chapters challenge us to think again about what we mean by ethos and atmosphere What the volume demonstrates is just how difficult and challenging it is to define what constitutes a school s culture Journal of Education for Teaching School culture is today one of the most important themes in education and educational research This book draws on a wide range of contemporary perspectives to provide an insight into the key issues and concepts which underpin school culture The first part of the book is concerned with culture as an holistic concept The second part adopts the stance that school culture is the sum of its subcultures The contributors focus on significant groups such as teachers and students or theme for example sexuality and examine in depth the nature and character of schooling

Thomson, 2009-05-07 This book explores the methodological ethical representational and theoretical issues surrounding image based research with children and young people **Visual Research Methods in the Social Sciences** Stephen Spencer, 2022-09-23 Visual Research Methods in the Social Sciences Awakening Visions is an indispensable resource for students researchers and teachers seeking to use visual sources in their research and understand how images work This fully updated edition adds questions and activities for studies and many new images and models as well as additional exploration of social and theoretical contexts and examples of current visual and multimodal research Due to the proliferation of image centric social media and the growing potential for fake news being able to critically assess media and other visual messages is more important than ever For researchers embarking on visual research this book offers useful practical guidance and real world examples from seasoned researchers exploring cultures as varied as religious cults in Venezuela the Beer Can Regatta in Darwin Mapuche Indians in Chile and graffiti artists in Sheffield It offers an integrated approach to visual research

building compelling case studies using a wide range of visual forms including archive images media samples maps objects video photographs and drawings alongside traditional qualitative approaches Examples of the visual construction of place representations of social identities and different approaches to analysis are explored in the first section of the book whilst the essays in the second section highlight the creativity and innovation of four leading visual researchers This new edition will prove valuable for both experienced visual researchers and those embarking on visual research in the social sciences for the first time

Working-Class Boys and Educational Success Nicola Ingram, 2018-05-15 This book examines the complex relationship between working class masculinities and educational success Drawing on a small sample of young men attending either a selective grammar or a secondary school in the same urban area of Belfast the author demonstrates that contrary to popular belief some working class boys are engaged with education are motivated to succeed and have high aspirations However the structures of schooling in a society where working class ness is seen as feckless tasteless and cultureless make the processes of becoming successful more challenging than they need to be This volume reveals the unique processes of reconciling success and identities for individual working class boys and the important role schools have to play in this negotiation Highly relevant to those engaged in teacher training in socially unequal societies this book will also appeal to practitioners sociologists of education scholars of social justice and Bourdieusian theorists
