 selection of papers that were presented at the International Workshop on High Performance Computing or Computer
 Graphics and Visualisation held in Swansea United Kingdom on 3 4 July 1995 The workshop was sponsored by the HEFCWI
 Initiative on Parallel Computing Foundations and Applications and it has provided the international computer graphics
 community with a platform for assessing and reviewing the impact of the development of high performance computing on the
 progress of computer graphics and visualisation presenting the current use of high performance computing architecture and
 software tools in computer graphics and visualisation and the development of parallel graphics algorithms identifying
 potential high performance computing applications in computer graphics and visualisation and encouraging members of the
 graphics community to think about their problems from the perspective of parallelism The book is divided into six sections
 The first section which acts as the introduction of the book gives an overview of the current state of the art It contains a
 comprehensive survey by Whitman of parallel algorithms for computer graphics and visualisation and a discussion by Hansen
 on the past present and future high performance computing applications in computer graphics and visualisation The second
 section is focused on the design and implementation of high performance architecture software tools and algorithms for
