Sound / image Sarah Cardwell, Jonathan Bignell, Lucy Fife Donaldson, 2022-04-26 An exciting new strand in The Television Series the Moments in Television collections celebrate the power and artistry of television whilst interrogating key critical concepts in television scholarship Each Moments book is organised around a provocative binary theme Sound image reassesses the synergy between televisual images and sounds and music as a key creative interaction warranting closer attention Through close scrutiny of visual and sonic elements the book's chosen programmes are persuasively illuminated in new ways The book explores an eclectic range of TV fictions dramatic and comedic Contributors from diverse perspectives come together to expand and enrich the kind of close analysis most commonly found in television aesthetics Sustained detailed programme analyses are sensitively framed within historical technological institutional cultural creative and art historical contexts *Images of Sound* Nina Leen, 1977 The telling and beautiful pictures in the book capture the speech of things the many songs of people the images take on sounds in the reader's mind along with the emotions and the memories they evoke Philip B Kunhardt Jr Editor Magazine Development Time Inc **Musical Imagery** R.I. Godoy, H. Jorgensen, 2012-10-12 An edited collection of papers which explore a large number of topics related to musical imagery Musical imagery can be defined as our mental capacity for imagining sound in the absence of a directly audible sound source meaning that we can recall and re-experience or even invent new musical sound through our inner ear The first part of the volume is focused on theoretical issues such as the history epistemology neurological bases and cognitive models of musical imagery The second part presents various applications of musical imagery in performance and composition and provides the reader with a broad overview of the many musical activities which are concerned with musical imagery Musical imagery is a truly interdisciplinary subject and it is the belief of the editors that a plurality of approaches ranging from the introspective and philosophical to the experimental and computational is the most fruitful strategy for exploring the subject of musical imagery **The Rhythm Image** Steven Shaviro, 2022-11-17 Music videos play a critical role in our age of ubiquitous streaming digital media They project the personas and visions of musical artists they stand at the cutting edge of developments in popular culture and they fuse and revise multiple frames of reference from dance to high fashion to cult movies and television shows to Internet memes Above all music videos are laboratories for experimenting with new forms of audiovisual expression The Rhythm Image explores all these dimensions The book analyzes in depth recent music videos for artists ranging from pop superstar The Weeknd to independent women artists like FKA twigs and Dawn Richard The music videos discussed in this book all treat the traditional themes of popular music sex and romance money and fame and the lived experiences of race and gender But they twist these themes in strange and unexpected ways in order to reflect our entanglement with a digital world of social media data gathering and 24/7 demands upon our attention *Popular Photography*, 1996-05 *The Audiovisual Chord* Martine Huvenne, 2022-12-13 This book is a phenomenological approach to

film sound and film as a whole bringing all sensory impressions together within the body as a sense of movement This includes embodied listening felt sound and the audiovisual chord as a dynamic knot of visual and auditory movements From this perspective auditory spaces in film can be used as a pivot between an inner and an external world Image and Identity R. Bruce Elder, Academy of Canadian Cinema & Television, 1989 *Image and Identity* examines the unique qualities of Canadian cinema situating it within the broader spectrum of Canadian culture as a whole Taking a genetic approach toward uncovering an answer to the ever pressing Canadian question In reality who are we Bruce Elder explores the essential features of Canadian thought and the distinctive Canadian philosophical traditions that developed in response to our particular historical and geographical circumstances Arguing that this rich yet largely neglected tradition is still reflected in much of our current artistic practice Elder examines the Canadian documentary tradition English Canadian narrative filmmaking and the works of our cinematic avant garde Focusing on the particular strengths of the avant garde cinema and providing in depth analyses of the works of Michael Snow Jack Chambers David Rimmer and many others he demonstrates why these internationally celebrated Canadian artists have been at the forefront of the transition from modernist to postmodernist practices *Defense Supply Management Handbook* United States.
