Framing the Jina John Cort, 2010-01-21 John Cort explores the narratives by which the Jains have explained the presence of icons of Jinas their enlightened and liberated teachers that are worshiped and venerated in the hundreds of thousands of Jain temples throughout India Most of these narratives portray icons favorably and so justify their existence but there are also narratives originating among iconoclastic Jain communities that see the existence of temple icons as a sign of decay and corruption The veneration of Jina icons is one of the most

widespread of all Jain ritual practices Nearly every Jain community in India has one or more elaborate temples and as the Jains become a global community there are now dozens of temples in North America Europe Africa and East Asia The cult of temples and icons goes back at least two thousand years and indeed the largest of the four main subdivisions of the Jains are called Murtipujakas or Icon Worshipers A careful reading of narratives ranging over the past 15 centuries says Cort reveals a level of anxiety and defensiveness concerning icons although overt criticism of the icons only became explicit in the last 500 years He provides detailed studies of the most important pro and anti icon narratives Some are in the form of histories of the origins and spread of icons Others take the form of cosmological descriptions depicting a vast universe filled with eternal Jain icons Finally Cort looks at more psychological explanations of the presence of icons in which icons are defended as necessary spiritual corollaries to the very fact of human embodiedness

Aesthetics of Religion Alexandra K. Grieser, Jay

Johnston, 2017-12-18 This volume is the first English language presentation of the innovative approaches developed in the aesthetics of religion The chapters present diverse material and detailed analysis on descriptive methodological and theoretical concepts that together explore the potential of an aesthetic approach for investigating religion as a sensory and mediated practice In dialogue with yet different from other major movements in the field material culture anthropology of the senses for instance it is the specific intent of this approach to create a framework for understanding the interplay between sensory cognitive and socio cultural aspects of world construction The volume demonstrates that aesthetics as a theory of sensory knowledge offers an elaborate repertoire of concepts that can help to understand religious traditions These approaches take into account contemporary developments in scientific theories of perception neuro aesthetics and cultural studies highlighting the socio cultural and political context informing how humans perceive themselves and the world around them Developing since the 1990s the aesthetic approach has responded to debates in the study of religion in particular striving to overcome biased categories that confined religion either to texts and abstract beliefs or to an indisputable sui generis mode of experience This volume documents what has been achieved to date its significance for the study of religion and for interdisciplinary scholarship

Mazanec, 2024-02-15 Poet Monks focuses on the literary and religious practices of Buddhist poet monks in Tang dynasty China to propose an alternative historical arc of medieval Chinese poetry Combining large scale quantitative analysis with close readings of important literary texts Thomas J Mazanec describes how Buddhist poet monks who first appeared in the latter half of Tang dynasty China asserted a bold new vision of poetry that proclaimed the union of classical verse with Buddhist practices of repetition incantation and meditation Mazanec traces the historical development of the poet monk as a distinct actor in the Chinese literary world arguing for the importance of religious practice in medieval literature As they witnessed the collapse of the world around them these monks wove together the frayed threads of their traditions to establish an elite style Chinese Buddhist poetry Poet Monks shows that during the transformative period of the Tang Song transition Buddhist monks were at the forefront of poetic innovation **Shiva's Waterfront Temples** Subhashini Kaligotla, 2022-08-23 This handsomely illustrated volume explores the medieval Deccani temple complexes at the UNESCO World Heritage Site of Pattadakal with careful attention to their makers The vibrant red sandstone temples of India's Deccan Plateau such as the Pattadakal temple cluster have attracted visitors since the eighth century or earlier A UNESCO World Heritage Site and the coronation place of the Chalukya dynasty Pattadakal and its neighboring sites are of major historical importance In Shiva's Waterfront Temples Subhashini Kaligotla situates these buildings in the cosmopolitan milieu of Deccan India and considers how their makers and awestruck visitors would have seen them in their day Kaligotla reconstructs how architects and builders approached the sites including their use of ornamentation responsiveness to courtly values such as pleasure and play and ingenious juxtaposition of the first millennium's Nagara and Dravida aesthetics a blend largely unique to Deccan plateau architecture With over 130 color illustrations this original book elucidates the Deccan's special place in the lexicon of medieval South Asian architecture **Hindu Gods in an American Landscape** E. Allen Richardson, 2018-11-15 In India Hindu images have been cast for millennia through the lost wax process and brought to life by priests becoming not merely venerated icons but actual embodiments of gods Second and third generation Hindu Americans have increasingly adopted a more worldly perspective toward religious objects viewing them as symbolic rather than actual presences of the deity The author traces the origins of this important shift and examines Western attitudes

regarding sacred objects as well as the complex layering of traditional and modern Hindu attitudes in a globalized world

2 **Geographical Thoughts in India** Rana Singh, 2009-05-27 This book deals with roots of Indian geographical thoughts with reference to its historical base cultural context and visionary message As a consequence of long cultural history the resultant lifeworld in India converges like a drama and dance of space time function with transference and transformation In the passage of time emerged a metaphysical frame of thought the varieties of heritagescapes and simultaneously grown the senses to heritage ecology Of course attempts have been scanty but the richness always portrayed in literature and literary geography Historical and cultural geographies in India have not caught that much attention in the academia however on micro level distinct attributes are interpreted in the recent literature Going back to the ancient notions of nature theology religioscapes and rituals have developed a complex network of belief systems in the Hindu traditions In these traditions the motherly river Ganga serves as symbol system and metaphor in the Indian culture Continuity of cultural manifestations is actively maintained and continued in the Indian villages where lives three fourths of India s population and serve like a place ballet India s catastrophic march on the road of development and technology is entangled with obstacles and socio spatial gaps that need to be re considered in the light of cultural background and historical legacy All these issues are examined emphasising dualistic and complimentary perspectives in the West and the East Contents Viewpoints on the book v viii List of Tables List of Figures xi xvi Foreword Prof Martin J Haigh Oxford Brooke University UK 1 8 Preface Acknowledgements 9 21 1 Metaphysics and Sacred Ecology Cosmos Theos Anthropos 23 57 2 Lifeworld Lifecycle and Home 58 97 3 Landscape as Text Literary Geography and Indian Context 98 128 4 Historical Geography of India Trends in the 21st century 129 162 5 Cultural Geography of India Trends in the 21st century 163 195 6 Geographic Milieu and Belief Systems An Appraisal 196 226 7 Sacred space and Faithscape 227 266 8 The Ganga River Images and Symbol of India 267 302 9 Indian Village A Phenomenological Understanding 303 350 10 Heritagescapes of India Appraising Heritage ecology 351 393 and 11 Development in India Appraising Self Retrospection 394 422 index 423 430 author 431 **The Body Incantatory** Paul Copp, 2014-09-09 Whether chanted as devotional prayers intoned against the dangers of the wilds or invoked to heal the sick and bring ease to the dead incantations were pervasive features of Buddhist practice in late medieval China 600 1000 C E Material incantations in forms such as spell inscribed amulets and stone pillars were also central to the spiritual lives of both monks and laypeople In centering its analysis on the Chinese material culture of these deeply embodied forms of Buddhist ritual The Body Incantatory reveals histories of practice and logics of practice that have until now remained hidden Paul Copp examines inscribed stones urns and other objects unearthed from anonymous tombs spells carved into pillars near mountain temples and manuscripts and prints from both tombs and the Dunhuang cache Focusing on two major Buddhist spells or dharani and their embodiment of the incantatory logics of adornment and unction he makes breakthrough claims

about the significance of Buddhist incantation practice not only in medieval China but also in Central Asia and India His work vividly captures the diversity of Buddhist practice among medieval monks ritual healers and other individuals lost to history offering a corrective to accounts that have overemphasized elite canonical materials **Dharma and Halacha** Ithamar Theodor, Yudit Kornberg Greenberg, 2018-08-15 In recent decades there has been a rising interest among scholars of Hinduism and Judaism in engaging in the comparative studies of these ancient traditions Academic interests have also been inspired by the rise of interreligious dialogue by the respective religious leaders Dharma and Halacha Comparative Studies in Hindu Jewish Philosophy and Religion represents a significant contribution to this emerging field offering an examination of a wide range of topics and a rich diversity of perspectives and methodologies within each tradition and underscoring significant affinities in textual practices ritual purity sacrifice ethics and theology Dharma refers to a Hindu term indicating law duty religion morality justice and order and the collective body of Dharma is called Dharma shastra Halacha is the Hebrew term designating the Jewish spiritual path comprising the collective body of Jewish religious laws ethics and rituals Although there are strong parallels between Hinduism and Judaism in topics such as textual practices and mystical experience the link between these two religious systems i e Dharma and Halacha is especially compelling and provides a framework for the comparative study of these two traditions The book begins with an introduction to Hindu Jewish comparative studies and recent interreligious encounters Part I of the book titled Ritual and Sacrifice encompasses the themes of sacrifice holiness and worship Part II titled Ethics is devoted to comparing ethical systems in both traditions highlighting the manifold ways in which the sacred is embodied in the mundane Part III of the book titled Theology addresses common themes and phenomena in spiritual leadership as well as textual metaphors for mystical and visionary experiences in Hinduism and Judaism The epilogue offers a retrospective on Hindu Jewish encounters mapping historic as well as contemporary academic initiatives and collaborations **Rites of the God-King** Marko Geslani, 2018-06-08 Scholars of Vedic religion have long recognized the centrality of ritual categories to Indian thought There have been few successful attempts however to bring the same systematic rigor of Vedic Scholarship to bear on later Hindu ritual Excavating the deep history of a prominent ritual category in classical Hindu texts Geslani traces the emergence of a class of rituals known as santi or appeasement This ritual intended to counteract ominous omens developed from the intersection of the fourth Veda the oft neglected Atharvaveda and the emergent tradition of astral science Jyotisastra sometime in the early first millennium CE Its development would come to have far reaching consequences on the ideal ritual life of the king in early medieval Brahmanical society The mantric transformations involved in the history of santi led to the emergence of a politicized ritual culture that could encompass both traditional Vedic and newer Hindu performers and practices From astrological appeasement to gift giving coronation and image worship Rites of the God King chronicles the multiple lives and afterlives of a single ritual mode unveiling the always inventive work of the priesthood to imagine and enrich royal power Along the way

Geslani reveals the surprising role of astrologers in Hindu history elaborates conceptions of sin and misfortune and forges new connections between medieval texts and modern practices In a work that details ritual forms that were dispersed widely across Asia he concludes with a reflection on the nature of orthopraxy ritual change and the problem of presence in the Hindu tradition *Kingship, Ritual, and Royal Ideology in Western Zhou China* Paul Nicholas Vogt, 2022-10-31 The book shows how the kings of the Western Zhou period used ritual to create and hold onto their power Image Problems Robert Daniel DeCaroli, 2015-03-01 This deft and lively study by Robert DeCaroli explores the questions of how and why the earliest verifiable images of the historical Buddha were created In so doing DeCaroli steps away from old questions of where and when to present the history of Buddhism's relationship with figural art as an ongoing set of negotiations within the Buddhist community and in society at large By comparing innovations in Brahmanical Jain and royal artistic practice DeCaroli examines why no image of the Buddha was made until approximately five hundred years after his death and what changed in the centuries surrounding the start of the Common Era to suddenly make those images desirable and acceptable The textual and archaeological sources reveal that figural likenesses held special importance in South Asia and were seen as having a significant amount of agency and power Anxiety over image use extended well beyond the Buddhists helping to explain why images of Vedic gods Jain teachers and political elites also are absent from the material record of the centuries BCE DeCaroli shows how the emergence of powerful dynasties and rulers who benefited from novel modes of visual authority was at the root of the changes in attitude toward figural images However as DeCaroli demonstrates a strain of unease with figural art persisted even after a tradition of images of the Buddha had become established *How the Brahmins Won* Johannes Bronkhorst, 2016-03-21 This is the first study to systematically confront the question how Brahmanism which was geographically limited and under threat during the final centuries BCE transformed itself and spread all over South and Southeast Asia Brahmanism spread over this vast area without the support of an empire without the help of conquering armies and without the intermediary of religious missionaries This phenomenon has no parallel in world history yet shaped a major portion of the surface of the earth for a number of centuries This book focuses on the formative period of this phenomenon roughly between Alexander and the Guptas **Homa Variations** Richard K. Payne, Michael Witzel, 2016 Throughout human history and across many religious cultures offerings are made into fire The essays collected in Homa Variations provide detailed studies of this practice known in the tantric world as the homa from its inception up to the present
