Morgan,1999-08-26 In this lavishly illustrated book David Morgan surveys the visual culture that shaped American Protestantism in the nineteenth and twentieth centuries a vast record of images in illustrated bibles Christian almanacs children s literature popular religious books charts broadsides Sunday school cards illuminated devotional items tracts chromos and engravings His purpose is to explain the rise of these images their appearance and subject matter how they were understood by believers the uses to which they were put and what their relation was to technological innovations commerce and the cultural politics of Protestantism His overarching argument is that the role of images in American Protestantism greatly expanded and developed during this period *Historical Dictionary of the Seventh-Day Adventists* Gary Land,2014-10-23 Seventh day Adventism was born as a radical millenarian sect in nineteenth century America It has since spread across the world achieving far more success in Latin America Africa and Asia than in its native land In what seems a paradox Adventist expectation of Christ s imminent return has led the denomination to develop extensive educational publishing and health systems Increasingly established within a variety of societies Adventism over time has modified its views on many issues and accommodated itself to the delay of the Second Advent In the process it has become a multicultural religion that nonetheless reflects the dominant influence of its American origins This second edition of *Historical Dictionary of the Seventh Day Adventists* covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 600 cross referenced entries on key people cinema politics and government sports and critics of Ellen White This book is an excellent access point for students researchers and anyone wanting to know more about Seventh day Adventism **African Image of the Ultimate Reality** Cosmas Okechukwu Obiego,1984 The question of human existence and its ultimate meaning demand doctrinal answers Such answers depend on man s conception of the Ruler of the Universe and on the answers depends man s attitude to life This study explores and expands the Igbo answer to the question of the ultimate meaning of human existence in relation to Chukwu God It also seeks to open up religious springboards which will be of value to the Gospel carriers in Igboland and to the inter faith dialogue

American Imperialism in the Image of Peer Gynt E. A. J. Johnson,1971 *American Imperialism in the Image of Peer Gynt* was first published in 1971 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions This is the life story of an economic historian whose distinguished career has included nine years of service as a United States government official in various capacities both military and civilian around the world It is a revealing and often disturbing account evoking in the author s mind as he reflects on his own experiences and those of other American emissaries abroad the image of Ibsen s Peer

Gynt who wandered over the earth thinking he was doing good only to find when he returned home that both his virtues and his sins were so insignificant that his soul was scheduled by the buttonmolder to be cast into limbo in the form of a little lead button Professor Johnson's book is much more than an autobiography From the vantage point of his experiences and observations he provides a critical evaluation of American efforts abroad He discusses cultural factors that have shaped American preconceptions and attitudes over the last half century and attempts to explain why a generation of presumably well equipped Americans has been singularly incapable of materializing the hopes and aspirations of both the American people and the world community

Images Out of Africa Virginia Garner, 2011 Missionaries played a fundamental role in introducing cinema into the developing world in the early twentieth century These representatives of the Christian community diligently produced films about far flung cultures to bolster fundraising for mission efforts around the globe By the interwar period a few husband and wife teams in Africa were making an array of films about vanishing cultures and the struggle to bring Christianity to indigenous populations Images Out of Africa brings to light the remarkable expedition of one such team of filmmakers In 1938 Virginia and Ray Garner working for the Africa Motion Picture Project ambitiously began making films in the Belgian Congo and French Cameroons introducing film into villages for the first time This book features Virginia Garner's recently rediscovered diaries which highlight the challenges of making films in Africa in the 1930s and include rich descriptions of cross cultural interactions and micro negotiations with chiefs headmen and villagers

Kirton-Roberts, 2015-03-30 Every denomination entered the Caribbean with a mission While the general motivation was to convert the population to Christianity the accompanying practices were undoubtedly intended to civilise and westernise The Moravians and Methodists were the first two evangelical Protestant missions that brought the gospel to the enslaved Africans in the Caribbean When emancipation was granted to the enslaved Africans by the British government in 1834 the newly freed Africans had their own ideas as to how they would live work and worship They were in a struggle for freedom self affirmation self expression and personal development But the Moravians and Methodists had independently framed their thoughts on what the formerly enslaved Africans needed to survive and succeed What the evangelical Protestants created for themselves was an image of the formerly enslaved African They had drawn a mental picture of a European Christian of African descent who was residing in the Caribbean and practicing the Christianity of the West The Caribbean evangelical black was a reflection of the Europeans but never managed to fit into the submissive Christian image This book traces the eighty years

during which formerly enslaved Africans adapted to their state of freedom in Antigua and Barbados and how the Moravians and Methodists sought to shape their way of life The book examines the theological dispositions on slavery gender education religion sexuality and race Interchurch and Interfaith Relations Stefan Höschele,2010 A comprehensive collection of Seventh day Adventist texts and statements on interchurch and interfaith relations With more than 16 million baptized members and about 30 million adherents in total today this church is a global Christian movement It attempts to document a phenomenon found in other less ecumenically inclined denominations as well *International Organization and Conference Series* United States.
