instructions that poets aspiring or practicing can use to hone their craft perhaps into art Using examples from his own rich literary oeuvre and from the work of a number of successful contemporary poets the author schools us in the critical relationship between poet and reader which is fundamental to what Kooser believes is poetry sultimate purpose to reach other people and touch their hearts Much more than a guidebook to writing and revising poems this manual has all the comforts and merits of a long and enlightening conversation with a wise and patient old friend a friend who is willing to share everything he s learned about the art he s spent a lifetime learning to execute so well Lectures on English Poets James Russell Lowell, 1897 **Religious Imaginaries** Karen Dieleman, 2012-10-02 Explores liturgical practice as formative for how three Victorian women poets imagined the world and their place in it and consequently for how they developed their creative and critical religious poetics. This new study rethinks several assumptions in the field that Victorian women's faith commitments tended to limit creativity that the contours of church experiences matter little for understanding religious poetry and that gender is more significant than liturgy in shaping women's religious poetry Exploring the import of bodily experience for spiritual emotional and cognitive forms of knowing Karen Dieleman explains and clarifies the deep orientations of different strands of nineteenth century Christianity such as Congregationalism's high regard for verbal proclamation Anglicanism s and Anglo Catholicism s valuation of manifestation and revivalist Roman Catholicism s recuperation of an affective aesthetic Looking specifically at Elizabeth Barrett Browning Christina Rossetti and Adelaide Procter as astute participants in their chosen strands of Christianity Dieleman reveals the subtle textures of these women s religious poetry the different voices genres and aesthetics they create in response to their worship experiences Part recuperation part reinterpretation Dieleman's readings highlight each poet's innovative religious poetics Dieleman devotes two chapters to each of the three poets the first chapter in each pair delineates the poets denominational practices and commitments the second reads the corresponding poetry Religious Imaginaries has appeal for scholars of Victorian literary criticism and scholars of Victorian religion supporting its theoretical paradigm by digging deeply into primary sources associated with the actual churches in which the poets worshipped detailing not only the liturgical practices but also the architectural environments that influenced the worshipper's formation By going far beyond descriptions of various doctrinal positions this research significantly deepens our critical understanding of Victorian Christianity and the culture it influenced

The Poetry of Ibn Khafājah Magda M. Al-Nowaihi,2023-11-27 This study is an attempt to identify and describe the distinctive features of the poetic style of the acclaimed medieval Andalusian poet Ibn Khafa jah who has been credited with starting a new school of poetry in Andalus and elsewhere It offers a close reading of his poetry concentrating on the three basic elements of style imagery rhetorical devices and structural patterns It shows how Ibn Khaf jah creatively uses the poetic tradition available to him to form new images and scenes create multi layered poems and bestow different levels of unity and coherence on his poems The study demonstrates some of the ways by which the various elements of style are

combined and interrelated to produce original meaningful and highly moving poems in the Khafajian style Emerging Aesthetic Imaginaries Lene M. Johannessen, Mark Ledbetter, 2018-12-31 Emerging Aesthetic Imaginaries considers aesthetic imaginaries as they constitute and are constituted by and in our shared realities With contributions from twelve scholars working in the fields of literary studies visual studies anthropology cultural studies and digital culture this book takes a multidisciplinary approach to aesthetic imaginaries which tests the conceptual potential from an array of perspectives and methodologies It probes into the continuous creation and re creation of figures for the future that invariably nod to their pasts whether with a spirit of respect disgust hope or play It is particularly in the intersections between ideas and formations of shared realities and what Ranjan Ghosh has called entangled figurations that the full and intricate promise of the aesthetic imaginary as analytic and conceptual prism comes into its own As the chapters in this collection demonstrate knots of various aesthetic imaginaries disseminate and manifest variously across place and time to weave and interweave again and to offer themselves in each instance as contours so far of cultural and aesthetic histories Visual Genesis of Japanese National <u>Identity</u> Ewa Machotka, 2009 This volume offers an entirely new view of the concept of constructing nation states It inquires into the nature of national identity constructs produced in pre modern Japan through examining two aspects of its cultural production the sphere of fine arts and the sphere of literature The Celts John T. Koch, Antone Minard, 2012-08-08 This succinct accessible two volume set covers all aspects of Celtic historical life from prehistory to the present day The study of Celtic history has a wide international appeal but unfortunately many of the available books on the subject are out of date narrowly specialized or contain incorrect information Online information on the Celts is similarly unreliable This two volume set provides a well written up to date and densely informative reference on Celtic history that is ideal for high school or college aged students as well as general readers The Celts History Life and Culture uses a cross disciplinary approach to explore all facets of this ancient society. The book introduces the archaeology art history folklore history linguistics literature music and mythology of the Celts and examines the global influence of their legacy Written entirely by acknowledged experts the content is accessible without being simplistic Unlike other texts in the field The Celts History Life and Culture celebrates all of the cultures associated with Celtic languages at all periods providing for a richer and more comprehensive examination of the topic **Writing and Seeing**, 2005-01-01 The essays in this volume are informed by a variety of theoretical assumptions and of critical methodologies but they all share an interest in the intersections of word and image in a variety of media This unifying rationale secures the present collection's central position in the current critical context defined as it predominantly is by ways of reading that are based on a relational nexus The intertextual the intermedial the intersemiotic are indeed foregrounded and combined in these essays conceptually as much as in the critical practices favoured by the various contributions Studies of literature in its relation to pictorial genres enjoy a relative prominence in the volume but the range of media and of approaches considered is broad enough to include photography film video television comic strips

animated film public art material culture The backgrounds of contributors are likewise diverse culturally academically linguistically The volume combines contributions by prominent scholars and critics with essays by younger scholars from a variety of backgrounds The resulting plurality of perspective is indeed a source of new insights into the relations between writing and seeing and it contributes to making this collection an exciting new contribution to word and image studies

Becoming Poetry Jay Rogoff, 2023-11-15 Winner of the Lewis P Simpson Award In Becoming Poetry Jay Rogoff closely inspects the work of two dozen poets his forebears and his contemporaries to reveal how their poetry achieves its impact upon readers His essays drawn from more than twenty years of literary criticism explore how the staying power of a poet s

work and the likelihood of its enjoying a lasting identification with its creator depend on the skilled manipulation of poetic technique Considering how poetry can manifest a vividly conceived world of feeling and sensation Rogoff maintains that we understand and evaluate poets by the sum of their most persuasive inventive strategies including their attention to form The poet finally constructs a uniquely imagined universe and thus in the minds of readers becomes the poetry A model of practical criticism intended for enthusiasts at all levels Becoming Poetry demystifies how poetry operates on its audience to create a virtual affective experience of lasting power and value
