Nishime,2014-01-30 In this first book length study of media images of multiracial Asian Americans Leilani Nishime traces the codes that alternatively enable and prevent audiences from recognizing the multiracial status of Asian Americans Nishime's perceptive readings of popular media movies television shows magazine articles and artwork indicate how and why the viewing public often fails to identify multiracial Asian Americans Using actor Keanu Reeves and the Matrix trilogy golfer Tiger Woods as examples Nishime suggests that this failure is tied to gender sexuality and post racial politics Also considering alternative images such as reality TV star Kimora Lee Simmons the television show Battlestar Galactica and the artwork of Kip Fulbeck this incisive study offers nuanced interpretations that open the door to a new and productive understanding of race in America Beyond Ethnicity Camilla Fojas,Rudy P. Guevarra,Nitasha Tamar Sharma,2018-03-31

Written by scholars of various disciplines the essays in this volume dig beneath the veneer of Hawai'i's myth as a melting pot paradise to uncover historical and complicated cross racial dynamics Race is not the primary paradigm through which Hawai'i is understood Instead ethnic difference is celebrated as a sign of multicultural globalism that designates Hawai'i as the crossroads of the Pacific Racial inequality is disruptive to the tourist image of the islands It ruptures the image of tolerance diversity and happiness upon which tourism business and so many other vested transnational interests in the islands are based The contributors of this interdisciplinary volume reconsider Hawai'i as a model of ethnic and multiracial harmony through the lens of race in their analysis of historical events group relations and individual experiences and humor among other focal points Beyond Ethnicity examines the dynamics between race ethnicity and indigeneity to challenge the primacy of ethnicity and cultural practices for examining difference in Hawai'i while recognizing the significant role of settler colonialism This original and thought provoking volume reveals what a racial analysis illuminates about the current political configuration of the islands and in doing so challenges how we conceptualize race on the continent Recognizing the ways that Native Hawaiians or K naka Maoli are impacted by shifting violent and hierarchical colonial structures that include racial inequalities the editors and contributors explore questions of personhood and citizenship through language land labor and embodiment By admitting to these tensions and ambivalences the editors set the pace and tempo of powerfully argued essays that engage with the various ways that K naka Maoli and the influx of differentially racialized settlers continue to shift the social political and cultural terrains of the Hawaiian Islands over time *SQL and NoSQL Databases* Michael
