Initiative Linda Chelan Li, Phyllis Lai Lan Mo, 2023-03-03 This book scrutinizes the role of Hong Kong in the expansive and contested vision of China's Belt and Road Initiative BRI. In two main parts it first discusses the defining features of the BRI and the evolving expectations of the role of Hong Kong in the BRI from the perspectives of policy makers and the professional sectors of accountancy, finance and the law. The second part contemplates the potential opportunities for Hong Kong from the perspectives of recipient countries Sri Lanka, Vietnam, Cambodia and Myanmar. Utilizing an action research approach and engaging the views of a broad spectrum of actors, the authors observe the critical role of agency and innovations in a context of institutional contradictions, the impact of BRI governance structure for the deficits in international participation gaps between grand state visions and commercial interests and the salience of effective communication in navigating complex policy initiatives. Taking these together, it unpacks the complex processes shaping Hong Kong's participation and role in the BRI. This book will appeal to students and researchers interested in the BRI and Hong Kong in the contexts of institutional contradictions, agency innovations and political dynamics as well as sustainable development.

Journal, 1914 **Legislating for Risk and Precaution** Robert Black, John Moloney, Andrew Graffham, 2025-07-21 This book aims to demystify the law for scientists and instructing officials by exploring the science and legal concepts of risk and precaution for national legislation to facilitate safe trade in agricultural products in compliance with international trade rules. The book is not meant to supplant the many authoritative titles on legislative drafting but provide some practical exercises on instructions and drafting for this area of law. The book also includes some important factors in legal reform such as the audience for and access to legislation. It therefore has the potential to be a valuable resource for coordinated training of instructors and drafters by helping to secure a robust two-way dialogue between them. *The British Medical Journal*, 1909
