Metanoia Adam Ellwanger,2020-02-25 Western culture is in a moment when wholly new kinds of personal transformations are possible but authentic transformation requires both personal testimony and public recognition In this book Adam Ellwanger takes a distinctly rhetorical approach to analyzing how the personal and the public relate to an individual s transformation and develops a new vocabulary that enables a critical assessment of the concept of authenticity The concept of metanoia is central to this project Charting the history of metanoia from its original use in the classical tradition to its adoption by early Christians as a term for religious conversion Ellwanger shows that metanoia involves a change within a person that results in a truer version of him or herself a change in character or ethos He then applies this theory to our contemporary moment finding that metanoia provides unique insight into modern forms of self transformation Drawing on ancient and medieval sources including Thucydides Plato Paul the Apostle and Augustine as well as contemporary discourses of self transformation such as the public testimonies of Caitlyn Jenner and Rachel Dolezal Ellwanger elucidates the role of language in signifying and authenticating identity Timely and original Ellwanger s study formulates a transhistorical theory of personal transformation that will be of interest to scholars working in social theory philosophy rhetoric and the history of Christianity

Nonverbal Communication Across Disciplines: Paralanguage, kinesics, silence, personal and environmental interaction Fernando Poyatos,2002-01-01 Part of a three volume set which takes a cross cultural approach to the subject of nonverbal communication *Standing Up, Speaking Out* Matthew R. Meier,Casey R. Schmitt,2016-10-14 In recent decades some of the most celebrated and culturally influential American oratorical performances have come not from political leaders or religious visionaries but from stand up comics Even though comedy and satire have been addressed by rhetorical scholarship in recent decades little attention has been paid to stand up This collection is an attempt to further cultivate the growing conversation about stand up comedy from the perspective of the rhetorical tradition It brings together literatures from rhetorical cultural and humor studies to provide a unique exploration of stand up comedy that both argues on behalf of the form s capacity for social change and attempts to draw attention to a series of otherwise unrecognized rhetors who have made significant contributions to public culture through comedy

Personality, Appearance and Speech T. H. Pear,2023-11-06 First published in 1957 Personality Appearance and Speech is an intensive analysis of personality reflected by appearance and speech It is a most fascinating study of the innumerable outward signs by which the man in the street judges personality The author considers the effects this has on

daily life for example can a person's real character be assessed by a short interview in which personality counting for so much can be altered deliberately to no little extent He describes many investigations which have attempted to discover experimentally the nature and accuracy of personality and character assessments and includes personality sketches of F D Roosevelt W E Gladstone and of other prominent figures He discusses the social results of the microphone and the effect on good and bad taste of opinions widely expressed by listeners and viewers The nature and function of the intellectuals who have increasing opportunities of affecting appearance and speech are examined from the psychologist's standpoint This book will be of interest to students of psychology sociology and social behaviour

Just Sex? Nicola Gavey, 2018-10-26 In the award winning *Just Sex: The Cultural Scaffolding of Rape* Nicola Gavey provides an extensive commentary on the existing literature on rape analysing recent research to examine the psychological and cultural conditions of possibility for contemporary sexual violence *Just Sex* argues that feminist theory on sexual victimization has gone both too far and not far enough It presents the reader with a challenging and original perspective on the issues of rape sex and the body incorporating new material on sexism misogyny and digital culture as well as debates over gendered analyses of sexual violence The second edition has been updated and expanded to be extremely timely and relevant with the most recent high profile rape cases the Stanford rape case and the Belfast rape case being tried in the media and online The rise of the Hollywood Harvey Weinstein scandal and the MeToo movement makes this book incredibly useful and necessary to those who are working within the area of sexual violence This will appeal to academic readers studying psychology sociology and criminology as well as those looking into cultural influences on society It will also be very useful to those working in the professional sector on prevention and with people who have been subjected to sexual violence

Stamped from the Beginning Ibram X. Kendi, 2016-04-12 The National Book Award winning history of how racist ideas were created spread and deeply rooted in American society Some Americans insist that we're living in a post racial society But racist thought is not just alive and well in America it is more sophisticated and more insidious than ever And as award winning historian Ibram X Kendi argues racist ideas have a long and lingering history one in which nearly every great American thinker is complicit In this deeply researched and fast moving narrative Kendi chronicles the entire story of anti black racist ideas and their staggering power over the course of American history He uses

the life stories of five major American intellectuals to drive this history Puritan minister Cotton Mather Thomas Jefferson abolitionist William Lloyd Garrison W E B Du Bois and legendary activist Angela Davis As Kendi shows racist ideas did not arise from ignorance or hatred They were created to justify and rationalize deeply entrenched discriminatory policies and the nation s racial inequities In shedding light on this history Stamped from the Beginning offers us the tools we need to expose racist thinking In the process he gives us reason to hope Parliamentary Debates (Hansard).
