Essential Max Muller On Language Mythology And Religion:

The Essential Max Müller J. Stone, 2016-04-30 Max Müller is often referred to as the father of Religious Studies having himself coined the term science of religion or religionswissenschaft in 1873 It was he who encouraged the comparative study of myth and ritual and it was he who introduced the oft quoted dictum He who knows one religion knows none Though a German born and German educated philologist he spent the greater part of his career at Oxford becoming one of the most famous of the Victorian arm chair scholars Müller wrote extensively on Indian philosophy and Vedic religion translated major sections of the Vedas the Upanisads and all of the Dhammapada yet never visited India To be sure his work bears the stamp of late Nineteenth Century sensibilities but as artifacts of Victorian era scholarship Müller's essays are helpful in reconstructing and comprehending the intellectual concerns of this highly enlightened though highly imperialistic age

The essential Max Müller Jon R. Stone, 2002 *Friedrich Max Müller and the Role of Philology in Victorian Thought* John R. Davis, Angus Nicholls, 2019-05-16 The German comparative philologist Friedrich Max Müller 1823 1900 was one of the most influential scholars in Victorian Britain Müller travelled to Britain in 1846 in order to prepare a translation of the Rig Veda This research visit would turn into a lifelong stay after Müller was appointed as Taylor Professor of Modern Languages at Oxford in 1854 Müller's activities in this position would exert a profound influence on British intellectual life during the second half of the nineteenth century his book length essay on Comparative Mythology 1856 inspired evolutionist thinkers such as Herbert Spencer and Edward Burnett Tylor and made philology into one of the master sciences at mid century his debates with Charles Darwin and his followers on the origin of language constituted a significant component of religiously informed reactions to Darwin's ideas about human descent his arguments concerning the interdependence of language and thought influenced fields such as psychology neurology paediatrics and education until the end of the nineteenth century his theories concerning an Aryan language that purportedly predated Sanskrit and ancient Greek led to controversial debates on the relations between language religion and race in the Indian subcontinent and beyond and his monumental 50 volume edition of the Sacred Books of the East helped to lay the foundations for the study of comparative religion Müller's interlocutors and readers included people as various as Alexander von Humboldt Darwin George Eliot Matthew Arnold Friedrich Nietzsche Ferdinand de Saussure Ernst Cassirer Mohandas K Gandhi and Jawaharlal Nehru This volume offers the most comprehensive and interdisciplinary assessment of Müller's career to date Arising from a conference held at the German Historical Institute in London in 2015 it brings together papers by an international group of experts in German studies German and British history linguistics philosophy English literary studies and religious studies in order to examine the many facets of Müller's scholarship This book was originally published as a special issue of the Publications of the English Goethe Society **Myth and the Human Sciences** Angus Nicholls, 2014-12-05 This is the first book length critical analysis in any language of Hans Blumenberg's theory of myth Blumenberg can be regarded as the most important German theorist of myth

of the second half of the twentieth century and his *Work on Myth* 1979 has resonated across disciplines ranging from literary theory via philosophy religious studies and anthropology to the history and philosophy of science Nicholls introduces Anglophone readers to Blumenberg's biography and to his philosophical contexts He elucidates Blumenberg's theory of myth by relating it to three important developments in late nineteenth and early twentieth century German philosophy hermeneutics phenomenology and philosophical anthropology while also comparing Blumenberg's ideas with those of other prominent theorists of myth such as Vico Hume Schelling Max Müller Frazer Sorel Freud Cassirer Heidegger Horkheimer and Adorno According to Nicholls Blumenberg's theory of myth can only be understood in relation to the human sciences since it emerges from a speculative hypothesis concerning the emergence of the earliest human beings For Blumenberg myth was originally a cultural adaptation that constituted the human attempt to deal with anxieties concerning the threatening forces of nature by anthropomorphizing those forces into mythic images In the final two chapters Blumenberg's theory of myth is placed within the post war political context of West Germany Through a consideration of Blumenberg's exchanges with Carl Schmitt as well as by analysing unpublished correspondence and parts of the original *Work of Myth* manuscript that Blumenberg held back from publication Nicholls shows that Blumenberg's theory of myth also amounted to a reckoning with the legacy of National Socialism

Explaining, Interpreting, and Theorizing Religion and Myth Nickolas P.

Roubekas, Thomas Ryba, 2020-07-20 In *Explaining Interpreting and Theorizing Religion and Myth* Contributions in Honor of Robert A Segal nineteen renowned scholars offer a collection of essays addressing the persisting question of how to approach religion and myth as academic categories Taking their cue from the work of Robert A Segal they discuss how to theorize about religion and myth from a variety of disciplinary perspectives With cases from ancient Greece and Mesopotamia to East Asia and the modern world by and large and engaging with diverse disciplines such as psychology philosophy anthropology history film theology and religious studies among others the volume establishes a synthesis that demonstrates the pervasiveness as well as the pitfalls of the categories religion and myth in the world Contributors are Douglas Allen Fiona Bowie Dexter E Callender Jr Laura Feldt Jos Manuel Losada William Hansen Raya A Jones Roderick Main Jon Mills Henry Munson Angus Nicholls Daniel L Pals Lukas Pokorny Bryan S Rennie Ivan Strenski Steven F Walker Eric Ziolkowski Nickolas P Roubekas Thomas Ryba

conflicts and major historical events Student friendly features include chapter introductions and summaries biographical vignettes a timeline a glossary and many other learning aids **The Bible in Folklore Worldwide** Eric

Ziolkowski,2023-12-31 The Bible in Folklore Worldwide a two volume illustrated Handbook provides readers with original studies of the reception of the Bible in the folklores of different cultures around the world This second volume focuses on biblically derived characters tales and motifs in Asian African Oceanic and American cultures **The Religion Toolkit** John

Morreall,Tamara Sonn,2011-09-15 This complete overview of religious studies provides students with the essential knowledge and tools they need to explore and understand the nature of religion Covers the early development of religion with overviews of major and minor religions from Islam to Scientology Considers recent developments including secularization the relationship between religion and science and scientific studies on religion health and mystical experience Uses humor throughout allowing students to remain open minded to the subject Explains what it means to study religion academically and considers the impact of the study of religion on religion itself Contains numerous student friendly features including photos maps time lines side bars historical profiles and population distribution figures Provides classroom users with a lively website www.wiley.com/go/religiontoolkit including questions quizzes extra material and helpful primary and secondary sources *Accidental Gods* Anna Della Subin,2021-12-07 NAMED A BEST BOOK OF THE YEAR BY ESQUIRE

THE IRISH TIMES AND THE TIMES LITERARY SUPPLEMENT SHORTLISTED FOR THE PEN HESSELL TILTMAN PRIZE A provocative history of men who were worshipped as gods that illuminates the connection between power and religion and the role of divinity in a secular age Ever since 1492 when Christopher Columbus made landfall in the New World and was hailed as a heavenly being the accidental god has haunted the modern age From Haile Selassie acclaimed as the Living God in Jamaica to Britain s Prince Philip who became the unlikely center of a new religion on a South Pacific island men made divine always men have appeared on every continent And because these deifications always emerge at moments of turbulence civil wars imperial conquest revolutions they have much to teach us In a revelatory history spanning five centuries a cast of surprising deities helps to shed light on the thorny questions of how our modern concept of religion was invented why religion and politics are perpetually entangled in our supposedly secular age and how the power to call someone divine has been used and abused by both oppressors and the oppressed From nationalist uprisings in India to Nigerien spirit possession cults Anna Della Subin explores how deification has been a means of defiance for colonized peoples Conversely we see how Columbus Cort s and other white explorers amplified stories of their godhood to justify their dominion over native peoples setting into motion the currents of racism and exclusion that have plagued the New World ever since they touched its shores At once deeply learned and delightfully antic *Accidental Gods* offers an unusual keyhole through which to observe the creation of our modern world It is that rare thing a lyrical entertaining work of ideas one that marks the debut of a remarkable literary career *Encyclopedia of Anthropology* H. James Birx,2006 Focuses on physical social and applied

anthropology archaeology linguistics and symbolic communication Topics include hominid evolution primate behaviour genetics ancient civilizations cross cultural studies and social theories **The Invention of World Religions** Tomoko Masuzawa,2024-05-31 The idea of world religions expresses a vague commitment to multiculturalism Not merely a descriptive concept world religions is actually a particular ethos a pluralist ideology a logic of classification and a form of knowledge that has shaped the study of religion and infiltrated ordinary language In this ambitious study Tomoko Masuzawa examines the emergence of world religions in modern European thought Devoting particular attention to the relation between the comparative study of language and the nascent science of religion she demonstrates how new classifications of language and race caused Buddhism and Islam to gain special significance as these religions came to be seen in opposing terms Aryan on one hand and Semitic on the other Masuzawa also explores the complex relation of world religions to Protestant theology from the hierarchical ordering of religions typical of the Christian supremacists of the nineteenth century to the aspirations of early twentieth century theologian Ernst Troeltsch who embraced the pluralist logic of world religions and by so doing sought to reclaim the universalist destiny of European modernity **Mourning Philology** Marc Nichanian,2014-02-03 Pagan life seduces me a little more with each passing day If it were possible today I would change my religion and would joyfully embrace poetic paganism wrote the Armenian poet Daniel Varuzhan in 1908 During the seven years that remained in his life he wrote largely in this pagan vein If it was an artistic endeavour why then should art be defined in reference to religion And which religion precisely Was Varuzhan echoing Schelling's Philosophy of Art Mourning Philology draws on Varuzhan and his work to present a history of the national imagination which is also a history of national philology as a reaction to the two main philological inventions of the nineteenth century mythological religion and the native In its first part the book thus gives an account of the successive stages of orientalist philology The last episode in this story of national emergence took place in 1914 in Constantinople when the literary journal Mehyan gathered around Varuzhan the great names to come of Armenian literature in the diaspora **The Study of Greek and Roman Religions** Nickolas P. Roubekas,2022-07-14 How should ancient religious ideas be approached Is religion an applicable term to antiquity Should classicists ancient historians and religious studies scholars work more closely together Nickolas P Roubekas argues that there is a disciplinary gap between the study of Greek and Roman religions and the study of religion as a category a gap that has often resulted in contradictory conclusions regarding Greek and Roman religion This book addresses this lack of interdisciplinarity by providing an overview criticism and assessment of this chasm It provides a theoretical approach to this historical period raising the issue of the relationship between theory of religion and history of religion and explores how history influences theory and vice versa It also presents an in depth critique of some crucial problems that have been central to the discussions of scholars who work on Graeco Roman antiquity encouraging us to re examine how we approach the study of ancient religions **Musicology of Religion** Guy L. Beck,2023-05-01 For generations religion and music have been

regarded as universals yet despite the fact that they have been frequently linked throughout history and topography and despite the importance of music in the early stages of religious studies their combined presence has not until now been considered a separate area of study and research While there are well developed fields of anthropology of religion psychology of religion and philosophy of religion the widely recognized connections between religion and sound chant and music warrant comparable study Drawing upon theories and methods in the study of both religion and music referencing examples from world religious traditions and addressing challenges posed by critics this book envisions a unified field for religion and music musicology of religion Grounded in the scope and methods of phenomenology and comparative analysis musicology of religion represents an innovative direction in interdisciplinary study enriched by the social sciences ethnomusicology philosophy theology liturgical studies and cognitive studies As conceived musicology of religion will spearhead new and creative paths in the study of religion

Religion, Virtues, and Health Neal M. Krause, 2021-12-14 In *Religion Virtues and Health New Directions in Theory Construction and Model Development* Krause suggests that religion may operate in part by bolstering physical health as well as psychological well being The book is designed to explain how these health related benefits arise The main conceptual thrust of his model is that people learn to adopt key virtues from fellow church members including forgiveness compassion and beneficence These virtues in turn promote a deeper sense of meaning in life Then meaning in life exerts a beneficial effect on health and well being

What It Means to be Human Joanna Bourke, 2013-07-23 In 1872 a woman known only as An Earnest Englishwoman published a letter titled *Are Women Animals* in which she protested against the fact that women were not treated as fully human In fact their status was worse than that of animals regulations prohibiting cruelty against dogs horses and cattle were significantly more punitive than laws against cruelty to women The Earnest Englishwoman's heartfelt cry was for women to become animal in order to gain the status that they were denied on the grounds that they were not part of mankind In this fascinating account Joanna Bourke addresses the profound question of what it means to be human rather than animal How are people excluded from political personhood How does one become entitled to rights The distinction between the two concepts is a blurred line permanently under construction If the Earnest Englishwoman had been capable of looking 100 years into the future she might have wondered about the human status of chimeras or the ethics of stem cell research Political disclosures and scientific advances have been re locating the human animal border at an alarming speed In this meticulously researched illuminating book Bourke explores the legacy of more than two centuries and looks forward into what the future might hold for humans women and animals

Unamuno's Theory of the Novel C.A. Longhurst, 2017-07-05 Miguel de Unamuno 1864 1936 is widely regarded as Spain's greatest and most controversial writer of the first half of the twentieth century Professor of Greek and later Rector at the University of Salamanca and a figure with a noted public profile in his day he wrote a large number of philosophical political and philological essays as well as poems plays and short stories but it is his highly idiosyncratic novels

for which he coined the word *nivola* that have attracted the greatest critical attention *Niebla* *Mist* 1914 has become one of the most studied works of Spanish literature such is the enduring fascination which it has provoked In this study C A Longhurst a distinguished Unamuno scholar sets out to show that behind Unamuno's fictional experiments there lies a coherent and quasi philosophical concept of the novelesque genre and indeed of writing itself Ideas about freedom identity finality mutuality and community are closely intertwined with ideas on writing and reading and give rise to a new and highly personal way of conceiving fiction
