Essentials in Conducting Karl Wilson Gehrken, 1919 **Essentials in Conducting** Karl Wilson Gehrken, 2015-12-30 In putting out this little book the author is well aware of the fact that many musicians feel that conductors like poets and teachers are born and not made but his experience in training supervisors of music has led him to feel that although only the elementary phases of conducting can be taught such instruction is nevertheless quite worth while and is often surprisingly effective in its results He has also come to believe that even the musical genius may profit by the experience of others and may thus be enabled to do effective work as a conductor more quickly than if he relied wholly upon his native ability

this no amount of musical ability or anything else will enable him to conduct well We shall have more to say upon this point in a later chapter About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
