Image Of Christ:

The Image of Christ Dr Gabriele Finaldi, 2000 This book and the exhibition it accompanies express the confidence that modern secular audiences can engage with the masterpieces of Christian art at an emotional as well as a purely aesthetic or historical level Their aim is to help the viewer understand these pictures by focusing attention on the purpose for which they were made and exploring why they might have meant to their original viewers Images of Christ Stanley E. Porter, Michael A. Hayes, David Tombs, 1997 These essays explore the depictions of Christ in the Bible theology literature and the arts showing how each medium approaches the subject from different angles and perspectives *The True Image* Philip Edgcumbe Hughes, 1989 This is a print on demand book and is therefore non returnable This book focuses on the understanding of our humanity anthropology in the light of the doctrine of Christ Christology Hughes opens with a doctrinal discussion on man s creation in the image of God continues by considering the effects of man s fallenness resulting from the rejection of that image and concludes with a detailed study on the restoration of the image through the redemption provided by God in Christ The Image of Christ in Modern Art Richard Harries, 2016-03-03 The Image of Christ in Modern Art explores the challenges presented by the radical and rapid changes of artistic style in the 20th century to artists who wished to relate to traditional Christian imagery In the 1930s David Jones said that he and his contemporaries were acutely conscious of the break by which he meant the fragmentation and loss of a once widely shared Christian narrative and set of images In this highly illustrated book Richard Harries looks at some of the artists associated with the birth of modernism such as Epstein and Rouault as well as those with a highly distinctive understanding of religion such as Chagall and Stanley Spencer He discusses the revival of confidence associated with the rebuilding of Coventry Cathedral after World War II and the commissioning of work by artists like Henry Moore Graham Sutherland and John Piper before looking at the very testing last quarter of the 20th century He shows how here and even more in our own time fresh and important visual interpretations of Christ have been created both by well known and less well known artists In conclusion he suggests that the modern movement in art has turned out to be a friend not a foe of Christian art Through a wide and beautiful range of images and insightful text Harries explores the continuing challenge present from the beginning of Christian art as to how that which is visual can in some way indicate the transcendent **Christ's Subversive Body** Olga V. Solovieva, 2017-11-15 Christ s Subversive Body offers a fascinating exploration of six historical examples of politically or culturally subversive usages of the body of Christ Shining a light on the enabling potential of religious rhetoric Solovieva examines how in moments of crisis or transition throughout Western history the body of Christ has been deployed in a variety of discourses including recent neo and theoconservative movements in the United States Solovieva s survey includes the iconoclastic polemics of Epiphanius at the moment of struggles for supremacy between the Roman state and the Christian church the mystical theologico political alchemy of an anonymous treatise circulated at the Council of Constance Lavater s counter

Enlightenment visions of the afterlife expressed through physiognomy Dostoevsky's refashioning of ethical communities Pier Paolo Pasolini's attempts to provoke the scandal of Jesus's mission once more in the modern world and the elaboration of a political theology subordinating democratic dissent to the higher unity of a corporately conceived unitary executive in early twenty-first century America Solovieva presents her findings not as an entry into theological or Christological debates but rather as a study in comparative discourse analysis She demonstrates how these uses of Christ's body are triggered by moments of epistemological political and representational crisis in the history of Western civilization *The Pattern and the Image* David Vopřada, Markéta Dudziková, Viacheslav V. Lytvynenko, 2025-06-02 One of Plato's best known ideas is that the sensible world is an image of the intelligible pattern The book examines the second life of this concept in late antiquity especially in the Hellenistic Jewish and Christian milieu It opens with the discussion of the key features of the pattern image concept in Plato and Plotinus and then focuses on the adoption of this concept in the works of Philo of Alexandria and the early Christian authors Clement of Alexandria Origen Eusebius Athanasius Gregory Nazianzus Didymus the Blind Ambrose of Milan and Pseudo Athanasius The collected papers illuminate various aspects of the topic including the importance of the visible world and art in Platonism allegorical and Christological interpretations of the biblical account of creation and relation of the intelligible pattern in the Logos to the world The authors analyze the Jewish and Christian reinterpretations of the pattern image structure by looking into the ontological dignity of the image its similarity and dissimilarity to the pattern and the mutual chronology of the pattern and the image Combining theological philosophical and philological approaches the book offers a complex view of the pattern image relationship in various contexts *Images and Ideas in the Middle Ages* Gerhart Burian Ladner, 1983 *The Meaning of Icons* Léonide Ouspensky, Vladimir Lossky, 1982 The nature of the icon cannot be grasped by means of pure art criticism nor by the adoption of a sentimental point of view Its forms are based on the wisdom contained in the theological and liturgical writings of the Eastern Orthodox Church and are intimately bound up with the experience of the contemplative life The present work is the first of its kind to give a reliable introduction to the spiritual background of this art The introduction into the meaning and language of the icons by Ouspensky imparts to us in an admirable way the spiritual conceptions of the Eastern Orthodox Church which are often so foreign to us but without the knowledge of which we cannot possibly understand the world of the icon Back cover **The Traditio Legis: Anatomy of an Image** Robert Couzin, 2015-04-30 This monograph engages in a close reading of the traditio legis highlighting its novelty and complexity to early Christian viewers The image is analyzed as a conflation of two distinct forms of representation each constructed of unusual and potentially multivalent elements **The Image of Christ** J. van Oosterzee, 2019-03-07 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries

Messengers of Infinity Eyal Peretz, 2025-03-01 Presented here is the first philosophical engagement with the pictorial work of Leonardo seen as a systematic whole It is not written from the point of view of an art historian even as it tries to benefit from art historical insights and procedures but that of contemporary continental philosophy and theories of modern artistic media Author Eyal Peretz's main objective is to understand the historical and logical place Leonardo's paintings occupy in the transition from the age of medieval sacred images to Renaissance or early modern painting Leonardo Peretz argues introduced a media revolution which has still not been fully assimilated and understood His modernity is still ahead of us Written in a clear and engaging style Messengers of Infinity will appeal equally to Leonardo experts experts in continental philosophy and those who are experts in neither of these fields but have an intellectual curiosity about the historical and conceptual significance of Leonardo in particular and of modern painting in general

Seeing Salvation Neil MacGregor, Erika Langmuir, 2000 The story of the life and death of Christ has shaped Western European art for nearly two thousand years providing a framework for great artists to address universal questions of love hope heroism and suffering Since there are no contemporary accounts of Jesus' appearance his image in Western art has been able to reflect variously the spiritual world of the artist the desires of the patron or the needs of the spectator In this magnificently illustrated book Neil MacGregor considers the many ways in which artists at different times and from different cultures have presented the story of Christ and explains how the likeness of Jesus that we now all recognize has emerged Focusing on images of Christ in high art and popular craft throughout the world in galleries churches museums private homes catacombs and market stalls MacGregor traces the life of Christ and the development of Christian culture since his birth He shows how some of the works reveal not only society's view of Christ and of itself but also the inner spiritual turmoil of their creators MacGregor points to Michelangelo's successive sculptures of the Pieta for example in which the artist left a record of the evolution of his faith and of the anguish and doubt that colored his last days In the same way Rembrandt's reworking of his etching of the Crucifixion reveals not just his changing understanding of the event but also his darkening view of life Throughout MacGregor argues that images of Christ can still speak powerfully to believers and nonbelievers and that they are as important to us now as a way of understanding our lives as they were when they were made

Transforming into the Image of Christ Adeolu Obatayo, 2019-12-11 The Bible says that in the last days people would have a form of godliness but deny its power 2 Timothy 3 The power denied is that required for

true conversion i.e. transformation This book is meant to affirm those that profess the Christian faith that when we are justified by Christ in the process of salvation it comes with the power of the Holy Spirit who indwells us and seals us his power leads to a compulsory sanctification as evidence of true salvation because the goal of God in the beginning remains the same which is to create man in his own image Transformation is the mandatory process of the Holy Spirit conforming us into the spiritual and moral likeness of Christ and it is completed only when we are glorified in heaven **St Theodore the**
