*Image of China* Susan Sloman, William Alexander, 1980      *Chinese History* Endymion Porter Wilkinson, 2000 Endymion Wilkinson's bestselling manual of Chinese history has long been an indispensable guide to all those interested in the civilization and history of China. In this latest edition now in a bigger format its scope has been dramatically enlarged by the addition of one million words of new text. Twelve years in the making the new manual introduces students to different types of transmitted excavated and artifactual sources from prehistory to the twentieth century. It also examines the context in which the sources were produced preserved and received the problems of research and interpretation associated with them and the best most up to date secondary works. Because the writing of history has always played a central role in Chinese politics and culture special attention is devoted to the strengths and weaknesses of Chinese historiography      **China** Eileen Tamura, 1997-01-01 *China Understanding Its Past* aims to fill a conspicuous gap in conventional world history texts which are often Eurocentric and give scant attention to Asia. Using role playing simulations debates primary documents first person accounts excerpts from literary works and cooperative learning activities this text will help students explore many key aspects of China's history and culture. The teacher's manual includes a synopsis of each chapter and section learner outcomes definitions of key concepts directions for student activities and possible responses to questions posed in the student text. The CD contains selections of Chinese music from different time periods and locales. Liner notes include English translations of lyrics as well as historical information about each selection      **China on Paper** Marcia Reed, Paola Demattè, Getty Research Institute, 2011 Published to accompany the exhibition held at the Getty Research Institute Nov 6 2007 to Feb 10 2008      *Art, Science, and Diplomacy: A Study of the Visual Images of the Macartney Embassy to China, 1793* Shanshan Chen, 2023-04-30 This book examines how the Embassy members approached selected and represented information and how in doing so they helped to shape European perceptions of China. The Macartney Embassy of 1793 was the first British diplomatic mission to China seeking to open ties between the two empires. As part of the mission the British government commissioned writers and artists to chronicle the geography and culture of a civilization that had until then been shrouded in mystery. A central focus of the book is the artwork itself which provides a window into the diplomatic artistic and scientific viewpoints underlying the mission. Drawing on archival research the study recreates the processes through which the Embassy's draughtsmen scientists and diplomats collaborated to represent the visual images and how the materials were reworked for publication in London. The finished product demonstrates that the artists offered a distinct viewpoint in the representation of China sometimes differing from the textual accounts by blending scientific elements and artistic aesthetics in order to demystify China and make it more knowable to a British audience. It was in the interposition of text and image that the British public formulated an ambivalent perception of China that embraced both admiration and disdain. In addition to the scholars the book targets general readers who are interested in global art and history and East West interactions. It

contains important images with detailed visual and historical analysis that enable readers to acquire knowledge on how the British represented China and how that image helped to shape the European perception of China during the British global expansion in the eighteenth and nineteenth centuries and beyond Death by a Thousand Cuts Timothy Brook, Jérôme Bourgon, Gregory Blue, 2025-09-01 In Beijing in 1904 multiple murderer Wang Weiqin became one of the last to suffer the extreme punishment known as lingchi called by Western observers death by a thousand cuts This is the first book to explore the history iconography and legal contexts of Chinese tortures and executions from the 10th century until lingchi's abolition in 1905 Britain's Chinese Eye Elizabeth Chang, 2010-04-20 This book traces the intimate connections between Britain and China throughout the nineteenth century and argues for China's central impact on the modern British visual imagination through a study of gardens blue and white willow plates the opium den and the photograph and literary texts Changing Clothes in China Antonia Finnane, 2023-05-30 Historians have long regarded fashion as something peculiarly Western In this surprising sumptuously illustrated book Antonia Finnane challenges this view which she argues is based on nineteenth and twentieth century representations of Chinese dress as traditional and unchanging Fashions she shows were part of Chinese life in the late imperial era even if a fashion industry was not then apparent In the early twentieth century the key features of modern fashion became evident particularly in Shanghai and rapidly changing dress styles showed the effects The volatility of Chinese dress throughout the twentieth century matched vicissitudes in national politics Finnane describes in detail how the close fitting jacket and high collar of the 1911 Revolutionary period the skirt and jacket blouse of the May Fourth era and the military style popular in the Cultural Revolution gave way finally to the variegated globalized wardrobe of today She brilliantly connects China's modernization and global visibility with changes in dress offering a vivid portrait of the complex subtle and sometimes contradictory ways the people of China have worn their nation on their backs *Discovered but Forgotten* Bin Yang, 2024-12-24 Chinese traders and explorers first visited the Maldives an archipelago in the Indian Ocean in the early fourteenth century The traveler Wang Dayuan discovered the island sultanate for the Chinese world and merchants increasingly dealt in Maldivian goods such as coconuts cowrie shells and ambergris Zheng He's fifteenth century voyages ventured to the islands by then a trading hub and brought their envoys to Beijing But the Maldives faded from Chinese records by the end of the sixteenth century after the Ming state suddenly retreated from the Indian Ocean and shifted focus to Southeast Asia *Discovered but Forgotten* is a pioneering examination of China's relations with the Maldives and Sino Indian Ocean interactions offering new ways to understand Chinese maritime exploration and the global history of the Indian Ocean Drawing on a wide range of sources including written records Chinese and Jesuit maps and archaeological analysis of shipwrecks Bin Yang provides a comprehensive account of Chinese links to the Maldives and the Indian Ocean world from ancient times through the late Ming era He scrutinizes Chinese understandings of the islands emphasizing both seafaring material culture and textual knowledge production Yang reconsiders the works of travelers such as Marco Polo and Ibn

Battuta in light of Chinese explorations and he opens a window onto a colorful world of intriguing commodities port marriages and voyages across the vast waters of maritime Asia Transregional and interdisciplinary Discovered but Forgotten reveals how a remote archipelago shaped the vast Chinese empire *Brush & Shutter* Jeffrey W. Cody, Frances Terpak, 2011 Accompanies an exhibition held at the J Paul Getty Museum 8 February 1 May 2011 **Mapping Chengde** Philippe Forêt, 2000-01-01 The imperial residence of Chengde was built by two powerful and ambitious Manchu emperors between 1703 and 1780 in the mountains of Jehol The site which is on UNESCO's World Heritage List combines the largest classical gardens in China with a unique series of grand monasteries in the Sino Tibetan style Mapping Chengde the first scholarly publication in English on the Manchu summer capital reveals how this unlikely architectural and landscape enterprise came to help forge a dynasty's multicultural identity and concretize its claims of political legitimacy Using both visual and textual materials the author explores the hidden dimensions of landscape showing how geographical imagination shaped the aesthetics of Qing court culture while proposing a new interpretation of the mental universe that conceived one of the world's most remarkable examples of imperial architecture **Modern Asian Art** John Clark, 1998-01-01 A seminal publication focusing on the modern art of Japan China India Thailand and Indonesia A significant and challenging contribution to the discussion of the advent of modernism in Asia *The Chinese Chameleon Revisited* Zheng Yangwen 郑阳文, 2014-09-01 By examining how the Middle Kingdom has been portrayed by foreigners and the Chinese themselves this volume advances a new perspective in our reading and interpretation of the Chinese past by placing these producers and presenters of China in the spotlight The chapters probe how these figures produced or presented the country cross examining their backgrounds and circumstances Their gaze upon the Middle Kingdom was dictated by religious and political conviction but also particularly by the consumers of that gaze Like invisible hands producers and consumers of China continue to constrain representations of the country looming larger than the literary artistic or journalistic works they produce This volume also addresses scholars of Europe and America who have overlooked what Western writers on China reveal about their own contexts which is indeed often more than they reveal about their ostensible subject As such the Middle Kingdom serves as a convenient mirror to reflect European and American anxieties and ambitions **Law, Resources and Time-Space Constructing** Zhang Shiming, 2022-01-17 This book studies the judicial evolution of the Qing Dynasty It sums up the changes from six major aspects 1 Banfang emerged in the late Qianlong period 2 The opening of capital appeals early in Jiaqing's reign 3 The consular jurisdiction was established during Daoguang's reign 4 The execution on the spot was started in Daoguang and Xianfeng periods 5 The introduction of fashenju a interrogatory court happened during Tongzhi's reign 6 Late in Guangxu's reign banishment was abolished and reforms were made for prisons In the past people did not have a comprehensive understanding of these big changes From the perspective of legal culture scholars often criticize traditional Chinese law focuses on criminal law while ignores civil law in terms of legal culture but this situation can be explained in

part by the inadequate allocation of resources and authoritarian resources in traditional societies Using a large number of archives and precious materials such as private notes that were not noticed by academics in the past this book adopts the research path of new historical jurisprudence to explore the inner logic of judicial evolution in the Qing Dynasty focusing on the triangular connection between legal rules resources and temporal and spatial constructions which is an important contribution to the study of traditional Chinese law

**Liverpool China Traders** Christina Baird,2007 Perhaps the most enduring image of the China Trade is the clipper ship carrying tea from China In 1869 the clippers were finally overshadowed by the introduction of steam vessels which could make passage through the Suez

Canal significantly shortening the length of the voyage Letters journals and order books have survived which tell us about the traders their private trading activities motivation tastes and private lives This book examines the role played by the port of

Liverpool in this time of great change The book examines Liverpool s early participation in the China Trade following the cessation of the British East India Company s monopoly of the trade in 1834 and maps the changes in artistic tastes that the

commencement of free trade gave rise to These new tastes represented a true fusion of European and Chinese cultural influences and replaced the pastiche of The Orient that chinoiserie represented during the period of the monopoly Amazon
