Images From Hell A Battle With Ptsd:

Psychological Trauma and the Legacies of the First World War Jason Crouthamel, Peter Leese, 2016-11-17 This transnational interdisciplinary study of traumatic neurosis moves beyond the existing histories of medical theory, welfare and symptomatology. The essays explore the personal traumas of soldiers and civilians in the wake of the First World War; they also discuss how memory and representations of trauma are transmitted between patients, doctors and families across generations. The book argues that so far the traumatic effects of the war have been substantially underestimated. Trauma was shaped by gender, politics and personality. To uncover the varied forms of trauma ignored by medical and political authorities, this volume draws on diverse sources such as family archives and narratives by children of traumatized men, documents from film and photography, memoirs by soldiers and civilians. This innovative study challenges us to re-examine our approach to the complex psychological effects of the First World War.

The Empire of Trauma Didier Fassin, Richard Rechtman, 2009-07-26 This work shows how during the 20th century the perspective on victims of trauma shifted from suspicion to recognition. From these ethnographical fieldworks, the authors thus propose a broader perspective on the political and moral issues of contemporary societies.

The War of My Generation David Kieran, 2015-08-04 Following the 9/11 attacks, approximately four million Americans have turned eighteen each year, and more than fifty million children have been born. These members of the millennial and post-millennial generation have come of age in a moment marked by increased anxiety about terrorism, two protracted wars, and policies that have raised questions about the United States's role abroad and at home. Young people have not been shielded from the attacks or from the wars and policy debates that followed. Instead, they have been active participants as potential military recruits and organizers for social justice amid anti-immigration policies, as students in schools learning about the attacks, or readers of young adult literature about wars. *The War of My Generation* is the first essay collection to focus specifically on how the terrorist attacks and their aftermath have shaped these new generations of Americans. Drawing from a variety of disciplines including anthropology, sociology, cultural studies, and literary studies, the essays cover a wide range of topics from graphic war images in the classroom to computer games designed to promote military recruitment to emails from parents in the combat zone. The collection considers what cultural factors and products have shaped young people's experience of the 9/11 attacks, the wars that have followed, and their experiences as emerging citizen subjects in that moment. Revealing how young people understand the War on Terror and how adults understand the way young people think, *The War of My Generation* offers groundbreaking research on catastrophic events still fresh in our minds.

Enduring Images Paul Fazekas, 2009-02 Paul Fazekas was drafted into the U.S. Army in 1969 at nineteen years of age. He served as a rifleman with the First Air Cavalry Division, Airmobile, and the 11th Light Infantry Brigade during his one-year tour of Vietnam. His book examines the personal cost of war suffered by combat veterans throughout their lifetime after they return.

Cultural Heritage of the Great War in Britain Ross J.

Wilson,2016-04-22 As the hundredth anniversary approaches it is timely to reflect not only upon the Great War itself and on the memorials which were erected to ensure it did not slip from national consciousness but also to reflect upon its rich and substantial cultural legacy This book examines the heritage of the Great War in contemporary Britain It addresses how the war maintains a place and value within British society through the usage of phrases references metaphors and imagery within popular media heritage and political discourse Whilst the representation of the war within historiography literature art television and film has been examined by scholars seeking to understand the origins of the popular memory of the conflict these analyses have neglected how and why wider popular debate draws upon a war fought nearly a century ago to express ideas about identity place and politics By examining the history usage and meanings of references to the Great War within local and national newspapers historical societies political publications and manifestos the heritage sector popular expressions blogs and internet chat rooms an analysis of the discourses which structure the remembrance of the war can be created The book acknowledges the diversity within Britain as different regional and national identities draw upon the war as a means of expression Whilst utilising the substantial field of heritage studies this book puts forward a new methodology for assessing cultural heritage and creates an original perspective on the place of the Great War across contemporary British society

Trauma, Religion and Spirituality in Germany during the First World War Jason Crouthamel,2021-10-21 This book explores the impact of violence on the religious beliefs of front soldiers and civilians in Germany during the First World War The central argument is that religion was the main prism through which men and women in the Great War articulated and processed trauma Inspired by trauma studies the history of emotions and the social and cultural history of religion this book moves away from the history of clerical authorities and institutions at war and instead focuses on the history of religion and war from below Jason Crouthamel provides a fascinating exploration into the language and belief systems used by ordinary people to explain the inexplicable From Judeo Christian traditions to popular beliefs and superstitions German soldiers and civilians depended on a malleable psychological toolbox that included a hybrid of ideas stitched together using prewar concepts mixed with images or experiences derived from the surreal environment of modern combat Perhaps most interestingly studying the front experience exposes not only lived religion but also how religious beliefs are invented Front soldiers in particular constructed new subjective spiritual and religious concepts based on encounters with industrialized weapons the sacred experience of comradeship and immersion in mass death which profoundly altered their sense of self and the supernatural More than just a coping mechanism religious language and beliefs enabled victims and perpetrators of violence to narrate concepts of psychological renewal and rebirth In the wake of defeat and revolution religious concepts shaped by the war experience also became a cornerstone of visions for radical political movements including the National Socialists to transform a shattered and embittered German nation Making use of letters between soldiers and civilians diaries memoirs and front newspapers Trauma Religion and Spirituality in Germany during the First World War offers a unique

glimpse into the belief systems of men and women at a turning point in European history **The Warrior Image** Andrew J. Huebner, 2011-12-01 Images of war saturated American culture between the 1940s and the 1970s as U S troops marched off to battle in World War II the Korean War and the Vietnam War Exploring representations of servicemen in the popular press government propaganda museum exhibits literature film and television Andrew Huebner traces the evolution of a storied American icon the combat soldier Huebner challenges the pervasive assumption that Vietnam brought drastic changes in portrayals of the American warrior with the jaded serviceman of the 1960s and 1970s shown in stark contrast to the patriotic citizen soldier of World War II In fact Huebner shows cracks began to appear in sentimental images of the military late in World War II and were particularly apparent during the Korean conflict Journalists filmmakers novelists and poets increasingly portrayed the steep costs of combat depicting soldiers who were harmed rather than hardened by war isolated from rather than supported by their military leadership and American society Across all three wars Huebner argues the warrior image conveyed a growing cynicism about armed conflict the federal government and Cold War militarization

Requiem Erel Shalit, 2010 Requiem returns us to an eternal theme a dialogue with Soul and we know quite well what happens when one dialogues with Soul we change consciousness is enlarged the impossible becomes possible and we no longer are compelled to blindly follow in the deathly path of our forefathers Requiem is a fictitious account of a scenario played out in the mind of many Israelis pertaining to existential reflections and apocalyptic fears but then as well the hope and commitment that arise from the abyss of trepidation While set in Israel sometime in the present it is a story that reaches into the timelessness of history weaving discussions with Heine and Kafka into a tale of universal implications

Consuming History Jerome de Groot, 2009-01-13 Non academic history public history is a complex dynamic entity which impacts on the popular understanding of the past at all levels In Consuming History Jerome de Groot examines how society consumes history and how a reading of this consumption can help us understand popular culture and issues of representation This book analyzes a wide range of cultural entities from computer games to daytime television from blockbuster fictional narratives such as Da Vinci Code to DNA genealogical tools to analyze how history works in contemporary popular culture Jerome de Groot probes how museums have responded to the heritage debate and the way in which new technologies have brought about a shift in access to history from online game playing to internet genealogy He discusses the often conflicted relationship between public and academic history and raises important questions about the theory and practice of history as a discipline Whilst mainly focussing on the UK the book also compares the experiences of the USA France and Germany Consuming History is an important and engaging analysis of the social consumption of history and offers an essential path through the debates for readers interested in history cultural studies and the media The Daughter's Way Tanis MacDonald, 2012-09-01 The Daughter s Way investigates negotiations of female subjectivity in twentieth century Canadian women s elegies with a special emphasis on the father s death as a literary and political watershed The book examines the

work of Dorothy Livesay P K Page Jay Macpherson Margaret Atwood Kristjana Gunnars Lola Lemire Tostevin Anne Carson and Erin Mour as elegiac daughteronomies literary artifacts of mourning that grow from the poets investigation into the function and limitations of elegiac convention Some poets treat the father as a metaphor for socio political power while others explore more personal iterations of loss but all the poets in *The Daughter's Way* seek to redefine daughterly duty in a contemporary context by challenging elegiac tradition through questions of genre and gender Beginning with psychoanalytical theories of filiation inheritance and mourning as they are complicated by feminist challenges to theories of kinship and citizenship *The Daughter's Way* debates the efficacy of the literary work of mourning in twentieth century Canadian poetry By investigating the way a daughter's filial piety performs and sometimes reconfigures such work and situating melancholia as a creative force in women's elegies the book considers how elegies inquire into the rhetoric of mourning as it is complicated by father daughter kinship

Cultures of War in Graphic Novels Tatiana Prorokova, Nimrod Tal, 2018-07-06 First runner up for the 2019 Ray and Pat Browne Award for the Best Edited Collection in Popular and American Culture *Cultures of War in Graphic Novels* examines the representation of small scale and often less acknowledged conflicts from around the world and throughout history The contributors look at an array of graphic novels about conflicts such as the

Boxer Rebellion 1899 1901 the Irish struggle for national independence 1916 1998 the Falkland War 1982 the Bosnian War 1992 1995 the Rwandan genocide 1994 the Israel Lebanon War 2006 and the War on Terror 2001 The book explores the multi layered relation between the graphic novel as a popular medium and war as a pivotal recurring experience in human history The focus on largely overlooked small scale conflicts contributes not only to advance our understanding of graphic novels about war and the cultural aspects of war as reflected in graphic novels but also our sense of the early twenty first century in which popular media and limited conflicts have become closely interrelated *Testimony* Paul W.

Comparative Literature and the Historical Imaginary Kaisa Kaakinen,2017-06-12 This book argues that increasingly transnational reading contexts of the twenty first century place new pressures on fundamental questions about how we read literary fiction Prompted by the stylistic strategies of three European migr writers of the twentieth century Conrad Weiss and Sebald it demonstrates the need to pose more differentiated questions about specific effects that occur

when literary narratives meet a readership with a heterogeneous historical imaginary In conversation with reception theory trauma theory and transnational and postcolonial studies the study shows how historical pressures in the twentieth and twenty first centuries require comparative literature to address not only implied but also various unimplied reading positions that engage history in displaced yet material ways This book opens new analytical paths for thinking about literary texts as media of historical imagination and conceiving relations between incommensurable historical events and contexts Challenging overly global and overly local readings alike the book presents a sophisticated contribution to discussions on how to reform the discipline of comparative literature in the twenty first century Trauma, Cultural Complexes, and Transformation Evija Volfa Vestergaard, 2018-06-28 Trauma Cultural Complexes and Transformation Folk Narratives and Present Realities contributes to our understanding of how culturally traumatic events affect present day realities and suggests the potential for healing by combining theories on psychological trauma cultural complexes and transformations It draws on insight from a range of disciplines including Jungian psychology literary criticism folkloristics neurosciences quantum physics and social studies Evija Volfa Vestergaard maps folk narratives of human encounters with extra human entities as communications of cultural traumas suffered by tellers who are embedded in particular historical and geographical settings focusing on the little explored globally emerging cultures of Latvia and South Africa alongside the United States of America These cultural narratives form a bridge to a discourse on the social political and economic issues faced by these countries and the world at large Vestergaard outlines the parallels between dreams and visions of individuals essential in healing and the mythological legend genre serving the same function for groups and cultures demonstrating that the aim of these open ended communications is not only to reveal hidden truth but also to stir our imagination about potentialities Healing of traumas demands a world of global relatedness based on nurturing kinship and such a transformation begins with imagining Trauma Cultural Complexes and Transformation represents essential reading for academics and students of Jungian and post Jungian studies folklore psychology cultural studies and anthropology as well as Jungian analysts and psychotherapists *A New Way of Seeing* Michael Sarnowski, 2025-06-04 A New Way of Seeing considers the poetry of five writers Louis Simpson Keith Douglas Richard Hugo Howard Nemerov and Randall Jarrell whose work draws on their activities as soldiers in World War II Basing his examination on extensive primary source research Michael Sarnowski identifies distance both literal and figurative and traumatic memory as two interconnected elements of how these poets internalized the war and made sense of the events they witnessed The book is structured on a gradient related to each poet s proximity to combat as the chapters in turn focus on an infantryman Simpson a tank commander Douglas a bombardier Hugo a pilot Nemerov and a stateside flight instructor Jarrell Sarnowski relies on a wealth of archival material overlooked by previous scholarship including poem drafts correspondence flight logs and personal belongings The conclusion revisits notions of legacy and representation by assessing factors that contributed to the early labeling of World

War II soldiers as a Silent Generation in contrast to the outpouring of poetry published during and following the First World War By exploring how poets processed their wartime experiences A New Way of Seeing offers a stark reminder of why it remains vital to recognize the physical mental and psychological consequences endured by veterans **From the 'Troubles' to Trumpism** Stephen Watt,2024-09-10 In Shakespeare Our Contemporary 1964 Polish critic Jan Kott defines one purpose of scholarship in the humanities that summarises the chief aim of this project The writing of history and above all literary criticism can and must always be understood as an attempt to find in the past aspects of human experience that can shed light on the meaning of our own times That is precisely what From the Troubles to Trumpism Ireland and America 1960 2023 attempts to do Aided by the insights of Irish and Northern Irish playwrights poets and novelists this book uses America s historical relationship with Ireland and Northern Ireland as a means of understanding the rise of Trumpism and assessing its potential to incite a new American Troubles Three related aims are to demonstrate the interdependence of Ireland and the United States since the Famine in Ireland and the American Civil War in the nineteenth century to delineate the political and economic obstacles in the latter decades of the last century that prevented this relationship from evolving into a more consequential partnership and to identify the underappreciated leaders who played crucial roles in both the brokering of the Good Friday Agreement and the inception of a revised foreign policy Fiendish Crime Robert James Clark,2023-08-08 In 1928 the bodies of two young boys were found in the Indiana Harbor shipping canal of East Chicago their identities unknown With no missing children of their age and appearance reported in the city the police had begun to lose hope until a breakthrough led them to the murderer their father George Chisholm a Canadian World War I veteran How could a parent commit such a crime The case drew headlines around the country and worldwide The death penalty loomed for Chisholm and his attorneys planned a campaign to save him from the electric chair on the grounds of mental illness During World War I while serving in the Victoria Rifles of Canada for three years Chisholm endured the horrors of trench warfare and the Battle of Vimy Ridge After being gassed and shell shocked on the battlefield Chisholm returned to Canada a changed man and his mental health deteriorated Although the war had produced epidemic levels of shell shock it had often been viewed as cowardice or nervousness rather than debilitating psychological trauma And yet its effects persisted long afterward manifested in shocking cases like Chisholm s Set near Chicago during the roaring twenties the era of Capone and Lindbergh bootlegging gangsters and rapid social change Fiendish Crime explores not only George Chisholm s case but also the legacy of tragedy that continues long after war
