

Powers of Imaginary Numbers

Remember:

$$i = \sqrt{-1}$$

$$\text{Therefore: } i^2 = \sqrt{-1} \cdot \sqrt{-1} = \boxed{-1}$$

$$i^3 = \sqrt{-1} \cdot \sqrt{-1} \cdot \sqrt{-1} = -\sqrt{-1} = \boxed{-i}$$

$$i^4 = \sqrt{-1} \cdot \sqrt{-1} \cdot \sqrt{-1} \cdot \sqrt{-1} = -1 \cdot -1 = \boxed{1}$$

↑ Use to solve big exponents like:

$$i^{73} = i^{72} \cdot i = (i^4)^{18} \cdot i = (1)^{18} \cdot i = \boxed{i}$$

Remember, $i^4 = 1$

Quantum Faith Jeffrey Strickland, 2011-09-13 Typically scientist try to either prove or disprove Scripture as it relates the Creation story then write books about their findings Quantum Faith is not one of those books Instead the author accepts the Word of God a priori Quantum Faith is a journey through elementary quantum mechanics chaos theory number theory and more This is also a journey through the author's faith and what he has discovered about science through it his faith has been unshaken by science and mathematics Quantum Faith examines the Creation account using the results to support what scientists have discovered about the universe Their discoveries were already contained in the Bible Quantum Faith portrays God as perfect His creation perfect in every regard Imperfection was introduced by the Fall or Man God is all powerful all knowing transcends time space and our understanding God is order and you will find that chaos contains unobservable order Quantum Faith will make you think It may change your life **Symmetrical Analysis Techniques for Genetic Systems and Bioinformatics: Advanced Patterns and Applications** Petoukhov, Sergey, He, Matthew, 2009-10-31 This book compiles studies that demonstrate effective approaches to the structural analysis of genetic systems and bioinformatics Provided by publisher

Foundations Of Transcomplex Numbers, E-math Iv' 2007 Ed.(advance Algebra & Trigonometry), **Lines of Evidence: How Recent Science Infers the Existence of God** Rick Jory, 2023-08-18 Secular science demands we accept the philosophical dogma of scientific materialism that only material entities exist Yet recent science has discovered the immaterial Also mandated is the assumption that all things must be explained by natural causes But we now are certain that the universe had a beginning There was a time when nature didn't exist and yet we must attribute the origin of the universe to nature And what about

Darwin's theory of evolution taken as fact that every plant and animal owe its origin to a common ancestor and naturalistic causes. At the time of Darwin over a century and a half ago no one knew the true complexity of the cell. We now know the simplest of living organisms has 159 662 base pairs of DNA and 182 protein coding genes. What naturalistic cause put all of this together? Could this be assembled by blind purposeless accident? What does recent science have to say? And what about recent discoveries in origin of life research? Do we now know enough to suggest life could not have created itself? A lot is happening in today's science that is best explained through the Christian worldview. Let's see what some of today's scientists are now saying.
