Imaginary Movie:

Film Nick Deocampo, 2017-11-09 This book is a sequel to *Cine Spanish Influences on Early Cinema in the Philippines* and part of Nick Deocampo's extensive research on Philippine cinema. Tracing the beginnings of motion pictures from its Spanish roots, this book advances Deocampo's scholarly study of cinema's evolution in the hands of Americans. **Sensational**

Movies Birgit Meyer, 2015-10-16 Tracing the rise and development of the Ghanaian video film industry between 1985 and 2010, *Sensational Movies* examines video movies as seismographic devices recording a culture and society in turmoil. This book captures the dynamic process of popular filmmaking in Ghana as a new medium for the imagination and tracks the interlacing of the medium's technological, economic, social, cultural, and religious aspects. Stepping into the void left by the defunct state film industry, video movies negotiate the imaginaries deployed by state cinema on the one hand and Christianity on the other. Birgit Meyer analyzes Ghanaian video as a powerful sensational form. Colliding with the state film industry's representations of culture, these movies are indebted to religious notions of divination and revelation. Exploring the format of film as revelation, Meyer unpacks the affinity between cinematic and popular Christian modes of looking and showcases the transgressive potential haunting figurations of the occult. In this brilliant study, Meyer offers a deep, conceptually innovative analysis of the role of visual culture within the politics and aesthetics of religious world making. **Pararealities**

Floyd Merrell, 1983-01-01 The objective of this study is to inquire from a broad epistemological view into the underlying nature of fictions and, above all, to discover how it is possible to create and process them. In Chapter One, I put forth four postulates in the form of thought experiments. In Chapter Two, I turn attention to make-believe imaginary and dream worlds and how they can be conceived and perceived only with respect to the real world. Chapter Three includes a discussion of the affinities and differences between one's tacit knowledge of certain aspects of the number system in arithmetic, an ordered series, and the range of all possible fictional entities, an unordered network. In Chapter Four, I establish more precisely the relations between one's real world and one's fictional worlds in light of the conclusions from Chapter Three. And in Chapter Five, I attempt to construct a formal model with which to account for the construction of all possible fictional sentences. **Nightmare**

Movies Kim Newman, 2011-04-18 Now over twenty years old, the original edition of *Nightmare Movies* has retained its place as a true classic of cult film criticism. In this new edition, Kim Newman brings his seminal work completely up to date, both reassessing his earlier evaluations and adding a second part that analyses the last two decades of horror films with all the wit, intelligence, and insight for which he is known. Since the publication of the first edition, horror has been on a gradual upswing and has gained a new and stronger hold over the film industry. Newman negotiates his way through a vast back catalogue of horror and charts the on-screen progress of our collective fears and bogeymen from the low-budget slasher movies of the 1960s through to the slick releases of the 2000s. *Nightmare Movies* is an invaluable companion that not only provides a newly updated history of the darker side of film but also acts as a truly entertaining guide with which to explore the less well

Ameri,2016-03-03 Focusing on three secular institutional building types libraries museums and cinemas this book explores the intricate interplay between culture and architecture It explores the cultural imperatives which have seen to the formation of these institutions the development of their architecture and their transformation over time The relationship between culture and architecture is often perceived as a monologic relationship Architecture is seen to embody represent and or reflect the values the beliefs and the aesthetic ideals of a culture Ameri argues that this is at best a partial and restrictive view and that if architecture is a cultural statement it is a performative one It does not merely represent culture but constructs reifies and imposes culture as the unalterable shape of reality Whereas the concept and the study of cultural performatives have had an important critical impact on the humanities architecture as a cultural performative has not received the necessary scholarly attention and in part this book aims to fill this gap Whereas building type studies have been largely restricted to elucidating how best to design building types based on historic and contemporary precedents studies in the humanities that analytically and critically engage the secular institutions and their history as cultural performatives typically cast a blind or perfunctory glance at the performative complicity of their architecture This book aims to address the omissions in both these approaches The library the museum and the movie theater have been selected for close critical study because this book argues each has been instituted to house domesticate and restrain a specific form of representation The aim has been to protect and promulgate the metaphysics of presence as Jacques Derrida expounds the concept This book proposes that it is against the dangers of unconstrained cohabitation of reality and representation that the library the m

Coming Attractions Lisa Kernan,2009-07-21 Movie trailers those previews of coming attractions before the start of a feature film are routinely praised and reviled by moviegoers and film critics alike They give away too much of the movie They re better than the films They only show the spectacular parts They lie They re the best part of going to the movies But whether you love them or hate them trailers always serve their purpose of offering free samples of a film to influence moviegoing decision making Indeed with their inclusion on videotapes DVDs and on the Internet trailers are more widely seen and influential now than at any time in their history Starting from the premise that movie trailers can be considered a film genre this pioneering book explores the genre s conventions and offers a primer for reading the rhetoric of movie trailers Lisa Kernan identifies three principal rhetorical strategies that structure trailers appeals to audience interest in film genres stories and or stars She also analyzes the trailers for twenty seven popular Hollywood films from the classical transitional and contemporary eras exploring what the rhetorical appeals within these trailers reveal about Hollywood s changing conceptions of the moviegoing audience Kernan argues that movie trailers constitute a long standing hybrid of advertising and cinema and as such are precursors to today s heavily commercialized cultural forms in which art and marketing become increasingly indistinguishable
