Excursion For Orchestra Full Score:

Heartland Excursions Bruno Nettl, 1995 In *Heartland Excursions* a legendary ethnomusicologist takes the reader along for a delightful wide ranging tour of his workplace Bruno Nettl provides an insightful sometimes tongue in cheek always pithy ethnography of midwestern university schools of music from a different perspective in each of four chapters alternating among three distinct voices the longtime professor the native informant and the outside observer an ethnomusicologist from Mars If you've ever been to a concert or been connected to a university with a school of music you'll discover yourself or someone you know in these pages In the music building you can't tell the quick from the dead without a program Chapter 1 In the Service of the Masters The great ability of a violin student whom I observed was established when his dean was persuaded to accompany him Chapter 2 Society of Musicians Some teachers of music history would accuse students who listen to Elvis Presley not only of taking time away from hearing Brahms but also of polluting themselves Chapter 3 A Place for All Musics At commencement the graduates were perhaps not aware that they had just participated in an event in which the principal values of the Western musical world had been taken out of storage bins for annual exercise Chapter 4 Forays into the Repertory **Stravinsky in the Americas** H. Colin Slim, 2019-03-05 *Stravinsky in the Americas* explores the pre-Craft period of Igor Stravinsky's life from when he first landed on American shores in 1925 to the end of World War II in 1945 Through a rich archival trove of ephemera correspondence photographs and other documents eminent musicologist H. Colin Slim examines the twenty year period that began with Stravinsky as a radical European art music composer and ended with him as a popular figure in American culture This collection traces Stravinsky's rise to fame catapulted in large part by his collaborations with Hollywood and Disney and marked by his extra-marital affairs his grappling with feelings of anti-Semitism and his encounters with contemporary musicians as the music industry was emerging and taking shape in midcentury America Slim's lively narrative records the composer's larger than life persona through a close look at his transatlantic tours and domestic excursions where Stravinsky's personal and professional life collided in often dramatic ways **Excursions in World Music** Timothy Rommen, Bruno Nettl, 2020-09-17 *Excursions in World Music* is a comprehensive introductory textbook to the musics of the world creating a panoramic experience for students by engaging the many cultures around the globe and highlighting the sheer diversity to be experienced in the world of music At the same time the text illustrates the often profound ways through which a deeper exploration of these many different communities can reveal overlaps shared horizons and common concerns in spite of and because of this very diversity The new eighth edition features six brand new chapters including chapters on Japan Sub-Saharan Africa China and Taiwan Europe Maritime Southeast Asia and Indigenous Peoples General updates have been made to other chapters replacing visuals and updating charts statistics Another major addition to the eighth edition is the publication of a companion Reader entitled *Critical Themes in World Music* Each chapter in the Reader is designed to introduce students to a theoretical concept or thematic area within ethnomusicology and

illustrate its possibilities by pointing to case studies drawn from at least three chapters in *Excursions in World Music*. Chapters include the following topics: Music Gender and Sexuality; Music and Ritual; Coloniality and World Music; Music and Space; Music and Diaspora; Communication Technology; Media; Musical Labor; Musical Value; and Music and Memory. Instructors can use this resource as a primary or secondary path through the materials either assigning chapters from the textbook and then digging deeper by exploring a chapter from the Reader or starting with a Reader chapter and then moving into the musical specifics offered in the textbook chapters. Having available both an area studies and a thematic approach to the materials offers important flexibility to instructors and also provides students with additional means of engaging with the musics of the world. A companion website with a new test bank and fully updated instructor's manual is available for instructors. Numerous resources are posted for students including streamed audio listening, additional resources such as links to YouTube videos or websites, a musical fundamentals essay introducing concepts such as meter, melody, harmony, form, etc., interactive quizzes and flashcards.
