**Out of Character** Omri Moses, 2014-05-07 Characters are those fictive beings in novels whose coherent patterns of behavior make them credible as people Character is also used to refer to the capacity or incapacity of individuals to sustain core principles When characters are inconsistent they risk coming across as dangerous or immoral not to mention unconvincing But what is behind our culture s esteem for unwavering consistency Out of Character examines literary characters who defy our culture s models of personal integrity It argues that modernist writers Henry James Gertrude Stein and T S Eliot drew inspiration from vitalism as a way of reinventing the means of depicting people in fiction and poetry Rather than regarding a rigid character as something that inoculates us against the shifting tides of circumstance these writers insist on the ethical necessity of forming improvisational dynamic social relationships Charting the literary impact of

William James Charles Darwin Friedrich Nietzsche and in particular Henri Bergson this book contends that vitalist understandings of psychology affect and perception led to new situational and relational definitions of selfhood As Moses demonstrates the modernists stirred by these vital life lessons give us a sense of what psychic life looks like at its most intricate complex and unpredictable
