College Success for Students on the Autism Spectrum S. Jay Kuder, Amy Accardo, John Woodruff, 2023-07-03 Helping both college faculty and student affairs staff enlarge their understanding of the experiences of students on the autism spectrum this book provides guidance on putting supports in place to increase college success Uniquely the authors bring the perspective of neurodiversity to this work Many individuals on the autism spectrum have been stigmatized by the diagnosis and experience autism as a negative label that brings with it marginalization and barriers through an emphasis on deficits Autistic self advocates within the neurodiversity movement are leading the charge to rethinking autism as neurodiversity and to celebrating autism as central to identity Neurodiversity is not a theory or a way of being it is a fact and neurological diversity should be valued and respected along with any other human variation such as race ethnicity gender and sexuality The book provides the practical guidance needed to help neurodivergent students succeed with chapters that address a variety of key issues from the transition to college to career readiness after graduation The authors address support services faculty and staff roles and enhancing academic success They also cover navigating the social demands of college life working with families and mental health The final chapter brings it all together describing the elements of a comprehensive program to help this student population succeed Difficulties with social interaction and communication are one of the defining characteristics of autism and often persist into adulthood It can be assumed that difficulties with social interaction and communication may also impact college success both socially and academically But the answer for these students is not

necessarily to try to fix these issues since the fact that these students have been admitted to a degree granting program shows that they can be successful students. Instead there should be an emphasis on helping faculty staff and students understand the diversity of human behavior while helping autistic students achieve college success through a support system and by providing accommodations and services when needed.
