Expedition Diamonds Joseph De Martini, 1983-01-01 **The Diamond Thunderbolt** Harold Thompson Rich, 2010-10-01 Locked in a rocket and fired into space such was the fate which awaited young Stoddard at the end of the diamond trail **The Diamond Triangle** Leonard, 2012-04-12 A team of geologists comes to Siberia 5 000 km east of Moscow in search of the diamonds called in Russian *almaz* or *brilliants* Together with the wealthy patriot sponsors they are on the mission to save the economically wracked country from the embezzlement and robbery of valuable resources And they find it the *Diamond Triangle* with 50 carat crystals At the beginning the explorers do not suspect that it will be hunted down by other adverse forces The people in the taiga realize their almost unbearable task in time when it is too late to skip off and run away They come upon many perilous snares among the snowy terrains and mountains and venture into the wilderness of that remote land which lies east of the Ural Mountains They are entrapped all around by all kind of bounty hunters who viciously compete for the premium prize for their heads appraised in million dollars The group of faithful committed people turns into the fugitives in the Siberian taiga because they possess so rare in the present human world qualities patriotism and belief Then in a remote corner of Siberia encircled from all sides by the bounty hunters and very close to a tragic finale the fugitives hear the battle sounds help comes from their real friends and brother the *pomors* from the White Sea shores and aboriginal *Nenets* people historical owners of the tundra The sea people *pomors* called in the past *Ice Vikings* successfully get through that secret century old route north of the Arctic Circle across the Kara Sea and Yamal Peninsula The route their ancestors once upon a time had traced in deviation of the ruthless tsar guards and Moscow's rulers And now almost four centuries later they rediscover the route to freedom and escape from other merciless rulers Once again as in the past the

northern people of this enormous country come to help and protect against the dominance of brutal power **The Dutch Century** Carl Douglass, 2022-08-01 The Great White Hunter Southern Africa is the third and final book of the Dutch Century Trilogy It covers the last two thirds of the 1600s during which the Dutch exercised considerable control of all sub Saharan Africa Among the Dutch who spent significant portions of their lives in the region were farmers traders builders mariners and slavers And most interesting some intrepid long distance hunters They sought fortunes as rewards for museum quality mounted specimens success beyond their wildest imaginations from the elephant tusk ivory trade and adventure always adventure They were brave and hardy souls who faced hardships of miserable travel in oxcart wagons difficult to manage native helpers balky oxen mules and horses In addition there were problems of tribalism close calls from fearsome beasts including lions leopards elephants rhinos crocs and dangerous men Piet van Brakel explored the lower half of the African continent while still a fugitive from the dangerous Dutch VOC To succeed he had to control the vicissitudes of weather floods droughts winds starvation and great thirsts He was the baas the bwana who had to deal with all unseen and unknown surprises That included animal attacks Arab slaver killer invasion war with ruthless Zulu impi poisons malfunctioning guns and misbehaving men of his safari team He lost six of his nine lives accumulated hard won treasure twice and gained incomparable friends and success beyond measure Such a life was never a sure thing for the man How he accomplished that is the stuff of legend **Precious Stones** Max Bauer, 2012-08-29 This classic study begins with a general analysis of precious stones followed by descriptions of their cutting and mounting The remainder of this volume focuses on the diamond 52 figures **Diamond Dealers and Feather Merchants** KLOTZ, 2013-11-11 To paraphrase Saul Bellow it is extremely difficult to escape from the conceptual bottles into which we have been processed or even to become aware that we are confined within them Anthro pocentrism an ancient tradition is an intellectual constraint that has continually impeded objective probing of the universe around and within us We are probably born with that constriction perhaps as a result of evolutionary selection or because each of us has been created in the image of the Deity But it is only the core of our mental gestalt Around it we find additional shells of intellectual obstructions deposited by accretion from our family our teachers our experiences and the society in which we are immersed It is very hazardous to embrace novel scientific ideas Personal and social experiences show that the vast majority turn out to be failures What standards can one use to make judgments There is a universal tendency to rely on common sense but as Einstein pointed out this is a collection of views sensible or not imprinted in us before the age of sixteen I have found it a challenge to convince young students that much of what they are certain about and in fact correct about is actually contrary to common sense For example on any bright day anyone who is not blind or an idiot can see the sun literally moving around the earth from east to west **Desert Diamonds** David Hardham, 2013 An enthralling tale of discovery and adventure littered with a sense of daring and romance the intrigue of the stock market mixed with the brutal harshness of the Australian outback and the dangers of the African jungle En route from
