L Vasiliev,2002 Here a Russian psychologist records in precise detail his scientific experiments in distant mental suggestion and behavior modification He reveals how mental suggestion can influence motor acts generate visual images and sensations and induce sleeping or waking states The book describes the world landscape of scientific research into mind to mind communication before during and after World War II

**Elusive Phenomena, Unwieldy Things** Jutta Schickore,William R. Newman,2024-02-26 This open access book provides a historical treatment of scientific control in experimentation in the longue dur e The introduction distinguishes four related strands in the history of experimental control the development of practices to stabilize experimental conditions the career of the comparative design the unfolding of methodological discussions about control practices and designs and the history of the term control Each chapter brings these distinctions to bear on specific historical episodes The focus is on experiments with complex elusive phenomena such as perception and learning irregular movements and unobservable elements Such experiments bring control issues to the fore because they are difficult to design and stabilize and often controversial Together the chapters show that the local context shapes what exactly is controlled how control can be accomplished and how controls are justified They also show that control strategies and methodological ideas often remain stable for a long time and change only gradually This book as well as the volume on analysis and synthesis in experimentation by the same editors contains contributions by an array of experts from multiple disciplines making it suitable for historians and philosophers of science and students alike **The Living Age** ,1909 **Journal of the Society for Psychical Research** Society for Psychical Research (Great Britain),1906 **The Theosophist** ,1888 *Phantasms of the Living* Edmund Gurney,Frederic W. H. Myers, Frank Podmore,2011-05-19 This 1886 publication investigating the connection between ghost seeing and telepathy is a key source on Victorian psychical research
