The Complete Guide to Graduate School Admission Patricia Keith-Spiegel, Michael W. Wiederman, 2000-03-01 Should I go to graduate school How do I choose where to apply Are my grades and accomplishments good enough to get in Who should I ask to write recommendation letters for me and how should I approach these people How do I write my personal statement When will I hear my fate and how should I make my final decision These are just a few of the many questions to which this well researched thorough and extremely user friendly book offers answers Students who are contemplating graduate training in psychology counseling and related fields are often apprehensive and confused about applying to graduate school but this book takes the guesswork and anxiety out of the process The tone and features such as the Q A format timeline for

application related tasks and activities and special advice for special populations that made the first edition so successful eliciting hundreds of thank you notes and e mail messages to the author are just as evident in this new edition The book has been thoroughly updated to include coverage of new topics such as use of the internet and e mail as well as changing trends in the professions The most obvious difference is that the book is now significantly shorter as a result of meticulous rewriting making it even easier to use There have been attempts since the publication of the first edition to copy the format of this book but none of the others have successfully duplicated the depth of research based advice and the supportive style that make this book the guide of choice for thousands of graduate school bound students and their advisors

Ponterotto, 2001-04-25 This Second Edition of the Handbook of Multicultural Counseling marks an important turning point. It brings together the voices of some pioneers who have paved the way and introduces us to new voices who, while influenced by the pioneers, have taken different paths. Because the multicultural community is well represented in content and scholarship in this second addition, the reader can be assured that the viewpoints represented in this book speak to the core issues of the field. I am excited about this Handbook because the authors answer the question that is often heard at many a conference: Where is the research to support multicultural counseling? I am equally excited about this Handbook because it breaks new ground by using as its anchor oral histories, which demonstrate that for many of us, multicultural counseling is not simply a research agenda but a life-long journey that cannot always be measured. The underlying theme of social justice only reinforces our commitment to this journey. Drs. Ponterotto, Casas, Suzuki, and Alexander have once again helped shape the multicultural conversation. To those who have often said, "Where is the research?" look no further. Donald B. Pope-Davis, University of Notre Dame. Its First Edition set a standard for a then emerging field. Now The Handbook of Multicultural Counseling, Second Edition, presents not merely an update of the original but a completely reconceived work reflecting the many developments that continue to expand the field of multicultural counseling. This new edition features mostly brand new chapters and expanded coverage of historical perspectives on the field, highlighted by personal accounts from some of the pioneers in the area: professional and ethical issues, counseling's role in fighting oppression, psychological measurement, theories, research design, gender issues, and higher education issues. With contributions once again from the field's key leaders as well as top emerging scholars, this new edition maintains the breadth and comprehensiveness of the original. The Handbook of Multicultural Counseling, Second Edition, is a critical resource for counsellors, counselling students, and other mental health professionals who seek to improve their competence in treating a culturally diverse clientele.
