Handbook of Self-Concept Bruce Bracken, 1996 What roles do age race gender and sociocultural variables play in self concept **Handbook of Children's Literacy** Terezinha Nunes, Peter Bryant, 2013-03-09 PETER BRYANT TEREZINHA NUNES The time that it takes children to learn to read varies greatly between different orthographies as the chapter by Sprenger Charolles clearly shows and so do the difficulties that they encounter in learning about their own orthography Nevertheless most people who have the chance to learn to read do in the end read well enough even though a large number experience some significant difficulties on the way Most of them eventually become reasonably efficient spellers too even though they go on make spelling mistakes at any rate if they are English speakers for the rest of their lives So the majority of humans plainly does have intellectual resources that are needed for reading and writing but it does not always find these resources easy to marshal What are these resources Do any of them have to be acquired Do different orthographies make quite different demands on the intellect Do people differ significantly from each other in the strength and accessibility of these resources If they do are these differences an important factor in determining children's success in learning to read and write These are the main questions that the different chapters in this section on Basic Processes set out to answer

Each chapter follows a consistent format including a brief description of the problem and associated characteristics, etiology and contributing factors, and three evidence based step by step sets of instructions for implementation. Additionally, each chapter provides several websites offering further information about the topic. Featuring contributions from leading scholars and practitioners on each issue covered, this book will be a valuable resource for child clinical and school psychologists, counselors, social workers, and therapists, as well as other health and mental health professionals whose primary practice is with children and adolescents.
