*Classification and Information Processing at the Turn of the Millennium* Reinhold Decker, Wolfgang A. Gaul, 2012-12-06

This volume contains revised versions of selected papers presented during the 23rd Annual Conference of the German Classification Society GfKl Gesellschaft für Klassifikation. The conference took place at the University of Bielefeld, Germany, in March 1999 under the title *Classification and Information Processing at the Turn of the Millennium*. Researchers and practitioners interested in data analysis, classification, and information processing in the broad sense, including computer science, multimedia, WWW, knowledge discovery, and data mining, as well as special application areas such as in alphabetical order: biology, finance, genome analysis, marketing, medicine, public health, and text analysis, had the opportunity to discuss recent developments and to establish cross-disciplinary cooperation in their fields of interest. Additionally, software and book presentations as well as several tutorial courses were organized. The scientific program of the conference included 18 plenary or semi-plenary lectures and more than 100 presentations in special sections. The peer-reviewed papers are presented in 5 chapters as follows: Data Analysis and Classification, Computer Science, Computational Statistics and Data Mining, Management Science, Marketing and Finance, Biology, Genome Analysis, and Medicine, Text Analysis, and Information Retrieval. As an unambiguous assignment of results to single chapters is sometimes difficult, papers are grouped in a way that the editors found appropriate.

Captivating has qualities any reader would wish for: adventure, romance, history, and a vividly described exotic setting. *The Washington Post*: "In 1925, the international treasure hunting scene is a man's world and no one understands this better than Irene Blum, who is passed over for a coveted museum curatorship because she is a woman. Seeking to restore her reputation, she sets off from Seattle in search of a temple believed to house the lost history of Cambodia's ancient Khmer civilization. But her quest to make the greatest archaeological discovery of the century soon becomes a quest for her family's secrets. Embracing the colorful and corrupt world of colonial Asia in the early 1900s, *The Map of Lost Memories* takes readers into a forgotten era where nothing is as it seems. As Irene travels through Shanghai's lawless back streets and Saigon's opium-filled lanes, she joins forces with a Communist temple robber and an intriguing nightclub owner with a complicated past. What they bring to light deep within the humidity-soaked Cambodian jungle does more than change history; it ultimately solves the mysteries of their own lives. Look for special features inside.
