in the Korean speaking world Handbook of the Korean Language Bruce McDonough, 2015-06-22 This book represents an effort of around five years of part time research study and writing by the author In addition to assembling and organizing large amounts of accurate and current information from nearly countless sources Mr McDonough has also striven to describe the Korean Language in clear engaging prose Although written with beginning and intermediate learners in mind even advanced users should find this handy book quite useful Some of this data is very hard to find in any reference source in English anyways and this book is much more accessible than others written by native Korean authors professional linguists academics and the like Naturally explaining a foreign language requires some grammar terminology However this has been minimized and all terms are clearly explained in simple language and also defined in a convenient glossary at the beginning of the book The Handbook is meant to be a solid introduction to the grammar and structure of the language as well as a reference guide to be consulted as needed Everything you should need is very clearly laid out with over 50 tables and lists as well as an index Plenty of examples are provided as well This is the only book of its kind written in English currently available and the only book that contains such a well organized and useful collection of information Part of its unique value is in the author's careful editing and the exclusion of a lot of older rarer legacy grammar material that tends to haunt many Korean books Further aiding the user notes about frequency and general usefulness are included in many places In addition to being a self contained educational resource the Handbook would nicely complement classroom study as well as the various textbooks on the market Lastly this might be a useful tool for Korean natives studying English The author comes from a computer science background and initially set out to create a user's guide similar to those in that field really just for his own use That project evolved into much more and this book is the result A companion vocabulary focussed volume is due out later in 2015 and an advanced book in 2016 Other learning tools are planned as well including an interactive Internet based application for computers and smartphones *Introduction to Korea* Gilad James, PhD, Korea is a fascinating country located in East Asia divided into two distinct regions North Korea and South Korea Korea has a long and complex history with its civilization starting around 1392 when the Joseon Dynasty was founded For several centuries Korea's strategic location has made it the sight of several invasions and colonization attempts including Japan's colonial rule over Korea from 1910 to 1945 The Korean War which took place from 1950 to 1953 also impacted the Korean people resulting in separation of North and South Korea Despite a challenging past and political differences South Korea has become a significant economic powerhouse and an entertainment hub while North Korea remains a secretive and repressive state South Korea also known as the Republic of Korea ROK is a dynamic and modern country that is home to numerous corporations including Samsung and LG South Korea has undergone significant economic growth and it has become one of the world's leading economies Yet despite its economic success South Korea is also home to some of the most unique cultures including distinctive cuisine traditional music and festivals South Korea is also famous for its entertainment industry including music K pop television

dramas K dramas and movies North Korea is an enigma rarely seen or heard about beyond government propaganda It is led by the Kim dynasty and maintains strict control over its citizens Over the years North Korea has become famous for its nuclear program and human rights abuses making it a topic of international concern Despite their differences both North and South Korea have an intricate and fascinating history and culture that continues to captivate the world *Concise*

Encyclopedia of Languages of the World ,2010-04-06 Concise Encyclopedia of Languages of the World is an authoritative single volume reference resource comprehensively describing the major languages and language families of the world It will provide full descriptions of the phonology semantics morphology and syntax of the world s major languages giving insights into their structure history and development sounds meaning structure and language family thereby both highlighting their diversity for comparative study and contextualizing them according to their genetic relationships and regional distribution Based on the highly acclaimed and award winning Encyclopedia of Language and Linguistics this volume will provide an edited collection of almost 400 articles throughout which a representative subset of the world s major languages are unfolded and explained in up to date terminology and authoritative interpretation by the leading scholars in linguistics In highlighting the diversity of the world s languages from the thriving to the endangered and extinct this work will be the first point of call to any language expert interested in this huge area No other single volume will match the extent of language coverage or the authority of the contributors of Concise Encyclopedia of Languages of the World Extraordinary breadth of coverage a comprehensive selection of just under 400 articles covering the world s major languages language families and classification structures issues and dispute Peerless quality based on 20 years of academic development on two editions of the leading reference resource in linguistics Encyclopedia of Language and Linguistics Unique authorship 350 of the world s leading experts brought together for one purpose Exceptional editorial selection review and validation process Keith Brown and Sarah Ogilvie act as first tier guarantors for article quality and coverage Compact and affordable one volume format makes this suitable for personal study at any institution interested in areal descriptive or comparative language study and at a fraction of the cost of the full encyclopedia *Survival Korean* Boye Lafayette De Mente,2013-01-29 A handy Korean

phrasebook and guide to the Korean language Survival Korean contains basic vocabulary necessary for getting around Korea This book contains all the necessary words and phrases for speaking Korean in any kind of setting Perfect for students tourists or business people learning Korean or travelling to Korea it also contains a beginner guide to the Korean language allowing for a deeper understanding of Korean than a typical Korean phrasebook or Korean dictionary The book is broken into four basic sections Common Korean Expressions and Key Words Essential Korean Communication Tools Korean Travel Vocabulary and Useful Korean Expressions and Korean Pronunciation Guides for Key Korean Names and Signs All Korean words and phrases are written in Romanized form as well phonetically making pronouncing Korean a breeze For example the word for Hello Yoboseyo is also written as Yoe boh say yoh Authentic Korean script Hangul is also included so that in the

case of difficulties the book can be shown to the person the user is trying to communicate with Key features of Survival Korean include Hundreds of useful Korean words and expressions Up to date internet mobile and social media terms An English Korean index with more than 1 000 additional words and their pronunciation for quick reference Romanized forms phonetic spellings and Korean script Hangul for all words and phrases A concise background and history of the Korean language An introduction to the Korean Alphabet A pronunciation guide for Korean syllables A guide to Korean grammar
