Metternich's German Policy, Volume II Enno E. Kraehe, 2014-07-14 Using new archival sources this book shows that Prussia sought not the unity of Germany but its partition into five masses loosely enough joined to assure her control of the North Hardenberg not Metternich supported the feudalistic claims of the estates suppressed by Napoleon and the resurrection of ancient estates assemblies based mainly on corporate orders Originally published in 1984 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

**Landownership in Eastern Germany Before the Great War** Scott M. Eddie, 2008-03-06 The big landlords of eastern Germany have loomed large in the country's history but the absence of official statistics on landownership has left their position and identity confined to folklore without satisfactory quantification This study making extensive use of primary sources from the seven core provinces of eastern Germany the so called East Elbian region establishes answers to questions pivotal to our understanding of pre war Germany who were the biggest landowners both by area and by the tax assessment of their land Which social groups held land How much land did they own and where How did this change especially during the last decades before the Great War Professor Eddie demonstrates that most of the inroads into landownership by the bourgeoisie had already been made by the mid 1850s perhaps even before the mid 1830s However one of the most interesting findings in this study is that despite rapid industrialization after 1880 there was a net exodus of the nouveaux riches from the ranks of large land owners On the eve of war the largest landowners were the Prussian state the royalty and the higher nobility Meticulously researched and thoroughly documented this book will be the benchmark for all future work in this area

**Kinaesthesia and Classical Antiquity 1750-1820** Helen Slaney, 2020-09-03 This book argues that touch and movement played a significant role long overlooked in generating perceptions of ancient material culture in the late 18th century At this time the reception of classical antiquity had been transformed Interactions with material culture ruins sculpture and artefacts formed the core of this transformation Some such interactions were proto archaeological such as the Dilettanti expeditions to Athens and Asa Minor others were touristic seen in the guidebooks consulted by travellers to Rome and the diaries they composed and others creative resulting in novels poetry and dance performances Some involved the reproduction of experience in a gallery or museum setting What all encounters with ancient material culture had in common however is their haptic sensory basis The sense typically associated with the Enlightenment is vision but this has obscured the equally important contribution made by touch and movement to

the way in which a newly materialised Graeco Roman world was perceived Kinaesthesia or the sense of self movement is rarely recognised in its own right but because all encounters with sites and objects are embodied and all embodiment takes place in motion this sense is vital to forming more abstract or imaginative impressions Theories of embodied cognition propose that all intellectual processes are also physical This book shows how ideas about classical antiquity in the volatile milieu of the late 18th century developed as a result of diverse kinaesthetic relationships **Plebiscites Since the World**

The Oxford Handbook of Music Censorship Patricia Ann Hall, 2018 Addresses censorship as a worldwide issue from its earliest recorded form to the modern day Includes unique case studies of music censorship unfamiliar to Western audiences Documents censorship through a necessarily intersectional lens Oxford University Press Der Baumeister, 1994 A *Corpus of Syriac Incantation Bowls* Marco Moriggi, 2014-05-12 The Aramaic incantation bowls from Sasanian Mesopotamia are the most important source we have for studying the everyday beliefs of the Jewish Christian Mandaean Manichaean Zoroastrian and Pagan communities on the eve of the Islamic conquests In *A Corpus of Syriac Incantation Bowls* Marco Moriggi presents new editions of forty nine Syriac incantation bowls that were originally published between 1853 and 2012 with accompanying introductions translations philological notes photographs and glossaries Furthermore there is a detailed analysis of the Estrangela and Manichaean scripts as used on the bowls together with newly drawn script charts In gathering organising and updating most of the published Syriac bowls this book provides a valuable resource for further research into both their language and content This volume is a significant contribution to the study of the Syriac incantation bowls and it should be of great interest to scholars of magic in Late Antiquity as well as to those working in Syriac language literature and history since the Syriac incantation bowls are a fascinating yet often neglected component of the broader Syriac heritage Aaron M Butts Catholic University of America Washington D C in JNES October 2015 Moriggi's new book will no doubt become an essential reference work for all interested in Syriac magical texts from late antiquity It is also an important contribution not only to our knowledge of the language of the Syriac incantation bowls but to the whole field of Babylonian Aramaic JBA and Mandaic Scholars of Aramaic are indebted to Moriggi for making this valuable and rewarding collection available It is certain to stimulate further interest and discussion in the field Ohad Abudraham Ben Gurion University of the Negev Beer Sheva Israel in Orientalia 2015 The volume certainly makes an enormous contribution to furthering studies on Syriac incantation texts and more generally on incantation bowls For any scholar who has an interest in incantation bowls this work is a must Erica C D Hunter SOAS University of London in Orientalistische Literaturzeitung 113 1 2018 *Selected Writings of Max Reger* Christopher Anderson, 2013-09-13 Max Reger 1873 1916 was a celebrated German composer performer on piano and organ and conductor Well known for his compositions for keyboards and orchestra Reger worked

during the crucial decades when Western music transformed itself from the misty veil of Romanticism and Impressionism to the more hard edged modernism that would prevail in the 20th century Less well known are his writings about music and the composer s craft Although he wrote a major book on music theory published in 1903 and translated into English a year later his extended essays on composition his fellow composers and analysis have never appeared before in English Christopher Anderson a noted Reger scholar has gone back to original manuscripts as well as the published versions of these writings to produce definitive new texts Additionally Anderson has written an opening essay placing Reger s writings and music in the context of his time This volume will appeal strongly to those interested in the Late Romantic era musical composition and aesthetics and of course those interested in the music and life of Reger

Hans-Peter Blossfeld,Jutta von Maurice,Michael Bayer,Jan Skopek,2016-04-01 This book addresses a broad array of pressing challenges of longitudinal surveys and provides innovative solutions to methodological problems based on the example of the NEPS It covers longitudinal issues such as sampling weighting recruiting and fieldwork management the design of longitudinal surveys and the implementation of constructs conducting competence tests over the life course effective methods to improve and to maintain the highest level of data quality data management tools for large scale longitudinal surveys the dissemination of research data to heterogeneous scientific communities as well as establishing a long term public relations and communications unit integrating a study s stakeholder community over time

**The German Gita** Bradley L. Herling,2014-02-04 How did the Bhagavadgīt first become an object of German philosophical and philological inquiry How were its foundational concepts initially interpreted within German intellectual circles and what does this episode in the history of cross cultural encounter teach us about the status of comparative philosophy today This book addresses these questions through a careful study of the figures who read translated and interpreted the Bhagavadgīt around the turn of the nineteenth century in Germany J G Herder F Majer F Schlegel A W Schlegel W von Humboldt and G W F Hegel Methodologically the study attends to the intellectual contexts and prejudices that framed the early reception of the text But it also delves deeper by investigating the way these frameworks inflected the construction of the Bhagavadgīt and its foundational concepts through the scholarly acts of excerpting anthologization and translation Overall the project contributes to the pluralization of Western philosophy and its history while simultaneously arguing for a continued critical alertness in cross cultural comparison of philosophical and religious worldviews

*Islamicate Occult Sciences in Theory and Practice* ,2020-11-16 Islamicate Occult Sciences in Theory and Practice brings together the latest research on Islamic occult sciences from a variety of disciplinary perspectives namely intellectual history manuscript studies and material culture Its aim is not only to showcase the range of pioneering work that is currently being done in these areas but also to provide a model for closer interaction amongst the disciplines constituting this burgeoning field of study Furthermore the book provides the rare

opportunity to bridge the gap on an institutional level by bringing the academic and curatorial spheres into dialogue

 trainer at <http://hermestrainer.pythonanywhere.com> This intensive lexical builder is addressed to B1 B2 intermediate learners  
 of German who are already capable of reading easy German stories and who would like to enrich and or refresh their  
 vocabulary up to the advanced level in order to approach more complex German texts Each piece of vocabulary is embedded  
 in at least three example sentences in order to appeal to active understanding and trigger both short term and long term  
 memory Whenever possible different meanings of the terms or expressions concerned are also illustrated The vocabulary  
 lessons are interspersed with concise but essential reminders of German grammar At the end of the book readers are offered  
 a bilingual paragraph for paragraph version of one of E T A Hoffmann's famous stories namely Rath Krespel 1818 translated  
 in English by J T Bealby 1885 In each pair of bilingual paragraphs important words to retain or recognize are emphasized in  
 bold or underlined Finally the bilingual version is followed by the original German only text of Hoffmann's novel which  
 readers are advised to go through even if by now they know the narrative since it is essential to retrieve and fully consolidate  
 all learned German terms into their original context Should you have any suggestions as to how this book can be improved

 Kössinger, Claudia Wittig, 2019-12-02 The Horatian formula *prodesse et delectare* was extremely influential in the production  
 of texts across various languages and genres While indeed didactic elements can be attested to in almost any medieval text  
 and while medieval literature displays a range of possibilities to teach and instruct the scope of the present volume is more  
 closely focused on explicitly didactic literature This volume combines contributions that analyse didactic literature in high  
 medieval Europe from different vantage points They open new perspectives on education as a working principle or  
 legitimizing strategy in the heterogeneous forms of writing intended to convey knowledge This broad thematic linguistic and  
 geographical scope enables us to view didactic literature as the universal phenomenon it was and prompts us to understand  
 its influence on many aspects of society in high medieval Europe and beyond While the contributions explore case studies  
 predominantly from this period of transition and the expansion of the categories of knowledge they also trace some of these  
 developments into the later Middle Ages to spotlight the lasting influence of high medieval teaching and learning in literature  
 The way medieval writers combine the pleasant with the useful is this book's main question **Boom and Bust** J. D.  
 Hunley, 2019-07-03 Originally published in 1987 this study assesses the extent to which social and economic conditions

affected the outcome of Reichstag and Landtag elections It discusses the economic development in the district of Düsseldorf both before and during the period covered 1867-1878 it also examines those social conditions in the region that remained static from 1867-1878 but also considers as a background to each election or set of elections short term changes in economic and social conditions
