Exercise Of Arms In The Continental Infantry:

The Exercise of Arms in the Continental Infantry Ernest W. Peterkin, Museum Restoration Service, 1989 **British Redcoat 1740-93** Stuart Reid, 2012-04-20 During this period the British army earned itself a formidable reputation as a fighting force However due to its role as a police force at home and demonisation by American propaganda the army was viewed as little removed from a penal institution run by aristocratic dilettantes This view still held by many today is challenged by Stuart Reid who paints a picture of an increasingly professional force This was an important time of change and improvement for the British Army and British Redcoat 1740 1793 fully brings this out in its comprehensive examination of the lives conditions and experiences of the late 18th century infantryman *Historical Archaeology of the Revolutionary War Encampments of Washington's Army* Cosimo A. Sgarlata, David G. Orr, Bethany A. Morrison, 2019-06-12 This volume presents recent archaeological and ethnohistorical research on the encampments trails and support structures of the Continental Army during the American Revolutionary War These sites illuminate the daily lives of soldiers officers and camp followers away from the more well known military campaigns and battles The research featured here includes previously unpublished findings from the winter encampments at Valley Forge Pennsylvania as well as work from sites in Redding Connecticut and Morristown New Jersey Topics range from excavations of a special dining cabin constructed for General George Washington to ballistic analysis of a target range established by General von Steuben Contributors use experimental archaeology to learn how soldiers constructed their log hut quarters and they reconstruct Rochambeau's marching route through Connecticut on his way to help Washington defeat the British at Yorktown They also describe the underrecognized roles of African descendants Native peoples and women who lived and worked at the camps Showing how archaeology can contribute insights into the American Revolution beyond what historical records convey this volume calls for protection of and further research into non conflict sites that were crucial to this formative struggle in the history of the United States Contributors Cosimo Sgarlata Joseph Balicki Joseph R Blondino Douglas Campana Wade P Catts Daniel Cruson Mathew Grubel Mary Harper Diane Hassan David G Orr Julia Steele Laurie Weinstein *The Flintlock Musket* Stuart Reid, 2016-01-20 The flintlock or firelock musket is one of the most iconic weapons in history used on the battlefields of the English Civil War it was then carried by both sides at Blenheim Bunker Hill Waterloo and the Alamo and dominated warfare for more than 150 years with military service as late as the American Civil War in the 1860s Featuring specially commissioned full colour artwork this engaging study examines the role that the flintlock played in close order combat on European and other battlefields around the world Employing first hand accounts to show how tactical doctrines were successfully developed to overcome the weapon's inherent limitations Stuart Reid offers a comprehensive analysis of the flintlock's lasting impact as the first truly universal soldier's weapon **Eloquence Is Power** Sandra M. Gustafson, 2012-12-01 Oratory emerged as the first major form of verbal art in early America because as John Quincy Adams

observed in 1805 eloquence was POWER In this book Sandra Gustafson examines the multiple traditions of sacred diplomatic and political speech that flourished in British America and the early republic from colonization through 1800 She demonstrates that in the American crucible of cultures contact and conflict among Europeans native Americans and Africans gave particular significance and complexity to the uses of the spoken word Gustafson develops what she calls the performance semiotic of speech and text as a tool for comprehending the rich traditions of early American oratory Embodied in the delivery of speeches she argues were complex projections of power and authenticity that were rooted in or challenged text based claims of authority Examining oratorical performances as varied as treaty negotiations between native and British Americans the eloquence of evangelical women during the Great Awakening and the founding fathers debates over the Constitution Gustafson explores how orators employed the shifting symbolism of speech and text to imbue their voices with power
