Roy Kaufman,2013-08-02 Rural communities and traditional cultures throughout North America and around the world are being systematically dismantled by the forces of urban civilization It is no new phenomenon For over four millennia the powers of urban civilization have been playing God oppressing people and exploiting the earth This long history has brought us to the brink of disaster in the current economic ecological and energy crises confronting the dominant global culture This book reads the Bible through the lenses of rural communities The Bible has

something to say about the origin and character of urban civilization and the dynamic of its relationship to rural communities Both Israel in the Old Testament and Jesus in the New Testament were engaged in the formation of rural communities of faith living as alternatives to the dominant cultures of the urban civilizations in which they lived It turns out that local face to face communities both rural and urban along with traditional cultures of all stripes are God's chosen instruments for the subversive nonviolent disarming of urban civilization and the healing of God's earth

Alien Earth James R. Meadors Jr., 2009-05-28 John and Melissa Winters think that learning their baby's sex will be the happiest day of their lives They are wrong Instead they spend it running from an alien race hell bent on claiming Earth for itself With thousands of satellite like weapons strategically positioned around the planet the aliens obliterate the world's communication systems militaries and transportation systems within minutes There the satellites remain monitoring Earth for any signs of human technology that could be used against them Earth is plundered for its resources and man is hunted by a species far more advanced technologically with speed and reflexes five times faster than any human and deadly tentacles that extend from their forearms at will Lacking the means to fight back man has but one option run John and Melissa journey to their mountain home where they live out each day hoping to see the next Their plans are tested when an injured alien finds its way into their home and beats Melissa's pregnant body within inches of death The human population is dwindling and in time will become extinct but there are some who refuse to let that happen Some fight back against an opponent most feel they cannot beat in a battle they cannot win But these freedom fighters have one thing the others do not they have Hope

Truth Springs from the Earth Morris M. Faierstein, 2018-04-02 Rabbi Menahem Mendel of Kotsk 1787-1859 was one of the most interesting and challenging figures of Hasidism in the nineteenth century His search for truth and battles against falsehood and spiritual compromise are the subject of many legends hagiographical stories and anecdotes Though he was irascible and demanding he inspired the loyalty of disciples who went on to become the dominant leaders of Hasidism in Poland from the middle of the nineteenth century to the destruction of Polish Jewry in the Holocaust R Menahem Mendel left no surviving writings His descendants and disciples moved away from the radicalism of his teachings and adopted more conventional and conservative theological positions As a result there was little incentive to preserve and publish his teachings The goal of this work is twofold First to present a biographical study of what is known about R Menahem Mendel that is based on historical research instead of repeating myths legends and stories without regard to their historical veracity Secondly to collect translate and analyze those teachings and sayings by or about R Menahem Mendel that are consistent with what we know about his life and teachings and are also accessible to a broader audience

Zephaniah: An Earth Bible Commentary Nicholas R. Werse, 2024-10-17 With astute attention to Zephaniah's intertextual relationships with other biblical texts Nicholas R Werse explores the implications of Zephaniah as a book in perpetual conversation with other biblical cosmologies and conceptions of the human place in relationship with creation Werse guides readers to critically examine Zephaniah's ancient worldview

and subsequent legacy in dialog with the world's modern ecological crises Werse argues that Zephaniah begins and ends with the land. It begins with the removal of all life from the land and ends with a proclamation returning the exiles to their ancestral home. Along this journey all three chapters of Zephaniah systematically reverse language and imagery from Gen 1:11 and draw deeply from the language of earlier prophets to depict the 6th century BCE destruction of Jerusalem as nothing short of the unravelling of creation. While remaining suspicious of Zephaniah's distinctively androcentric worldview, Werse traces Zephaniah's rhetorical journey from the deconstruction of creation and the nations to its proclamations of hope for the future.
