The Return of YHWH Blaženka Scheuer, 2008-12-19 The theology of Isaiah 40 55 has two seemingly contradictory aspects the tension between the consolatory message of deliverance and the harsh tone of accusation and the call to repentance This study argues that such tension does not necessarily disclose a different authorship but that it expresses the basic nature of the relationship between YHWH and the Israelites in which the actions of YHWH and the actions of the people stand in a relationship of interdependence Such interdependence is essential for the re establishment and the continued existence of the relationship between YHWH and his people as well as for shaping the identity of both the exiled and the non exiled Israelite communities in the latter part of the sixth century B C E

Flight from Chile Thomas Wright, Rody Oñate, 2023-08-15 2023 marks the fiftieth anniversary of General Pinochet's coup on September 11 1973 During the wave of mass arrests torture and executions that followed people began fleeing Chile Over the next fifteen years some two hundred thousand Chileans sought

exile in countries around the world Out of their anguish and anger come these moving and powerful testimonies of their fractured lives the first oral history of the Chilean diaspora now revised and updated Many who fled had been tortured and they clung to the principle that the dictatorship was an evil that had to be destroyed But their zeal and solidarity with other refugees often failed to sustain families Many marriages collapsed and children lost interest in their native land and culture After civilian rule returned in 1990 many returning exiles felt estranged from a homeland forever changed This timely update of the 1998 collection continues to remind us of the fracturing legacy and enduring oppression of usurpation and authoritarian rule long after its time has passed *The Critics who Made Us* George Core,1993 Collects essays published in the last seven years in the distinguished literary journal that reevaluates eminent British and American literary critics of the 20th century Among those whose work is discussed are Eliot Pound Frye and Trilling Wilson Cowley Burke Warren Jarrell and Brooks virtually all of whom shared a commitment to the craft of criticism wrote poetry or fiction and also left their mark as editors Annotation copyright by Book News Inc Portland OR **Exile and Expatriation in Modern American and Palestinian Writing** Ahmad Rasmi Qabaha,2018-05-23 This book examines the distinction between literary expatriation and exile through a contrapuntal reading of modern Palestinian and American writing It argues that exile in the Palestinian case especially is a political catastrophe it is banishment by a colonial power It suggests that unlike expatriation a choice of a foreign land over one's own exile is a political rather than an artistic concept and is forced rather than voluntary while exile can be emancipatory it is always an unwelcome loss In addition to its historical dimension exile also entails a different perception of return to expatriation This book frames expatriates as quintessentially American particularly intellectuals and artists seeking a space of creativity and social dissidence in the experience of living away from home At the heart of both literary discourses however is a preoccupation with home belonging identity language mobility and homecoming Sport, Spirituality, and Religion Tracy J. Trothen,2019-11-22 The research studies included in this Special Issue highlight the fundamental contribution of the knowledge of environmental history to conscious and efficient environment conservation and management The long term perspective of the dynamics that govern the human climate ecosystem is becoming one of the main focuses of interest in biological and earth system sciences Multidisciplinary bio geo archaeo investigations into the underlying processes of human impact on the landscape are crucial to envisage possible future scenarios of biosphere responses to global warming and biodiversity losses This Special Issue seeks to engage an interdisciplinary dialog on the dynamic interactions between nature and society focusing on long term environmental data as an essential tool for better informed landscape management decisions to achieve an equilibrium between conservation and sustainable resource exploitation **The View Across the River** Jeff Guy,2002 Jeff Guy is Professor of History at the University of Natal Durban He is the author of *The Destruction of the Zulu Kingdom* and *The Heretic* a biography of Bishop Colenso *Exile, Incorporated* Rosanne Liebermann,2024-07-19 *Exile Incorporated* The Body in the Book of Ezekiel demonstrates how the

book of Ezekiel makes rhetorical use of the human body to construct an exile centred Judean identity This focus on the body is inextricable from the book's setting in the Judean exile to Babylonia during the sixth century BCE In such a context of upheaval all that the displaced group reliably retains are their bodies Even so the material surroundings of those bodies change completely calling into question previously accepted ways of being Author Rosanne Liebermann reveals how the book of Ezekiel holds acute awareness of this situation evoking bodily practices and embodied experiences that serve to construct a Judean identity based on existence outside of the land of Judah This identity excludes both non Judeans as well as the Judeans who remained in Judah The book of Ezekiel achieves this exclusion via descriptions of bodily practices including circumcision dress and the observance of a cultic calendar that distinguish its constructed in group of exiled Judeans from outsiders Ezekiel also evokes the embodied emotion of disgust regarding the bodies of those with outsider practices which in turn encourages the practice of segregation and endogamy within the in group Focusing on the bodies depicted in the book of Ezekiel also highlights how the text presents hierarchies within the exilic Judean group which itself contains bodies differentiated by gender and priestly or non priestly descent Reading the text in this way reveals how the book of Ezekiel constructs a model of a variegated community able to embody a Judean identity that not only survived but was based on life outside of the land of Judah

Exile and Creativity Susan Rubin Suleiman, 1998 Essays that range chronologically from the Renaissance to the 1990s geographically from the Danube to the Andes and historically from the Inquisition to the Holocaust examine the complexities and tensions of exile focusing particularly on whether exile tends to block or to enhance artistic creativity 16 photos

Naficy,2018-06-05 In *An Accented Cinema* Hamid Naficy offers an engaging overview of an important trend the filmmaking of postcolonial Third World and other displaced individuals living in the West How their personal experiences of exile or diaspora translate into cinema is a key focus of Naficy's work Although the experience of expatriation varies greatly from one person to the next the films themselves exhibit stylistic similarities from their open and closed form aesthetics to their nostalgic and memory driven multilingual narratives and from their emphasis on political agency to their concern with identity and transgression of identity The author explores such features while considering the specific histories of individuals and groups that engender divergent experiences institutions and modes of cultural production and consumption Treating creativity as a social practice he demonstrates that the films are in dialogue not only with the home and host societies but also with audiences many of whom are also situated astride cultures and whose desires and fears the filmmakers wish to express Comparing these films to Hollywood films Naficy calls them accented Their accent results from the displacement of the filmmakers their alternative production modes and their style Accented cinema is an emerging genre one that requires new sets of viewing skills on the part of audiences Its significance continues to grow in terms of output stylistic variety cultural diversity and social impact This book offers the first comprehensive and global coverage of this genre while presenting a framework in which to understand its intricacies *Exile and the Politics of Exclusion in the Americas* Luis Roinger,2012-03-13 This collection of essays brings together leading experts in the study of exile and expatriation whose historical and comparative perspectives enable readers to understand the phenomenon of forced displacement in the Americas
