Existence And Transcendence An Anti Faustian Study In Philosophical:

Existence and Transcendence Victor Segesvary,2002-02 This research work is a serious attempt to dilemma the inadequacies of reductive materialism as it has developed in the West in the last 200 years The epoch of scientism has produced great material wealth for some but has also seriously sapped the human and the environmental realms that have collided with this contemporary reality Segesvary explores philosophy theology as well as the natural sciences to develop his powerful anti Faustian argument L' Islam Et la RZforme

Victor Segesvary,2002 This important study brings to light a little known but essential moment in the relations between Islam and Christianity the history of the 1542 publication of the Quaran Koran in Latin in Venice and Basel and the controversy surrounding the emergence of this work in religious reform circles This research relates the origins of European attitudes of tolerance to the Reformation and the reformers specific interest in non traditional religious theology and secular philosophy The Koran proved to be a major though overlooked element in this movement toward cultural heterodoxy TEXT IN FRENCH WITH ENGLISH SUMMARIES **Dialogue of**

Civilization Victor Segesvary,2000-04-12 The necessity of a dialogue among the various rich and powerful civilizations that co exist on our planet will be a looming international problem in the coming 21st century A civilizational dialogue necessitates familiarity with major aspects of other civilizations such as religion symbolism myth in the spiritual domain social structure and development or political organization in the social and institutional spheres Familiarity between civilizations would enable them in the course of the dialogue to identify shared beliefs and values which are the common aspects of humanity that unite us all Dialogue of Civilization guides the reader through a deep analysis of different civilizational worlds An indispensable book for students and professors of anthropology political science and foreign relations

Forthcoming Books Rose Arny,2002-02 *World State, Nation States, Or Non-Centralized Institutions?* Victor Segesvary,2003-01-21 World state or nation states Democratic or hegemonic transnational order Illusions and delusions Ethnic conflicts religious fundamentalism and evanescent hard to grasp worldwide terrorism what will be humanity s political future This study is the first to try to find non conventional solutions to this problem Its intent is to induce people to invent new ways of political reordering based on prevailing trends in civil societies and to think of adopting hitherto unimaginable entirely new political institutional forms A second innovating aspect is its linking such a political reordering to the achievements of scientific and technological progress the availability of the latest information and communication technologies Political communities networking is seen as the only way to realize the ideas proposed through linking the new institutional entities in a non centralized framework Bibliographic Guide to Psychology New York Public Library.
