**Zen-Existentialism** Lit-sen Chang, 2011-07-21 Modern man has found that material achievements are failing him but in his escape from despair he has become an easy prey for the deceptive cult of Zen Existentialism There has emerged a mode of radical New Humanism with its emphasis on human autonomy In place of the God man appears the man god There is a search for the world within the limitless inner space the expansion of consciousness and the transcendental experience of Satori First published in 1969 this book prophetically anticipated the growth of New Age developments in the decades to follow Lit sen Chang directly spoke to the Hippie movement of his day which was then seeking various means of transcendence through drugs and eastern mysticism This book also reflects fifty years of bitter experiences of the author's spiritual pilgrimage and shows how he was miraculously delivered by the grace and power of God from his cul de sac Chang writes of the utter futility of the fantasy of the East analyzes the root causes of the crises in the West and points out the doom of auto soterism after his careful diagnosis of the human problem in cultural philosophical religious and theological terms

*Conrad's Existentialism* O. Bohlmann, 1991-06-25 Otto Bohlmann's fascinating study offers detailed and exhaustive evidence that the major philosophical aspects of Conrad's novels exhibit a powerful existential strain foreshadowing many central concerns of twentieth century modernism Through both wide and close reading Dr Bohlmann illuminates more

thoroughly than any previous scholar the remarkable extent to which Conrad's fiction is replete with ideas attitudes and even phrases reminiscent of Kierkegaard Nietzsche Jaspers Marcel Heidegger Sartre and Camus      *Introduction to Existentialism* Robert L. Wicks, 2019-09-19 This textbook introduces you to existentialist philosophical theory and its cultural influence The first part of the book offers an introductory overview of the 19th century historical roots of existentialist thought and chapters on all the key players Kierkegaard Nietzsche Heidegger Sartre de Beauvoir and Camus The second part presents a thematic approach with chapters on Christian and Jewish existentialism existentialism in America existential psychology and existentialism in the cinema Ideal for undergraduate and classroom use this engaging and accessible textbook includes pedagogical features such as study questions chapter summaries key definitions and further reading      [The A to Z of Existentialism](#) Stephen Michelman, 2010 Existentialism is the philosophy of human existence which flourished first in Germany in the 1920s and 1930s and then in France in the decade following the end of World War II The operative meaning of existentialism here is thus broader than it was circa 1945 when the term first gained currency in France as a label for the philosophy of Jean Paul Sartre However it is considerably less broad than the view proposed by commentators in the 1950s and 1960s who in an attempt to overcome Sartre's hegemony discovered the seeds of existentialism far and wide in Shakespeare Saint Augustine and the Old Testament prophets In this dictionary existentialism is understood as a decidedly 20th century phenomenon though with roots in the 19th century Effort has been made to understand the philosophy of existentialism as all philosophies should be understood as part of an ongoing intellectual tradition an evolving history of problems concepts and arguments The A to Z of Existentialism explains the central claims of existentialist philosophy and the contexts in which it developed into one of the most influential intellectual trends of the 20th century This is done through a chronology an introductory essay a bibliography and more than 300 cross referenced dictionary entries offering clear accessible accounts of the life and thought of major existentialists like Jean Paul Sartre Martin Heidegger Martin Buber Karl Jaspers Gabriel Marcel Simone de Beauvoir Albert Camus and Maurice Merleau Ponty as well as thinkers influential to its development such as Wilhelm Dilthey Henri Bergson Edmund Husserl and Max Scheler This book affords readers an integrated critical and historically sensitive understanding of this important philosophical movement      **Existential Media** Amanda Lagerkvist, 2022 Existential Media revisits existential philosophy through a reappraisal of Karl Jaspers philosophy and of his concept of the limit situation those ultimate moments in life of loss crisis and guilt which we are called upon to seize Introducing the field of existential media studies in conversation with disability studies the new materialism and the environmental humanities the book offers a media theory of the limit situation which brings limits in all their shapes and forms onto the radar when we interrogate media      **Existentialism** Charles B. Guignon, Derk Pereboom, 2001-01-01 Together with the editor's thoughtful introductions the central existential writings of Kierkegaard Nietzsche Heidegger and Sartre included in this volume make it the most substantial anthology of existentialism available Without shortening any of

the selections offered in the first edition the second edition adds valuable context by presenting two additional selections by philosophers who had a profound impact on the development of existentialism Hegel and Husserl *Existential Theology* Hue Woodson, 2020-09-29 *Existential Theology An Introduction* offers a formalized and comprehensive examination of the field of existential theology in order to distinguish it as a unique field of study and view it as a measured synthesis of the concerns of Christian existentialism Christian humanism and Christian philosophy with the preoccupations of proper existentialism and a series of unfolding themes from Augustine to Kierkegaard To do this *Existential Theology* attends to the field through the exploration of genres the European traditions in French Russian and German schools of thought counter traditions in liberation feminist and womanist approaches and postmodern traditions located in anthropological political and ethical approaches While the cultural contexts inform how each of the selected philosopher theologians present genres of existential theology other unique genres are examined in theoretical and philosophical contexts particularly through a selected set of theologians philosophers thinkers and theorists that are not generally categorized theologically By assessing existential theology through how it manifests itself in genres this book brings together lesser known figures well known thinkers and figures that are not generally viewed as existential theologians to form a focused understanding of the question of the meaning of existential theology and what existential theology looks like in its varying forms **European Existentialism** Nino Langiulli, *European Existentialism* is a rich collection of major texts and is made all the more significant by the range and depth of its contributions This book aims to give greater intelligibility to existentialism by providing samples from antecedents of and influences upon it Although existentialism is regarded as an example of twentieth century philosophizing the book presents nineteenth century thinkers such as Kierkegaard and Nietzsche as its forerunners Thinkers such as Dilthey Husserl and Scheler frequently associated with other trends in philosophy such as historicism and phenomenology are included because of their influence upon existentialism Informative biographies of each author represented are also included *European Existentialism* includes a broad range of philosophers working in the existentialist mode not only French and German but also Spanish Italian Jewish and Russian philosophers This volume is also distinctive in that it omits existentialists from the literary world While Dostoevsky is often included in other existentialist collections Langiulli represents Russian philosophy with a selection by Berdyaev In his new introduction Langiulli discusses how the themes of existentialism have led to contemporary aberrations He uses the language of political rights as an example whereas we once referred to freedom of speech we have transformed that phrase into a much wider category freedom of expression Langiulli also examines various trends that have derived from existentialism postmodernism deconstructionism and multiculturalism Langiulli's introduction and the contributions place existentialism as a genuine tradition in the history of philosophy a tradition which stresses the radical contingency and mortality of human existence *European Existentialism* is an invaluable collection for philosophers educators and all those interested in the existentialist tradition Camus' Answer

Robert Trundle, 2001-01-01 This work investigates whether Camus idea of living without conceptual absolutes is an attainable goal

*A Critique of Jean-Paul Sartre's Ontology* M.A. Natanson, 2012-12-06 Why is my pain perpetual and my wound incurable which refuseth to be healed Jeremiah Existentialism today refers to faddism decadentism morbidity the philosophy of the graveyard to words like fear dread anxiety anguish suffering aloneness death to novelists such as Jean Paul Sartre Dostoevski Camus Kafka to philosophers like Kierkegaard Heidegger Marcel Jaspers and Sartre and because it refers to and is concerned with all of these ideas and persons existentialism has lost any clearer meaning it may have originally possessed Because it has so many definitions it can no longer be defined As Sartre writes Most people who use the word existentialism would be embarrassed if they had to explain it since now that the word is all the rage even the work of a musician or painter is being called existentialist A gossip columnist signs himself The Existentialist so that by this time the word has been so stretched and has

taken on so broad a meaning that it no longer means anything at all 2 This state of definitional confusion is not an accidental or negligible matter An attempt will be made in this introduction to account for the confusion and to show why any definition of existentialism involves us in a tangle First however it is necessary to state in a tentative and very general manner what points of view are here intended when reference is made to existentialism      *Plays Of Eugene O'Neill A Critical Study* Monika Gupta, 2001 The Present Book The Plays Of Eugene O'Neill A Critical Study Is A Full Length Study Of Eugene O'Neill S Major Plays O'Neill Who Was Awarded The Nobel Prize For Literature In November 1936 Has A Firm Belief That Powerlessness Cultural Estrangement Social Isolation Self Estrangement And Normlessness Are The Major Factors Which Account For The Realistic Representation Of The Problems Of The Individual In His Plays O'Neill S Plays Are Modern Tragedies Striking At The Very Root Of Sickness Inherent In The Present Day World He Claims That He Has Studied Man Not In Relation To Man But Man In Relation To God
