Experience And Learning An Introduction To Experiential Learning:

Experience and Learning Arthur W. Chickering, 1977-01-01 *Experiential Learning* David A. Kolb, 2015 Experiential learning is a powerful and proven approach to teaching and learning that is based on one incontrovertible reality people learn best through experience Now in this extensively updated book David A Kolb offers a systematic and up to date statement of the theory of experiential learning and its modern applications to education work and adult development Experiential Learning Second Edition builds on the intellectual origins of experiential learning as defined by figures such as John Dewey Kurt Lewin Jean Piaget and L S Vygotsky while also reflecting three full decades of research and practice since the classic first edition Kolb models the underlying structures of the learning process based on the latest insights in psychology philosophy and physiology Building on his comprehensive structural model he offers an exceptionally useful typology of individual learning styles and corresponding structures of knowledge in different academic disciplines and careers Kolb also applies experiential learning to higher education and lifelong learning especially with regard to adult education This edition reviews recent applications and uses of experiential learning updates Kolb s framework to address the current organizational and educational landscape and features current examples of experiential learning both in the field and in the classroom It will be an indispensable resource for everyone who wants to promote more effective learning in higher education training organizational development lifelong learning environments and online

Working Knowledge Symes, Colin, McIntyre, John, 2002-11-01 This book analyses the development of work based learning from a number of perspectives critical historical philosophical sociological and pedagogical Its various contributors argue that work based approaches contain much that is challenging to the university and also much that could help to create new frameworks of learning and new roles for academics

Using Experience For Learning Boud, David, Cohen, Ruth, Walker, David, 1993-10-01 What are the key ideas that underpin learning from experience How do we learn from experience How does context and purpose influence learning How does experience impact on individual and group learning How can we help others to learn from their experience Using Experience for Learning reflects current interest in the importance of experience in informal and formal learning whether it be applied for course credit new forms of learning in the workplace or acknowledging autonomous learning outside educational institutions It also emphasizes the role of personal experience in learning ideas are not separate from experience relationships and personal interests impact on learning and emotions have a vital part to play in intellectual learning All the contributors write themselves into their chapters giving an autobiographical account of how their experiences have influenced their learning and what has led them to their current views and practice Using Experience for Learning brings together a wide range of perspectives and conceptual frameworks with contributors from four continents and should be a valuable addition to the field of experiential learning
