World Bank Anne C. M. Salda,1995 **Perspectives on the History of Global Development** Corinna R.

Unger,Nicholas Ferns,Jack Loveridge,Iris Borowy,2022-10-24 What is development what has it been in the past and what can historians learn from studying the history of development How has the field of the history of development evolved over time and where should it be going in the future **MSMEs AND EMPOWERMENT OF WOMEN ENTREPRENEURS: THE**

EXPERIENCE OF KERALA Dr. SHINY V.N,Prof. Dr. G. RAJU,2018-03-05 Women entrepreneurs play a crucial role in the process of economic development Over the years women s share in the labour force is continuously rising They are the emerging economic force holding key positions in government as well as in private sectors They are even managing their own business enterprises The World Bank Devesh Kapur,John P. Lewis,Richard C. Webb,2010-12-01 This effort constitutes the

most comprehensive and authoritative work to date on the history of the International Bank for Reconstruction and Development or the World Bank Author editors John Lewis Richard Webb and Devesh Kapur chronicle the evolution of this institution and offer insights into its successes failures and prospects for the future The result of their intense labors is an invaluable resource for other researchers and a fascinating study in its own right The work is divided into two volumes The first is organized thematically and examines the critical events and policy issues in the World Bank s development over the last fifty years Chapter topics include poverty alleviation structural adjustment lending environmental programs the International Finance Corporation IFC the International Development Association IDA and the evolution of the Bank as an institution The second volume contains case studies written by experts with experience in the various regions in which the Bank operates There are chapters on the Bank s activities in Korea Mexico Africa South Asia and Eastern Europe Volume 2 also contains essays on the World Bank s relationship with the United States Japan and Western Europe and its partnership with the International Monetary Fund IMF By special arrangement the authors have had wide ranging access to confidential documents at the World Bank making this work a unique source of information on the internal workings of this critical institution They have also drawn on extensive interviews with current and past Bank officials Moreover publication could not be more timely coming as it does when many in the development community and in the U S Congress are questioning the Bank s track record and even its reason for existence The World Bank Its First Half Century will be of great interest not only to development practitioners but also to students of international relations development economics and global finance During the course of the project John P Lewis and Richard Webb were nonresident senior fellows and Devesh Kapur was a program associate in the Foreign Policy Studies program at the Brookings Institution Lewis is professor emeritus at Princeton University and formerly served as chairman of the Overseas Development Council Webb is managing director of Instituto Cuanto and formerly served as governor at the Central Reserve Bank of Peru and governor at the International Monetary Fund Growth and Productivity in Agriculture and Agribusiness ,2011 The report assesses the World Bank Group s

support for growth and productivity in the agriculture sector Enhancing agricultural growth and productivity is essential to meeting the worldwide demand for food and to reducing poverty particularly in the poorest developing countries Between 1998 and 2008 the period covered by this evaluation the World Bank Group WBG provided 23.7 billion in financing for agriculture and agribusiness in 108 countries roughly 8 percent of total WBG financing spanning areas from irrigation and marketing to research and extension However this was a time of declining focus on agricultural growth and productivity by both countries and donors The cost of inadequate attention to agriculture especially in agriculture based economies came into focus with the food crisis of 2007-08 The crisis added momentum to an emerging renewal of attention and stepped up financing to agriculture and agribusiness at the World Bank and International Finance Corporation IFC as well as at several multilateral and bilateral agencies World Bank financing rose two and a half times from 2008 to 2009 though that increase in lending seems to have been accompanied by a decline in analytical work which this review finds valuable for results This evaluation seeks to provide lessons from successes and failures to help improve the development impact of the renewed attention to the sector Ratings against the World Bank's stated objectives and IFC's market based benchmarks for agriculture and agribusiness projects have been equal to or above portfolio averages in East Asia Latin America and the transition economies in Europe with notable successes over a long period in China and India But performance of WBG interventions has been well below average in Sub Saharan Africa where IFC has had little engagement in agribusiness Inconsistent client commitment and weak capacity have limited the effectiveness of WBG support in agriculture based economies particularly in Sub Saharan Africa and constraints on staffing and internal coordination within the WBG have also hurt outcomes Financial sustainability has been constrained by insufficient government funding and the difficulty of maintaining agricultural services and infrastructure The WBG has a unique opportunity to match the increases in the financing for agriculture with sharper focus on improving agricultural growth and productivity in agriculture based economies notably in Sub Saharan Africa Greater effort will be needed to connect sectoral interventions and achieve synergies from public and private sector interventions to build capacity and knowledge exchange to take stock of experience in rain fed agriculture to ensure attention to financial sustainability and to cross cutting issues of gender environmental and social impacts and climate and to better integrate WBG support at the global and regional levels with that at the country level

The World Bank and the Poor A. van de Laar, 1980-05-31 The authors of a recent textbook on the Economics of Development P. A. Yotopoulos and J. B. Nugent 1976 chose as the title of their first chapter The Record of Economic Development and Disillusionment with Development Economics It is striking that dissatisfaction with this young branch of the tree of economics has become so strong that a textbook treatment of the subject matter takes Disillusionment as its point of departure True the Disillusionment chapter is followed by many other chapters there is after all something to be said on development economics that is worth saying but the wording has changed and frequently the focus as well in comparison to

the development economics of the 1950s and sixties Dissatisfaction and disillusionment may be interpreted optimistically as an inevitable stage in the coming of age process of development economics Others may say that the search for a new paradigm is the core of the problem At any rate there is no room for complacency It cannot be denied that at least part of the early development theory came into being as a justification ex post of policy measures that for a variety of reasons were judged desirable or essential

The Lending Policy Of The World Bank In The 1970s Bettina S. Hurni,2020-01-08 This pilot study the first to analyze the World Bank s lending policy in the Second United Nations Development Decade concentrates on the Bank s shift in emphasis from traditional infrastructure projects to new style projects especially in the area of rural development and on the resulting changes in lending criteria in the 1970s Basing her conclusions on two years of independent research and access to confidential materials Dr Hurni evaluates the World Bank s work gives a good overall view of current development problems including implementation of the growth with equity strategy and their possible solutions shows the effects of the new development goals in borrower and creditor countries as well as on the institutional decision making process and offers recommendations for improvement of the Bank s evaluation methodology and operational structures She presents a clear picture of the positive and negative aspects of the World Bank as a multilateral investment model and shows its bridge building function in the great North South controversy
