These are the core questions explored by this accessible global introduction to intercultural communication. Each chapter explores the topic from a different geographic, religious, theoretical and/or methodological perspective with an emphasis on non-Western approaches including Buddhist, South American, Muslim and Chinese perspectives. An Integrated Approach to Intercultural Communication Nataša Bakić-Mirić, 2011-11-15 This book explores communication culture and intercultural communication. The emphasis is on promoting understanding of and appreciation for the rich and varied perspectives encountered in intercultural communication opportunities. Interdisciplinary in nature, the book focuses on the need to develop self-understanding as a first step to intercultural understanding and highlights the need for the intercultural state of mind to match our multicultural world, the difficulties inherent in the quest of such an objective, the excitement of challenges on the way and the rewards of the success that are sputtering with new energy and yet waiting to be discovered. Furthermore, the book represents an initial step in the process of building competencies which may facilitate effective communication in all types of cross-cultural settings. It gives a unique outlook of how people from differing cultural backgrounds communicate in similar and different ways among themselves and how they endeavor to communicate across cultures. The book grows out of the philosophy that developing better interpersonal intercultural communication skills will profoundly benefit the seven billion people who share this planet and who increasingly interact with each other by producing some guidelines with which people can successfully cope with the realities of cultural diversity, the challenges of living in a multicultural world, the need to transcend the unpredictability of intercultural interactions, the accompanying fears that such interactions often encompass and the feeling of joy and comfort in the discovery of cultural diversity.

Studies in Ethnopragmatics, Cultural Semantics, and Intercultural Communication Lauren Sadow, Bert Peeters, Kerry Mullan, 2019-10-23 This book is the third in a three-volume set that celebrates the career and achievements of Cliff Goddard, a pioneer of the Natural Semantic Metalanguage approach in linguistics. This third volume explores the potential of Minimal English, a recent offshoot of the Natural Semantic Metalanguage with special reference to its use in Language Teaching and Intercultural Communication. Often considered the most fully developed, comprehensive and practical approach to cross-linguistic and cross-cultural semantics, Natural Semantic Metalanguage is based on evidence that there is a small core of basic universal meanings, semantic primes, that can be expressed in all languages. It has been used for linguistic and cultural analysis in such diverse fields as semantics, cross-cultural communication, language teaching, humour studies and applied linguistics and has reached far beyond the boundaries of linguistics into ethnopsychology, anthropology, history, political science, the medical humanities and ethics.
