The Environmental, Public Health, and Human Rights Impacts on Enhancing the Quality of Life of People with Intellectual Disability Laura Elisabet Gomez Sanchez,2021-08-18 Societal views on the human rights of persons with disabilities have significantly changed over the last four decades However while achieving equality autonomy nondiscrimination participation and inclusion should be a priority abuses and violations of rights often occur in the most immediate environments of people with intellectual disability This book is intended to provide greater visibility to people with intellectual disability as full subjects of rights and improve their quality of life from a perspective of

human rights citizenship and contextual analysis We discuss the role of context the provision of inclusive environments and the improved health status at promoting quality of life related personal outcomes and enhancing quality of life and equality for people with intellectual disability

International Review of Research in Mental Retardation ,2007-08-30 Autism Spectrum Disorder is one of the most researched and popular topics in the fields of psychology psychiatry and special education In the last 30 years the amount of new information on assessment and treatment has been astounding The field has moved from a point where many considered the condition untreatable to the current position that it may be curable in some cases and that all persons with this condition can benefit from treatment Intervening with school age children continues to be a major focus of assessment or intervention However expanding the ages of those receiving more attention from younger children to older adults is becoming more prevalent The consensus is that intensive treatment at the earliest recognized age is critical and that many adults evince symptoms of the disorder and warrant care The field is full of many proposed treatments many of which offer promise but no data Thus a book on evidence based assessments and interventions across the life span should be of value in helping to sort out the more credible interventions as defined by the research and what methods have the best support Given the popularity of the topic and the vast array of potential assessments and treatments available this volume will be aimed at delineating what the researchers have shown has the best evidence to support particular methods International Review of Research in Mental Retardation is now available online at ScienceDirect full text online of volumes 23 onwards Elsevier book series on ScienceDirect gives multiple users throughout an institution simultaneous online access to an important complement to primary research Digital delivery ensures users reliable 24 hour access to the latest peer reviewed content The Elsevier book series are compiled and written by the most highly regarded authors in their fields and are selected from across the globe using Elsevier's extensive researcher network For more information about the Elsevier Book Series on ScienceDirect Program please visit <http://www.info.sciencedirect.com/bookseries>

Quality-of-Life Research in Chinese, Western and Global Contexts Daniel T.L. Shek,Ying Keung Chan,Paul S.N. Lee,2005-06-08 The majority of studies on the quality of life have been conducted in Western contexts and are based on Western participants Comparatively speaking there are only a few studies that have been conducted in different Chinese contexts Also there are fewer QOL studies based on children and adolescents or studies that examine the relationship between QOL and economic disadvantage In addition more research is needed to address the methodological issues related to the assessment of quality of life This volume is a constructive response to the challenges described above It is the first book to cover research in Chinese Western and global contexts in a single volume It is a ground breaking volume in which Chinese studies on the quality of life are collected The book includes papers addressing family QOL quality of life in adolescents experiencing economic disadvantage and methodological issues in the assessment of QOL It is written by researchers working in a variety of disciplines
