Handling Problems Of Peace And War:

Handling Problems of Peace and War Andrew Kirk, 1988-06-01 *Confronting Land and Property Problems for Peace* Shinichi Takeuchi, 2014-06-05 This collection clarifies the background of land and property problems in conflict affected settings and explores appropriate policy measures for peace building While land and property problems exist in any society they can be particularly exacerbated in conflict affected settings characterized by unstable security weak governance loss of proper documentation as well as the return of refugees and Internally Displaced Persons Unless these problems are properly addressed they can destabilize fragile political order and hinder economic recovery Although tackling land and property problems is an important challenge for peace building it has been relatively neglected in recent debates about liberal peace building as a result of the strong focus on state level institution building such as security sector reforms and transitional justice Using rich original data from eight conflict affected countries this book examines the topic from the viewpoint of State society relationship In contrast to previous literature this volume analyses land and property problems in conflict afflicted areas from a long term perspective of state building and economic development rather than concentrating only on the immediate aftermath of the conflict The long term perspective enables not only an understanding of the root causes of the property problems in conflict affected countries but also elaboration of effective policy measures for peace Contributors are area specialists and the eight case study countries have been carefully selected for comparative study The collection applies a common framework to a diverse group of countries South Sudan Uganda Rwanda Burundi Cambodia Timor Leste Colombia and Bosnia Herzegovina *Issues Facing Christians Today* John R. Holsti, 1991-04-26 Professor Holsti examines the origins of war and the foundations of peace of the last 350 years *Unequal Partners in Peace and War* Jongsuk Chay, 2002-03-30 The United States and the Republic of Korea have managed to forge a strong working relationship both in wartime and in peacetime despite an inequality in power between them through fulfillment of their respective responsibilities Chay explores how Korean and American actions and inaction affected relations between the two and within the international context of the Korean War He focuses on how and why war might have been avoided or resolved differently as a result of poor choices and missed opportunities Using Korean sources as well as Chinese and Russian materials this study provides valuable new insights into the relationship between these two unequal powers The course of the Korean War swung like a pendulum powered by two outside interventions that of the United States made largely due to the symbolic value of Korea and that of China an action taken mainly for security reasons Chay identifies key actions including the division of Korea along the 38th Parallel the 1949 troop withdrawal and the failure to build an adequate military and economic deterrent in the South as events that had they not occurred might have influenced the final outcome of the conflict Restraint on the part of the United States and China and the role of the Korean peninsula as a geographic buffer zone ultimately prevented either side from gaining control of the entire peninsula resulting in a stalemate While issues of relative strength and weakness hindered U S Korean cooperation after the end of the Second World War once war came to the region the two powers built a successful partnership that addressed the national interests of both parties **Transactions of the Grotius Society Problems of Peace and War** Grotius Society, London, 1917

War, Peace, and Violence: Four Christian Views Paul Copan, 2022-09-13 In a world of war terrorism and constant threats to global stability how should Christians honor Jesus Christ Four experts in Christian ethics political philosophy and international affairs present four different views of just war nonviolence Christian realism and church history orienting readers to today's key positions Territory, War, and Peace John A. Vasquez, Marie T. Hennehan, 2023-04-14 This book presents a collection of new and updated essays on what has come to be known as the territorial explanation of war The book argues that a key both to peace and to war lies in understanding the role territory plays as a source of conflict and intergroup violence Of all the issues that spark conflict territorial disputes have the highest probability of escalating to war War however is hardly inevitable much depends on how territorial issues are handled More importantly settling territorial disputes and establishing mutually recognized boundaries can produce long periods of peace between neighbors even if other salient issues arise While territory is not the only cause of war and wars arise from other issues territory is one of the main causes of war and learning how to manage it can in principle eliminate an entire class of wars This book will be of great interest to all students of war and conflict studies causes of war and peace international security and strategic studies John A Vasquez is Thomas B Mackie Scholar in International Relations at the University of Illinois Urbana Champaign He is author

of The Steps to War 2008 with Paul Senese and The War Puzzle Revisited 2009 He has been president of the Peace Science Society International and the International Studies Association Marie T Henahan is Director of Internships and Lecturer Department of Political Science at the University of Illinois Urbana Champaign She is author of Foreign Policy and Congress An International Relations Perspective and co editor of The Scientific Study of Peace and War **The Soviet Army's High Commands in War and Peace, 1941-1992** Richard W. Harrison, 2022-07-28 The first full treatment of the unique phenomenon of High Commands in the Soviet Army during World War II and the Cold War The war on the Eastern Front during 1941-45 was an immense struggle running from the Barents Sea to the Caucasus Mountains The vast distances involved forced the Soviet political military leadership to resort to new organizational expedients in order to control operations along the extended front These were the high commands of the directions which were responsible for two or more fronts army groups and along maritime axes one or more fleets In all five high commands were created along the northwestern western southwestern and North Caucasus strategic directions during 1941-42 However the highly unfavorable strategic situation during the first year of the war as well as interference in day to day operations by Stalin severely limited the high commands effectiveness As a consequence the high commands were abolished in mid 1942 and replaced by the more flexible system of supreme command representatives at the front A High Command of Soviet Forces in the Far East was established in 1945 and oversaw the Red Army's highly effective campaign against Japanese forces in Manchuria The Far Eastern High Command was briefly resurrected in 1947 as a response to the tense situation along the Korean peninsula and the ongoing civil war in China but was abolished in 1953 soon after Stalin's death Growing tensions with China brought about the recreation of the Far Eastern High Command in 1979 followed a few years later by the appearance of new high commands in Europe and South Asia However these new high commands did not long survive the collapse of the Soviet Union in 1991 and were abolished a year later The book relies almost exclusively on Soviet and post communist archival and other sources and is the first unclassified treatment of this subject in any country East or West The Negro's Church Benjamin E. Mays, 2015-08-04 **To Create a Department of Peace. Hearings on H.R. 503. June 18, 1947** United States. Congress. House. Committee on Expenditures in the Executive Departments, 1947 Grandeur And Misery Anthony Adamthwaite, 2014-03-04 A central question in European history is how did a great power pre eminent in 1918 lie defeated by the same enemy less than 20 years later Until recently the explanation has been sought in fundamental weaknesses that could only leave the French of 1940 hamstrung and demoralized Recent studies have challenged that view and now for the first time the revisionist approach is displayed in a single volume both summarizing the research of others and drawing on the author's own work in the archives The book is about as far from dry as dust diplomatic history as it's possible to get Its very readable and the author manages to show with the telling anecdote that even a serious subject has its comic side that for instance the French High Command kept forces stationed in the Alps for seven years because no one in the foreign

service had thought to pass on news about a secret treaty between Italy and France in 1902 or that after a particularly stressful meeting Andrew Bonar Law the British prime minister mouth to Poincar the French president through the closed carriage window of his train and you go to hell all the while smiling and exuding affability Such episodes are not the substance of the book but they oil its progress **War & Peace** ,1914
