Library/Vendor Relationships Sam Brooks, David H. Carlson, 2014-05-01 A view of the mutual dependence between libraries and vendors As technology advances libraries are forced to reach beyond their own resources to find effective ways to maintain accuracy and superior service levels Vendors provide databases and integrated library systems that perform those functions for profit Library Vendor Relationships examines the increasing cooperation in which libraries find they must participate in and vice versa with the vendors that provide system infrastructure and software Expert contributors provide insights from all sides of this unique collaboration offering cogent perspectives on the give and take process that every librarian publisher and database provider producer can use The symbiosis between libraries and vendors

of databases relies heavily upon open communication to achieve each one's beneficial results. Library Vendor Relationships explores this partnership between profit and nonprofit entities in detail focusing on issues of crucial importance for both sides. A variety of diverse types of libraries and vendors give voice to the multitude of issues facing them. Several charts, graphs, and other helpful visuals are included. Topics in Library Vendor Relationships include options for preventing systematic downloading of material, benefits and challenges of delivering products on multiple platforms, using the American Psychological Association's experiences as a case study, book vendors' efforts to help libraries become more efficient, comprehensive online support services to help increase interaction between libraries and academic publishers, Anatolian University Libraries Consortium's effective relationship with vendors, publisher and vendor use of library advisory boards to provide needed feedback, a review of the database marketplace fostering a good relationship between library and vendor, the future of government libraries in an increasingly technological age, collaboration in standards development, integrated e-commerce, the relationship between OCLC and member institutions, libraries' position between commerce and science, vendor, community college library relationships, e-mail discussion lists, and more. Library Vendor Relationships is stimulating, insightful reading for academic librarians, government librarians, public librarians, deans, directors, reference librarians, publishers, and database providers.

Licensing in Libraries Karen Rupp-Serrano, 2014-09-25 Seasoned professionals examine essential licensing issues. Licensing in Libraries: Practical and Ethical Aspects is designed to help librarians, publishers, students, and professionals in library licensing stay at the forefront of this rapidly evolving field. Experienced professionals present state-of-the-art information on licensing issues including interlibrary loan, contract management, end-user education, pricing models for electronic materials, copyright, public domain issues, e-books, consortial licensing, licensing software, and legal aspects of licensing as well as an important historical perspective on the development of the field. Licensing in Libraries provides publishers with important considerations that impact their roles as vendors of licensed products. Licensing professionals can update their knowledge with a close look at the controversial issues surrounding licensing: special collections, digital rights management, and producers' concerns about content. The book also looks at the role of the Copyright Clearance Center regarding compliance in the electronic environment. Licensing in Libraries examines licensing from both a vendor and consumer perspective, software to help manage licenses, factors for vendors to consider when deciding on pricing models, current information on the more complex levels of licensing, the developing world of e-book licensing, licensing laws of concern to librarians, the impact that licensing has on library services, educating patrons about products they will use.
