Imperial Encounters:

Imperial Encounters Roxanne Lynn Doty, 1996 Developed underdeveloped first world third world modern traditional although there is nothing inevitable natural or arguably even useful about such divisions they are widely accepted as legitimate ways to categorize regions and peoples of the world In *Imperial Encounters* Roxanne Lynn Doty looks at the way these kinds of labels influence North South relations reflecting a history of colonialism and shaping the way national identity is constructed today Employing a critical poststructuralist perspective Doty examines two imperial encounters over time between the United States and the Philippines and between Great Britain and Kenya The history of these two relationships demonstrates that not only is the more powerful member allowed to construct reality but this construction of reality bears an important relationship to actual practice Doty considers the persistence of representational practices particularly with regard to Northern views of human rights in the South and contemporary social science discourses on North South relations

Important and timely *Imperial Encounters* brings a fresh perspective to the debate over the past and the future of global politics

Imperial Encounters Peter Van Der Veer, 2001

Alibis of Empire Karuna Mantena, 2010-02-07 *Alibis of Empire* presents a novel account of the origins substance and afterlife of late imperial ideology Karuna Mantena challenges the idea that Victorian empire was primarily legitimated by liberal notions of progress and civilization In fact as the British Empire gained its farthest reach its ideology was being dramatically transformed by a self conscious rejection of the liberal model The collapse of liberal imperialism enabled a new culturalism that stressed the dangers and difficulties of trying to civilize native peoples And hand in hand with this shift in thinking was a shift in practice toward models of indirect rule As Mantena shows the work of Victorian legal scholar Henry Maine was at the center of these momentous changes *Alibis of Empire* examines how Maine's sociotheoretic model of traditional society laid the groundwork for the culturalist logic of late empire In charting the movement from liberal idealism

through culturalist explanation to retroactive alibi within nineteenth century British imperial ideology *Alibis of Empire* unearths a striking and pervasive dynamic of modern empire **Close Encounters of Empire** Gilbert Michael Joseph, Catherine LeGrand, Ricardo Donato Salvatore, 1998 Essays that suggest new ways of understanding the role that US actors and agencies have played in Latin America publisher **Finnish Colonial Encounters** Raita Merivirta, Leila Koivunen, Timo Särkkä, 2022-01-01 Breaking new ground in the study of European colonialism this book focuses on a nation historically positioned between the Western and Eastern Empires of Europe Finland Although Finland never had overseas colonies the authors argue that the country was undeniably involved in the colonial world with Finns adopting ideologies and identities that cannot easily be disentangled from colonialism This book explores the concepts of colonial complicity and colonialism without colonies in relation to Finland a nation that was oppressed but also itself complicit in colonialism It offers insights into European colonialism on the margins of the continent and within a nation that has traditionally declared its innocence and exceptionalism The book shows that Finns were active participants in various colonial contexts including Southern Africa and S pmi in the North Demonstrating that colonialism was a common practice shared by all European nations with or without formal colonies this book provides essential reading for anyone interested in European colonial history Chapters 1 7 and 8 are available open access under a via link [springer.com](https://www.springer.com) *Empire of Texts in Motion* Karen Laura Thornber, 2020-10-26 By the turn of the twentieth century Japan s military and economic successes made it the dominant power in East Asia drawing hundreds of thousands of Chinese Korean and Taiwanese students to the metropole and sending thousands of Japanese to other parts of East Asia The constant movement of peoples ideas and texts in the Japanese empire created numerous literary contact nebulae fluid spaces of diminished hierarchies where writers grapple with and transculture one another s creative output Drawing extensively on vernacular sources in Japanese Chinese and Korean this book analyzes the most active of these contact nebulae semicolonial Chinese occupied Manchurian and colonial Korean and Taiwanese transculturations of Japanese literature It explores how colonial and semicolonial writers discussed adapted translated and recast thousands of Japanese creative works both affirming and challenging Japan s cultural authority Such efforts not only blurred distinctions among resistance acquiescence and collaboration but also shattered cultural and national barriers central to the discourse of empire In this context twentieth century East Asian literatures can no longer be understood in isolation from one another linked only by their encounters with the West but instead must be seen in constant interaction throughout the Japanese empire and beyond **A World Connecting** Emily S. Rosenberg, 2012-10-30 Between 1870 and 1945 advances in communication and transportation simultaneously expanded and shrank the world In five interpretive essays *A World Connecting* goes beyond nations empires and world wars to capture the era s defining feature the profound and disruptive shift toward an ever more rapidly integrating world *Empire and Indigeneity* Richard Price, 2021-05-30 Indigeneity is inseparable from empire and the way empire responds to the Indigenous presence is a key

historical factor in shaping the flow of imperial history This book is about the consequences of the encounter in the early nineteenth century between the British imperial presence and the First Peoples of what were to become Australia and New Zealand However the shape of social relations between Indigenous peoples and the forces of empire does not remain constant over time The book tracks how the creation of empire in this part of the world possessed long lasting legacies both for the settler colonies that emerged and for the wider history of British imperial culture

How the East Was Won

Andrew Phillips,2021-10-14 How did upstart outsiders forge vast new empires in early modern Asia laying the foundations for today s modern mega states of India and China In *How the East Was Won* Andrew Phillips reveals the crucial parallels uniting the Mughal Empire the Qing Dynasty and the British Raj Vastly outnumbered and stigmatised as parvenus the Mughals and Manchus pioneered similar strategies of cultural statecraft first to build the multicultural coalitions necessary for conquest and then to bind the indigenous collaborators needed to subsequently uphold imperial rule The English East India Company later adapted the same define and conquer and define and rule strategies to carve out the West s biggest colonial empire in Asia Refuting existing accounts of the rise of the West this book foregrounds the profoundly imitative rather than innovative character of Western colonialism to advance a new explanation of how universal empires arise and endure

Contested Properties Britta Rutert,2020-02-03 This book deals with the values of medicinal plants and associated knowledge s in the field of bioprospecting in post apartheid South Africa Bioprospecting the use of genetic or biological resources for commercial purposes is a profit oriented enterprise facing new challenges with the rise of human rights and biodiversity politics This new situation has led to claims for political leverage made by indigenous communities as well as to claims for national and local cultural identity and heritage The picture presented here contributes to the widely discussed yet so far unresolved question of how to appropriately share benefits and how to protect indigenous knowledge in this field

Violence in Roman Egypt Ari Z. Bryen, 2013-08-21 What can we learn about the world of an ancient empire from the ways that people complain when they feel that they have been violated What role did law play in people's lives And what did they expect their government to do for them when they felt harmed and helpless If ancient historians have frequently written about nonelite people as if they were undifferentiated and interchangeable Ari Z Bryen counters by drawing on one of our few sources of personal narratives from the Roman world over a hundred papyrus petitions submitted to local and imperial officials in which individuals from the Egyptian countryside sought redress for acts of violence committed against them By assembling these long neglected materials also translated as an appendix to the book and putting them in conversation with contemporary perspectives from legal anthropology and social theory Bryen shows how legal stories were used to work out relations of deference within local communities Rather than a simple force of imperial power an open legal system allowed petitioners to define their relationships with their local adversaries while contributing to the body of rules and expectations by which they would live in the future In so doing these Egyptian petitioners contributed to the creation of Roman imperial order more generally
