Impossible Histories Hal Johnson, 2023-02-07 Across 1400 years and six continents sorry Australia Impossible Histories examines pivotal moments in history from both sides what happened and what would have happened had things gone differently The results are by turns strange hilarious tragic and always fascinating Imagine a world in which Hitler builds a thousand year Reich Columbus gets driven from the Americas by mounted knights Robespierre decapitates Caesar Augustus The Inca Empire has an air force Jimmy Carter presses the Button These brave new worlds are merely our own familiar world if something small had happened differently We re all one elephant away from peace in the Middle East one knife thrust away from nuclear Armageddon This book examines twenty pivotal moments in history asks what if and drags the answers kicking and screaming into the light History factual and counterfactual has never been so entertaining A whirlwind ride through history as it never happened but could have

**Impossible Histories** Dubravka Djurić, Miško Šuvaković, 2003 The first critical survey of the largely unknown avant garde movements of the former Yugoslavia **"I am Jugoslovenka!"** Jasmina Tumbas, 2022-02-22 I am Jugoslovenka argues that queer feminist artistic and political resistance were paradoxically enabled by socialist Yugoslavia s unique history of patriarchy and women s emancipation Spanning performance and conceptual art video works film and pop music lesbian activism and press photos of female snipers in the Yugoslav wars the book analyses feminist resistance in a range of performative actions that manifest the radical embodiment of Yugoslavia s anti fascist transnational and feminist legacies It covers celebrated and lesser known artists from the 1970s to today including Marina Abramovic Sanja Ivekovic Vlasta Delimar Tanja Ostojic Selma Selman and Helena Janecic along with music legends Lepa Brena and Esma Red epova I am Jugoslovenka tells a unique story of women s resistance through the intersection of feminism socialism and nationalism in East European visual culture Impossible Histories Jill Renee Baker, 2008

**Female Art and Agency in Yugoslavia, 1971-2001** Anja Foerschner, 2024-05-30 Despite having become marginalized on the map of contemporary art since the wars of the 1990s the regions of former Yugoslavia continue to be a hub of creative activity Especially noteworthy is the strong presence of women artists scholars and activists whose deeply personal yet highly political artwork is rooted in a long legacy of female artistic agency Building on existing scholarship as well as original research this book highlights how female figures through art and exhibition making writing mentorship and activism have shaped the alternative art scene in former Yugoslavia and placed the region firmly on the map of the international post avantgarde Using the founding of the Student Cultural Center Belgrade in 1971 as a starting point the book details the pioneering work of women in the realm of curation where they developed radical exhibition concepts and programs that furthered the development of the New Art Practice and embedded Yugoslavia firmly on the map of the international postwar avantgardes It highlights the agency of female artists in the then novel realms of performance art video art and new media art and shows how their work has helped these disciplines to gain the impact they retain until the present day What is more

it shows how female cultural workers have courageously used their work to further the discourse on gender sexuality and the female body and at a time when they saw themselves stripped of basic rights by the chauvinist nationalist regimes emerging after Yugoslavia's breakup formed a strong artistic and activist opposition Highlighting the role of women in the diversification of the ex Yugoslavia states and its highly unique cultural and political landscape this book addresses the noticeable gap in art historical scholarship that exists not only around Yugoslavia and its successor states but especially on its female representatives

Consistent Quantum Theory Robert B. Griffiths, 2003-11-13 Quantum mechanics is one of the most fundamental yet difficult subjects in physics Nonrelativistic quantum theory is presented here in a clear and systematic fashion integrating Born's probabilistic interpretation with Schrödinger dynamics Basic quantum principles are illustrated with simple examples requiring no mathematics beyond linear algebra and elementary probability theory The quantum measurement process is consistently analyzed using fundamental quantum principles without referring to measurement These same principles are used to resolve several of the paradoxes that have long perplexed physicists including the double slit and Schrödinger's cat The consistent histories formalism used here was first introduced by the author and extended by M Gell Mann J Hartle and R Omn's Essential for researchers yet accessible to advanced undergraduate students in physics chemistry mathematics and computer science this book is supplementary to standard textbooks It will also be of interest to physicists and philosophers working on the foundations of quantum mechanics

Dark Times Jonathan Sklar, 2018-09-28 Today sees the rise of nationalism the return of totalitarian parties in Europe to electoral success and the rise of the alt right and white supremacists in the US Thus there is urgency for psychoanalysts with their understanding of cruelty sadomasochism perversion and other mental mechanisms to speak out Jonathan Sklar has risen to the challenge with this timely thought provoking and at times upsetting work Dark Times starts with a look at European history in terms of monuments and mourning before moving into storytelling and the elision of thought and history at this current time including harrowing detail of the brutalities inflicted by ISIS on the Yazidi and concludes with a

meditation on the relationship between cruelty in the early environment and hatred of the other within society with particular focus on racism in the US Sklar goes against the grain of brief sound bites which are an aid to quickly pass over painful knowledge Instead he goes into detail to give extremely dark horrid occurrences and the human beings on the receiving end respect and understanding which enables the reader greater access to allowing unconscious things to be made more conscious highlighting the quality of humanity in human beings Also listening to these stories enables us to become more aware not only of what is going on over there but also what is happening here because in our increasingly joined up world here is always implicated and affected too By ridding ourselves of the illusions of our political times we can find greater freedom to think develop challenge and create hope for the future of our children and our grandchildren as well as for ourselves

*Art & Language International* Robert Bailey, 2016-05-19 In *Art Language International* Robert Bailey reconstructs the history of the conceptual art collective Art Language situating it in a geographical context to rethink its implications for the broader histories of contemporary art Focusing on its international collaborations with dozens of artists and critics in and outside the collective between 1969 and 1977 Bailey positions Art Language at the center of a historical shift from Euro American modernism to a global contemporary art He documents the collective's growth and reach from transatlantic discussions on the nature of conceptual art and the establishment of distinct working groups in New York and England to the collective's later work in Australia New Zealand and Yugoslavia Bailey also details its publications associations with political organizations and the internal power struggles that precipitated its breakdown Analyzing a wide range of artworks texts music and films he reveals how Art Language navigated between art worlds to shape the international profile of conceptual art Above all Bailey underscores how the group's rigorous and interdisciplinary work provides a gateway to understanding how conceptual art operates as a mode of thinking that exceeds the visual to shape the philosophical historical and political

**Blake's Agitation** Steven Goldsmith, 2013-03-15 Since the Romantic period the critical thinker's enthusiasm has served to substantiate his or her agency in the world Blake's *Agitation* is a thorough and engaging reflection on the dynamic forward moving and active nature of critical thought Steven Goldsmith investigates the modern notion that there's a fiery feeling in critical thought a form of emotion that gives authentic criticism the potential to go beyond

interpreting the world By arousing this critical excitement in readers and practitioners theoretical writing has the power to alter the course of history even when the only evidence of its impact is the emotion it arouses Goldsmith identifies William Blake as a paradigmatic example of a socially critical writer who is moved by enthusiasm and whose work in turn inspires enthusiasm in his readers He traces the particular feeling of engaged dynamic urgency that characterizes criticism as a mode of action in Blake's own work in Blake scholarship and in recent theoretical writings that identify the heightened affect of critical thought with the potential for genuine historical change Within each of these horizons the critical thinker's enthusiasm serves to substantiate his or her agency in the world supplying immediate embodied evidence that criticism is not one thought form among many but an action of consequence accessing or even enabling the conditions of new possibility necessary for historical transformation to occur The resulting picture of the emotional agency of criticism opens up a new angle on Blake's literary and visual legacy and offers a vivid interrogation of the practical potential of theoretical discourse

Rethinking Postwar Europe Barbara Lange, Dirk Hildebrandt, Agata Pietrasik, 2019-12-09 The book *Rethinking Postwar Europe* offers an in depth insight into the largely unexplored topic of artistic practices in the 1940s and 1950s in Europe which until recently had been obscured by ideologies of the Cold War Thanks to the authors diverse methodological backgrounds the volume presents for the first time a comprehensive multilayered narrative focusing on the complexities and entanglements in the artistic field Instead of assessing the postwar period in the traditional way as divided by the Iron Curtain the contributions investigate processes of contact interaction dissemination overlapping and networking Consequently the analysis of a diversified European modernism in both its aesthetic and its socio political dimension resonates with all the different case studies In particular the volume looks at how artists developed designed and re negotiated identities and discourses and sheds new light on the power of art and creative powers in general in a postwar setting of mutilations losses and devastations

*Turbo-folk Music and Cultural Representations of National Identity in Former Yugoslavia* Uroš Čvoro, 2016-03-03 Turbo folk music is the most controversial form of popular culture in the new states of former Yugoslavia Theoretically ambitious and innovative this book is a new account of popular music that has been at the centre of national political and cultural debates for over two decades Beginning with 1970s Socialist Yugoslavia Uroš Čvoro explores the cultural and political paradoxes of turbo folk described as backward music whose misogynist and Serb nationalist iconography represents a threat to cosmopolitanism turbo folk's iconography is also perceived as a genuinely Balkan form of resistance to the threat of neo liberalism Taking as its starting point turbo folk's popularity across national borders Čvoro analyses key songs and performers in Serbia Slovenia and Croatia The book also examines the effects of turbo on the broader cultural sphere including art film sculpture and architecture twenty years after its inception and popularization What is proposed is a new way of reading the relationship of contemporary popular music to processes of cultural political and social change and a new understanding of how fundamental turbo folk is to the recent history of former

*The Palgrave Handbook of Literature and the City* Jeremy Tambling, 2017-02-17 This book is about the impact of literature upon cities world wide and cities upon literature It examines why the city matters so much to contemporary critical theory and why it has inspired so many forms of writing which have attempted to deal with its challenges to think about it and to represent it Gathering together 40 contributors who look at different modes of writing and film making in throughout the world this handbook asks how the modern city has engendered so much theoretical consideration and looks at cities and their literature from China to Peru from New York to Paris from London to Kinshasa It looks at some of the ways in which modern cities whether capitals shanty towns industrial or rust belt have forced themselves on people's ways of thinking and writing

*Theatre, Performance and Commemoration* Miriam Haughton, Alinne Balduino P. Fernandes, Pieter Verstraete, 2023-04-20 How does the act of performance speak to the concept of commemoration How and why does commemorative theatre operate as a conceptual historical and political site from which to interrogate ideas of nationalism and nationhood This volume explores how theatre and performance create a stage for acts of commemoration considering crises of hate nationalism and migration as well as political racial and religious bigotry It features case studies drawn from across Europe the Middle East Asia Africa and Latin America The book's four parts each explore commemoration through a different theoretical lens and present a new set of dramaturgies for research and study

While Section 1 offers a critical survey of 20th and 21st century discourses Section 2 uncovers the commemorative practices underpinning contemporary dramaturgy and applies these practices to plays and performance pieces These include works by Martin Lynch Frank McGuinness Sanja Mitrovic Theater RAST Les SlovaKs Dance Collective Estela Golovchenko Wajdi Mouawad ine Stapleton CoisC im ANU Productions Aubrey Sekhabi and Indian and African dance practices The final sections investigate how individual and collective memory and performances of commemoration can become tools for propaganda and political agendas

Sanctioning Modernism Timothy Parker, Monica Penick, Vladimir Kulic, 2014-06-01 In the decades following World War II modern architecture spread around the globe alongside increased modernization urbanization and postwar reconstruction and it eventually won widespread acceptance But as the limitations of conventional conceptions of modernism became apparent modern architecture has come under increasing criticism In this collection of essays experienced and emerging scholars take a fresh look at postwar modern architecture by asking what it meant to be modern what role modern architecture played in constructing modern identities and who sanctioned or was sanctioned by modernism in architecture This volume presents focused case studies of modern architecture in three realms political religious and domestic that address our very essence as human beings Several essays explore developments in Czechoslovakia Romania and Yugoslavia and document a modernist design culture that crossed political barriers such as the Iron Curtain more readily than previously imagined Other essays investigate various efforts to reconcile the concerns of modernist architects with the traditions of the Roman Catholic Church and other Christian institutions And a final group of essays looks at postwar homebuilding in the United States and demonstrates how malleable and contested the image of the American home was in the mid twentieth century These inquiries show the limits of canonical views of modern architecture and reveal instead how civic institutions ecclesiastical traditions individual consumers and others sought to sanction the forms and ideas of modern architecture in the service of their respective claims or desires to be modern
