A History of Collective Creation Kathryn Mederos Syssoyeva, 2013-07-24 Collective creation the practice of collaboratively devising works of performance rose to prominence not simply as a performance making method but as an institutional model By examining theatre practices in Europe and North America this book explores collective creation s roots in the theatrical experiments of the early twentieth century , *Asiatic researches or transactions of the Society instituted in Bengal, for inquiring into the history and antiquities, the arts, sciences, and literature, of Asia* Asiatic Society of Bengal, 1822 **Symposium Cirad/catie Amelioration Genetique Et Developpement Des Cultures Tropicales , La presse de la liberté** Eve Johansson, International Federation of Library Associations and Institutions / Working Group on Newspapers, 2013-02-18 No detailed description available for La presse de la libert **Rapport de la première session du Comité pour l'aquaculture** General Fisheries Council for the Mediterranean (Food and Agriculture Organization of the United Nations). Committee on Aquaculture, 1997-01-01 **Epic, Epitome, and the Early Modern Historical Imagination** Chloe Wheatley, 2016-05-13 In early modern England epitomes texts promising to pare down abridge or sum up the essence of their authoritative sources provided readers with key historical knowledge without the bulk expense or time commitment demanded by greater volumes Epic poets in turn addressed the habits of reading and thinking that for better and for worse were popularized by the publication of predigested works Analyzing popular texts such as chronicle summaries abridgements of sacred epic and abstracts of civil war debate Chloe Wheatley charts the efflorescence of a lively early modern epitome culture and demonstrates its impact upon Edmund Spenser s *The Faerie Queene* Abraham Cowley s *Davideis* and John Milton s *Paradise Lost* Clearly and elegantly written this new study presents fresh insight into how poets adapted an important epic convention the representation of the hero s confrontation with summaries of past and future to reflect contemporary trends in early modern history writing *Policymaking and Democracy* Stuart S. Nagel, 2003-01-01 *Policymaking and Democracy* is the first volume of a three volume set that examines the multi dimensional role of policy in the development and promotion of democracy prosperity and peace The democracy volume brings together international contributions on the policy challenges faced by national and multinational bodies to promote a democratic political culture and encourage the growth and development of civil society The work includes chapters on integration and representation within the European Union the expanding role of NGOs and IGOs international parliamentary organs the future of the nation state in a pluralistic world and the mportance of global consensus building [Journal of Small Business and Entrepreneurship](#) , 2003 **Rebuilding Babel** Mark Crinson, 2017-06-30 Much of modernist architecture was inspired by the emergence of internationalism the ethics and politics of world peace justice and unity through global collaboration Mark Crinson here shows how the ideals represented by the Tower of Babel built so the story goes by people united by one language were effectively adapted by internationalist architecture its styles and practices in the modern period Focusing

particularly on the points of convergence between modernist and internationalist trends in the 1920s and again in the immediate post war years he underlines how such architecture utilised the themes of a cooperative community of builders and a common language of forms The International Style was one manifestation of this new way of thinking but Crinson shows how the aims of modernist architecture frequently engaged with the substance of an internationalist mindset in addition to sharing surface similarities Bringing together the visionaries of internationalist projects including Le Corbusier Bruno Taut Berthold Lubetkin Walter Gropius and Mies van der Rohe Crinson interweaves ideas of evolution ecology utopia regionalism socialism free trade and anti colonialism to reveal the possibilities heralded by modernist architecture Furthermore he re connects pivotal figures in architecture with a cast of polymath internationalists such as Patrick Geddes Lewis Mumford Julian Huxley Rabindranath Tagore and H G Wells to provide a richly detailed socio cultural framework This is a book crafted for students and scholars of architecture and art theory as well as for those interested in the history of twentieth century optimism about the world and its architecture
