Knab,2017-11-09 In the summer and early fall of 1936 Otto Michael Knab published twenty one fables in the *Deutsche Briefe* a Swiss weekly press service edited by Waldemar Gurian and Knab Two years earlier Knab had been forced to flee Germany and his fables are a satiric and shocking commentary upon the corruption of German political social and religious institutions under Hitler the fox Here are shown the sinister and destructive features of the Third Reich and the fables where beasts illustrate the stupidity perversity and blindness of various segments of German society constitute an indictment of Nazi totalitarianism in particular and all totalitarianism in general Presented here with a new introduction by Ulrich Lehner the fables were first printed in English in 1966 Translated by Bernard M Knab the son of their author they provide American readers with a grimly humorous thought provoking and unique account of Hitler s assault upon the German consciousness and upon the Christian philosophy of life Bernard Knab has also written a biographical account of his father and has made a critical examination of the fables that will be of interest to students of literature and history alike Each fable has been appropriately illustrated by James Brunsman      Soda Goes Pop Joanna K. Love,2019-07-10 From its 1939 Nickel Nickel jingle to pathbreaking collaborations with Michael Jackson and Madonna to its pair of X Factor commercials in 2011 and 2012 Pepsi Cola has played a leading role in drawing the American pop music industry into a synergetic relationship with advertising This idea has been copied successfully by countless other brands over the years and such commercial collaboration is commonplace today but how did we get here How and why have pop music aesthetics been co opted to benefit corporate branding What effect have Pepsi s music marketing practices in particular had on other brands the advertising industry and popular music itself Soda Goes Pop investigates these and other vital questions around the evolving relationships between popular music and corporate advertising Joanna K Love joins musical analysis historical research and cultural theory to trace parallel shifts in these industries over eight decades In addition to scholarly and industry resources she draws on first hand accounts pop culture magazines trade press journals and other archival materials Pepsi s longevity as an influential American brand its legendary commercials and its pioneering relentless pursuit of alliances with American musical stars makes the brand a particularly instructive point of focus Several of the company s most famous ad campaigns are prime examples of the practice of redaction whereby marketers select censor and restructure musical texts to fit commercial contexts in ways that revise their aesthetic meanings and serve corporate aims Ultimately Love demonstrates how Pepsi s marketing has historically appropriated and altered images of pop icons and

the meanings of hit songs and how these commercials shaped relationships between the American music business the advertising industry and corporate brands Soda Goes Pop is a rich resource for scholars and students of American studies popular culture advertising broadcast media and musicology It is also an accessible and informative book for the general reader as Love's musical and theoretical analyses are clearly presented for non specialist audiences and readers with varying degrees of musical knowledge

women and girls as people with any claim to innocence When pained images of Black female bodies appear on media devices the socio political responses are telling not only in their lack of urgency but also in their inability to be read empathetically By examining viral videos memes and recent film and television Kalima Young makes a striking case for the need to create a new Black feminist media studies framework broad enough to hold the complexity and agency of Black women and girls in a digital age invested in framing them as inherently adulterated and impure

Feminists, Feminisms, and Advertising Kim Golombisky, Peggy J. Kreshel, 2017-10-16 Women and advertising are both globally ubiquitous Yet advertising remains one of the most unabashedly misogynist heterosexist and racist industries This edited volume of original unpublished chapters is the first ever to offer explicitly feminist views on advertising Feminists Feminisms and Advertising provides feminist analyses of the historical relationships between the advertising industry and the women s movement in the United States Contributors consider the ways that advertisers encode race ethnicity gender and heteronormativity into advertising practices and messages exported around the world They further explore the ways that intersectional audiences such as women of color Latinas and lesbian and gay audiences decode reinterpret resist and subvert advertising With this book the editors and contributors address the present lack of feminist scholarship research knowledge or curriculum in advertising and begin a more honest dialogue about diversity and intersectional gender in the advertising academy as well as the advertising industry
