Fragile Eden A Ride Through New Zealand:

Slipping into Paradise Jeffrey Moussaieff Masson, 2008-12-30 In the tradition of *Under the Tuscan Sun* and *A Year in Provence* here is Jeffrey Moussaieff Masson's ode to his personal paradise his adopted home New Zealand After living in California why did Masson settle out of all the places on earth in such a faraway land It turns out that while visiting a beautiful sandy beach just fifteen minutes from bustling Auckland Masson and his family were utterly seduced by the exotic locale There was little deliberation This place surrounded by lush forest on a bay dotted with volcanic islands would be their new home Masson takes readers on a remarkable journey to another world as he and his family slip into the paradise that is New Zealand For anyone who has ever dreamed of finding utopia Masson reveals a country where neighbors talk to one another and provide a sense of real community rarely outside of the big cities locking their doors and where politics are as mellow as the weather New Zealand is also a land of spectacular scenery made even more famous for being the shooting location for the *Lord of the Rings* films The flora is plentiful Mangroves banana plants papaya trees and more than ten thousand species of ferns grow wild and freely The fauna is benign There are no snakes tarantulas or scorpions Children can walk to school barefoot without a care there is nothing to sting them bite them or give them a rash In the blue waters near the lush coastline dolphins and orcas abound While describing his love affair with the country and his affinity for its citizens Masson reflects on the meaning of home the importance of acting on intuition and what happens when we lose our connection to the place we live in Responding to an impulse Masson reveals he realized a dream Featuring a its glossary of phrases used by New Zealanders and important Maori words as well as the author's recommended travel itinerary *Slipping into Paradise* is ideal for anyone planning a visit to this exquisite land Full of photographs delightful anecdotes and little known facts jogging for example was invented in New Zealand *Slipping into Paradise* is also a book for those who fantasize about dramatically changing their lives and who imagine something better for themselves Jeffrey Masson's message New Zealand awaits

Hanbury-Tenison,2017-09-30 Sometimes it feels as though the whole planet has been so polluted and ravaged that there are no Edens left but they are there to be found by those who step off the beaten track So it was with mine Fifty years ago the interior of Borneo was a pristine virgin rainforest inhabited by uncontacted indigenous tribes and naive virtually tame wildlife It was into this Garden of Eden that Robin Hanbury Tenison led one of the largest ever Royal Geographical Society expeditions an extraordinary undertaking which triggered the global rainforest movement and illuminated for the first time how vital rainforests are to our planet For 15 months Hanbury Tenison and a team of some of the greatest scientists in the

world immersed themselves in a place and a way of life that is on the cusp of extinction Much of what was once a wildlife paradise is now a monocultural desert devastated by logging and the forced settlement of nomadic tribes where traditional ways of life and unimaginably rich and diverse species are slowly being driven to extinction This is a story for our time one that reminds us of the fragility of our planet and of the urgent need to preserve the last untamed places of the world
