Bowen, 1991 Perhaps the most shocking book written this century about treason committed by the highest leaders within the US government This disturbing and thought provoking expose is written by Brigadier General Russell S Bowen who has courageously come forward with the truth about his association with the OSS Office of Security Services and his drug running activities on behalf of the secret government which involves the highest US leaders and which few Americans know anything about The most startling details are revealed regarding Bowen's clandestine work including his work under the orders of George Bush **JFK** Nick M. Nero, 2014-08-01 Half a century after John F Kennedy's assassination his death remains among the most controversial events in American history But it is not an isolated event And it was carefully planned and even rehearsed A confidential story imparted by a cousin draws together disparate threads and weaves a coherent explanation According to Frank Sturgis's family the Bay of Pigs connects the roles of Frank Sturgis E Howard Hunt the CIA namely Allen Dulles Richard Bissell Tracy Barnes and General Cabell George Herbert Walker Bush Richard M Nixon the Joint Chiefs of Staff the Mafia and the FBI **Fleshing Out Skull & Bones** Kris Millegan, 2004-10-01 This chronicle of espionage drug smuggling and elitism in Yale University's Skull Dr Ralph Bunch professor emeritus of political science at Portland State University Webster Griffin Tarpley and Anton Chaitkin authors and historians A complete list of members including George Bush George W Bush and John F Kerry and reprints of rare magazine articles are included **Maps of the Ancient Sea Kings** Charles H. Hapgood, 1966 Hapgood utilizes ancient maps as concrete evidence of an advanced worldwide civilization existing many thousands of years before ancient Egypt Hapgood concluded that these ancient mapmakers were in some ways much more advanced in mapmaking than any people prior to the

18th century Hapgood believes that they mapped all the continents This would mean that the Americas were mapped thousands of years before Columbus Antarctica would have been mapped when its coasts were free of ice Hapgood supposes that there is evidence that these people must have lived when the Ice Age had not yet ended in the Northern Hemisphere and when Alaska was still connected with Siberia by the Pleistocene Ice Age land bridge

Oil, Power, and War Matthieu Auzanneau,2020-02-20 The story of oil is one of hubris fortune betrayal and destruction It is the story of a resource that has been undeniably central to the creation of our modern culture and ever present during the darkest exploits of empire the world over For the past 150 years oil has become the most essential ingredient for economic military and political power And it has brought us to our present moment in which political leaders and the fossil fuel industry consider extraordinary and extraordinarily dangerous policy on a world stage marked by shifting power bases Upending the conventional wisdom by crafting a people s history award winning journalist Matthieu Auzanneau deftly traces how oil became a national and then global addiction outlines the enormous consequences of that

addiction sheds new light on major historical and contemporary figures and raises new questions about stories we thought we knew well What really sparked the oil crises in the 1970s the shift away from the gold standard at Bretton Woods or even the financial crash of 2008 How has oil shaped the events that have defined our times two world wars the Cold War the Great Depression ongoing wars in the Middle East the advent of neoliberalism and the Great Recession among them With brutal clarity *Oil Power and War* exposes the heavy hand oil has had in all of our lives and illustrates how much heavier that hand could get during the increasingly desperate race to control the last of the world's easily and cheaply extractable reserves

Hit List Richard Belzer, David Wayne, 2016-06-07 Richard Belzer and David Wayne are back to set the record straight after Dead Wrong this time they re going to uncover the truth about the many witness deaths tied to the JFK assassination For decades government pundits have dismissed these coincidental deaths even regarding them as myths as urban legends Like most people Richard and David were initially unsure about what to make of these coincidences After all events don t consult the odds prior to happening they simply happen Then someone comes along later and figures out what the odds of it happening were Some of the deaths seemed purely coincidental heart attacks hunting accidents Others clearly seemed noteworthy witnesses who did seem to know something and did seem to die mysteriously Hit List is a fair examination of the evidence of each case leading to necessarily different conclusions The findings were absolutely staggering as some cases were clearly linked to a clean up operation after the murder of President Kennedy while others were the result of other forces The impeccable research and writing of Richard Belzer and David Wayne show that if the government is trying to hide anything they re the duo who will uncover it

Hard Right Turn Jerry Carrier, 2015-10-01 In America even the left is right of center just how far right is subject to debate There really is no longer an American left as it has been systematically destroyed This rightward drift is seen in historic events like the Red Scare of the 1920s where thousands of innocent Russian and Jewish Americans were imprisoned and deported by J Edgar Hoover under President Wilson There were plots like the secret financing of Hitler s rise to power by the Rockefeller Harriman and Bush Walker families managed by the Dulles Brothers There was the Businessmen and Banker s Plot to overthrow Roosevelt and install a fascist government in the United States just before WWII There was the OSS CIA cooperation with the Catholic Church in the Ratlines to hide and bring Nazi war criminals into the United States

American phobias against communism socialism and the left have allowed those on the right to suppress and eliminate the left and to harass imprison or assassinate its leaders since 1848 The US government has eliminated and assassinated the left and with no counterbalance the country veers further and further to the right In this book Jerry Carrier seeks to define Left as it applies in the United States He traces some of the original influences and provides a succinct history of the American left including the McCarthy witch hunts and the xenophobia of the China Lobby That history includes illegal CIA and FBI operations to stop the left civil rights anti war Latino Asian Native American gay and women s movements It includes the US intelligence service s long ties to the Mafia and the Unione Corse the French Mafia and their illegal drug activities It includes the assassinations of JFK RFK and MLK It includes the treasonous acts of Nixon and Kissinger to win in 1968 by Reagan and Bush in 1980 and the buying of elections by the Koch Brothers From Rousseau to Obama this book gives the rise and fall of the American left Victims includes Mother Jones Eugene Debs Big Bill Haywood Gus Hall and Angela Davis It includes the assassinations of foreign leaders like Patrice Lumumba and even UN Secretary General Dag Hammarskjold and attempts on Sukarno and Castro as well as dozens of US inspired coups

The Great Transformation of 2021 Norman Poire, 2010-11-23 The decade of the 2020s promises to be as dynamic as any in recorded history Those ten years will be characterized by an unprecedented commingling of an extremely rare confluence of social cycles with the three ingredients of the looming Sustainability Crisis overpopulation peak oil and global climate change Out of the ashes will arise the Great Transformation of 2021 a cultural upheaval at least as significant as the Protestant Reformation of the sixteenth century It is unlikely that either capitalism or the nation state will survive it and quite likely that the United States will descend into permanent decline because of it The Great Transformation of 2021 will present mankind with challenges of historic proportions If global society makes the right choices the world could come out a better place on the other side If it chooses wrongly a nightmarish existence if not outright human extinction will be the consequence
