The Politics of Collaborative Public Management Robert Agranoff, Aleksey Kolpakov, 2023-06-30 Although one often thinks of collaborative management and related group problem solving as different interests coming together in peaceful harmony nothing could be further from reality Collaboration in real world action requires steering and negotiation in virtually every situation with a considerable process that precedes agreement This progression is in effect a mini political and managerial process we have come to know as collaborative politics and its management This volume explores the process and operations of collaboration and collaborative politics from routine transactions or small p politics to the significant issue forces or big P politics Collaboration is defined here as the process of facilitating and operating in multiorganizational arrangements for addressing problems and producing solutions through the contributions of several organizations and individuals Throughout the book readers are gradually exposed to analysis of key findings in collaborative politics from the long research tradition in policy and political science This book adapts a series of stories to highlight some of the dynamics of collaborative politics from a range of jurisdictions It further analyzes the efficacy of storytelling as a learning tool and contributor to practice in different contexts With collaborative politics often associated with negotiations among administrative actors authors Drs Robert Agranoff and Aleksey Kolpakov demonstrate how interorganizational interagency collaboration operates and is managed as well as how it has been modified or adjusted in its fundamental core concepts of bureaucratic organization and hierarchy The Politics of Collaborative Public Management is designed as a core text for undergraduate and graduate classes on collaborative management and governance

and frameworks for understanding and improving public management *Library of Congress Catalog* Library of Congress,1980-07 Administrative Development Muhammad A. Al-Buraey,2013-12-19 First published in 1986 The main purpose of this work is to present a developmental perspective different from the prevailing Western one The author hopes that this point of view will contribute towards the goal of developing a general theory of world development of human societies that presently does not exist Though the focus of this study is on Islamic views of administrative development other aspects of development such as the political and socio economic are also discussed *Administrative Ethics in the Twenty-first Century* James Michael Martinez,William D. Richardson,2008 This series is devoted to textbooks that explore the multidimensional and multidisciplinary areas of law and Politics Special emphasis will be given to textbooks written for the undergraduate classroom Subject matters to be addressed in this series include constitutional law civil rights and liberties issues law race gender and gender orientation studies law and ethics women and the law judicial behavior and decision making legal theory comparative legal systems criminal justice courts and the political process American Book Publishing Record ,1981 Comparative Health Policy and the New Right Christa Altenstetter,Stuart C. Haywood,1991-06-18 A compilation of essays which examine the response of the new Right to health policy issues While economic circumstances dictate the pressures placed on policy makers it is argued that there is a gap between the rhetoric they espouse and the actions initiatives taken Resources in Education ,1998 *Decentralization In Mexico* Victoria Rodriguez,2018-05-04 This book assesses the impact of decentralization on Mexico s intergovernmental relations and examines the constraints upon the devolution of political power from the center to the lower levels of government It also discusses the distribution of power and authority to governments of opposition parties within the context of a more open political space Victoria Rodr guez uncovers a new paradox in the Mexican political system retaining power by giving it away She argues that since the de la Madrid presidency 1982 1988 the Mexican government has embarked upon a major effort of political and administrative decentralization as a means to increase its hold on power That effort continued under Salinas but paradoxically led to further centralization However since Zedillo assumed the presidency it has become increasingly clear that the survival of the ruling party and indeed the viability of his own government require a genuine de facto reduction of centralism *Welfare Simplification* ,1986 **Library of Congress Catalogs** Library of Congress,1980
