The Impressionists and Their Art Russell Ash, 1980 This volume includes many of the great masterpieces of Impressionism The brilliant colours of Rouen Cathedral as captured by Monet Manet's once shocking nude in *The Picnic* the many beautiful women depicted by Renoir in Paris cafes and Degas snapshot visions of ballet dancers on and off stage But the book presents not only the works of the original Impressionists but also paintings by less familiar artists such as Fantin Latour Cassatt and Guillaumin The full scope of Impressionism however was not limited to its immediate adherents and this book also traces its later flowering in the work of the Post Impressionists and Neo Impressionists through reproductions of paintings by Seurat Van Gogh Gauguin and Toulouse Lautrec

Impressionism John House, 2004-01-01 A new perspective on Impressionist art that offers revealing fresh interpretations of familiar paintings In this handsome book a leading authority on Impressionist painting offers a new view of this admired and immensely popular art form John House examines the style and technique subject matter and imagery exhibiting and marketing strategies and social political and ideological contexts of Impressionism in light of the perspectives that have been brought to it in the last twenty years When all of these diverse approaches are taken into account he argues Impressionism can be seen as a movement that challenged both artistic and political authority with its uncompromisingly modern subject matter and its determinedly secular worldview Moving from the late 1860s to the early 1880s House analyzes the paintings and career strategies of the leading Impressionist artists pointing out the ways in which they countered the dominant conventions of the contemporary art world and evolved their distinctive and immediately recognizable manner of painting Focusing closely on the technique composition and imagery of the paintings themselves and combining this fresh appraisal with recent historical studies of Impressionism House explores how pictorial style could generate social and political meanings and opens new ways of looking at this luminous art

Realism in the Age of Impressionism Marnin Young, 2015-07-24 The late 1870s and early 1880s were watershed years in the history of French painting As outgoing economic and social structures were being replaced by a capitalist measured time Impressionist artists sought to create works that could be perceived in an instant capturing the sensations of rapidly transforming modern life Yet a generation of artists pushed back against these changes spearheading a short lived revival of the Realist practices that had dominated at mid century and advocating slowness in practice subject matter and beholding In this illuminating book Marnin Young looks closely at five works by Jules Bastien Lepage Gustave

Caillebotte Alfred Philippe Roll Jean Fran ois Raffa lli and James Ensor artists who shared a concern with painting and temporality that is all but forgotten today having been eclipsed by the ideals of Impressionism Young s highly original study situates later Realism for the first time within the larger social political and economic framework and argues for its centrality in understanding the development of modern art
