A Transatlantic Political Theology of Psychedelic Aesthetics Roger K. Green, 2019-04-02 Arguing that we ought to look to psychedelic aesthetics of the 1960s in relation to current crises in liberal democracy this book emphasizes the intersection of European thought and the psychedelic The first half of the book focuses on philosophical influences of Herbert Marcuse and Antonin Artaud while the second half shifts toward literary and theoretical influences of Aldous Huxley on psychedelic aesthetics Framed within an emergent discourse of political theology it suggests that taking a postsecular approach to psychedelic aesthetics helps us understand deeper connections between aesthetics and politics **Library Book Catalog** United States. Merkur, 1998-01-22 *The Ecstatic Imagination* provides the first general theory of psychedelic experiences. Merkur refutes several theories that have been used to explain single categories of psychedelic experience and offers instead a unitary theory that is applicable to all varieties. The book treats self-reports of psychedelic experiences as a wealth of neglected data which forms the basis to expand the psychoanalytic model of human imagination. An exhaustive phenomenology of the varieties of LSD, mescaline, and psilocybin experiences in Western and Native American cultures is joined together with psychoanalytic theories drawn from the classical ego, psychological, and object relations schools. Where existing theories prove inadequate to the discussion of data, original formulations are offered. The result is a rigorously psychoanalytic approach to the process of self-actualization. *The Road of Excess* Marcus Boon, 2005-03-15 From the antiquity of Homer to yesterday's Naked Lunch, writers have found inspiration, and readers have lost themselves in a world of the imagination tinged and oftentimes transformed by drugs. The age-old association of literature and drugs receives its first comprehensive treatment in this far-reaching work. *Autobiographical Writings on Mexico* Richard D. Woods, 2024-10-14 This is the definitive bibliography of autobiographical writings on Mexico. The book incorporates works by Mexicans and foreigners with authors ranging from disinherited peasants, women, servants, and revolutionaries to more famous painters, writers, singers, journalists, and politicians. Primary sources of historic and artistic value, the writings listed provide multiple perspectives on Mexico's past and give clues to a national Mexican identity. This work presents 1,850 entries, including autobiographies, memoirs, collections of letters, diaries, oral autobiographies, interviews, and autobiographical novels and essays. Over 1,500 entries list works from native-born Mexicans written between 1691 and 2003. Entries include basic bibliographical data, genre, author's life dates, narrative dates, available translations into English, and annotation. The bibliography is indexed by author, title, and subject, and appendices provide a chronological listing of works and a list of selected outstanding autobiographies.

The Touristic Use of Ayahuasca in Peru Tom John Wolff, 2020-02-07 This book covers the psychedelic ayahuasca tourism in Peru with its facet-rich psychological, pharmacological, anthropological, and sociological aspects. The reader gets an interdisciplinary insight into the historical development and the current state of ayahuasca research. Findings from three empirical studies are presented, which the author has won in a 4-year field research. How do common standards develop in this particular form of psycho-spiritual tourism? Why are people from developed nations and urban centres heading to the Amazon to ingest the psychedelic beverage Ayahuasca? How do they experience such ceremonies and retreats? Which insights, personal meaning, and effects do they gain, and how do they integrate their experiences into the everyday life? **Fat of the**
