breathing its last The Year of Our Lord 1943 Alan Jacobs, 2018-07-02 By early 1943 it had become increasingly clear that the Allies would win the Second World War Around the same time it also became increasingly clear to many Christian intellectuals on both sides of the Atlantic that the soon to be victorious nations were not culturally or morally prepared for their success A war won by technological superiority merely laid the groundwork for a post war society governed by technocrats These Christian intellectuals Jacques Maritain T S Eliot C S Lewis W H Auden and Simone Weil among others sought both to articulate a sober and reflective critique of their own culture and to outline a plan for the moral and spiritual regeneration of their countries in the post war world In this book Alan Jacobs explores the poems novels essays reviews and lectures of these five central figures in which they presented with great imaginative energy and force pictures of the very different paths now set before the Western democracies Working mostly separately and in ignorance of one another s ideas the five developed a strikingly consistent argument that the only means by which democratic societies could be prepared for their world wide economic and political dominance was through a renewal of education that was grounded in a Christian understanding of the power and limitations of human beings The Year of Our Lord 1943 is the first book to weave together the ideas of these five intellectuals and shows why in a time of unprecedented total war they all thought it vital to restore Christianity to a leading role in the renewal of the Western democracies The Oxford Handbook of the Bible in Orthodox Christianity Eugen J. Pentiuc, 2022-07-26 The Oxford Handbook of the Bible in Orthodox Christianity investigates the various ways in which Orthodox Christian i e Eastern and Oriental communities have received shaped and interpreted the Christian Bible The handbook is divided into five parts Text Canon Scripture within Tradition Toward an Orthodox Hermeneutics and Looking to the Future The first part focuses on how the Orthodox Church has never codified the Septuagint or any other textual witnesses as its authoritative text Textual fluidity and pluriformity a characteristic of Orthodoxy is demonstrated by the various ancient and modern Bible translations into Syriac Coptic Ethiopian Armenian among other languages The second part discusses how unlike in the Protestant and Roman Catholic faiths where the canon of the Bible is closed and limited to 39 and 46 books respectively the Orthodox canon is open ended consisting of 39 canonical books and 10 or more anaginoskomena or readable books as additions to Septuagint The third part shows how unlike the classical Protestant view of sola scriptura and the Roman Catholic way of placing Scripture and Tradition on par as sources or means of divine revelation the Orthodox view accords a central role to Scripture within Tradition with the latter conceived not as a deposit of faith but rather as the Church's life through history. The final two parts survey traditional Orthodox hermeneutics consisting mainly of patristic commentaries and liturgical interpretations found in hymnography and iconography and the ways by which Orthodox biblical scholars balance these traditional hermeneutics with modern historical critical approaches to the Bible **Auden's Syllabic Verse** Richard Hillyer, 2019-12-12 Much of the poetry written by W H Auden between 1939 and the time of his death consists of syllabic verse or lines arranged in accordance with a
