Children and the Internet Sonia Livingstone,2013-05-06 Is the internet really transforming children and young people s lives Is the so called digital generation genuinely benefiting from exciting new opportunities And worryingly facing new risks This major new book by a leading researcher addresses these pressing questions It deliberately avoids a techno celebratory approach and instead interprets children s everyday practices of internet use in relation to the complex and changing historical and cultural conditions of childhood in late modernity Uniquely Children and the Internet reveals the complex dynamic between online opportunities and online risks exploring this in relation to much debated issues such as Digital in exclusion Learning and literacy Peer networking and privacy Civic participation Risk and harm Drawing on current theories of identity development education and participation this book includes a refreshingly critical account of the challenging realities undermining the great expectations held out for the internet from governments teachers parents and children themselves It concludes with a forward looking framework for policy and regulation designed to advance children s rights to expression connection and play online as well as offline **Media Literacy in Action** Renee Hobbs,2024-10-14

There's never been a more important time for students to develop media literacy competencies. When students ask critical questions about the media they consume, they develop fundamental knowledge and critical thinking skills that prepare them for life, work, and meaningful citizenship. *Media Literacy in Action* addresses learners who are simultaneously active as both creators and consumers of media messages. At the same time, the book recognizes that everyone is vulnerable to media influence because of our dependence on the instant gratification and feelings of connectedness that digital platforms provide. To thrive in a media-saturated society, people need to ask critical questions about what we watch, see, listen to, read, and use. This book gives students those tools.

Key features of the second edition:

- Critical examination of AI technologies, algorithmic personalization, data privacy, and surveillance, and the increased global regulation of digital platforms.
- Attention to media literacy for empowerment and protection.
- Inquiry-oriented approach to learning that cultivates intellectual curiosity and creative expression.
- Full-color presentation with figures and photos to increase student engagement.
- Each chapter includes *Media Literacy Trailblazers*: Profiles of key thinkers and their theories connect students with the discipline of media literacy.
- Media Literacy DISCourse NEW*: Visual representations of media literacy theoretical principles help learners internalize the practice of asking critical questions as they respond to specific media examples.
- Learning in Action NEW*: Summary and vocabulary sections combine with Analyze, Create, Reflect, and Act activities to empower students to apply ideas from each chapter.
- Supplemental Materials available at www.mlaction.com: Students can review key ideas, learn about more *Media Literacy Trailblazers*, and watch videos aligned with each chapter. Instructors can access a Teacher's Guide of best practices in class activities, homework, and projects. Also available are chapter summaries, lecture slides, YouTube playlists, and test materials.

Kids and Today's Media Victor C. Strasburger, 2021-09-15 Old and new media are adversely affecting children in many ways. The doctors in this volume discuss their thoughts on the subject.

Understanding the Media in Young Children's Lives Polly Bolshaw, Jo Josephidou, 2022-09-01 This book explores the impact of digital media on young children's lives and the role that the media and news industries play in the social construction of childhood. It highlights the pressing issues relating to young children's media use, drawing on key research and examines the impact of digital media on their learning, development, and socialization. The chapters recognise the challenges digital media presents children and families but also demonstrate how media use and engagement can have a positive impact on children's academic attainment, social capital, and opportunities to create and curate online content. Covering key areas of concern such as safety, violence, and children's mental health, the authors provide strategies to help children and families reduce the risks that can arise with digital media use and capitalise on the opportunities it can offer. Including case study examples and opportunities for reflective practice, this is an essential text for students on Childhood and Early Childhood Studies courses and Early Years Foundation Degrees, as well as practitioners wanting to develop their critical understanding of the role of the media in young children's lives.
