Lines Of Site Ideas Forms And Materialities:

Grapheion, 2000 **The Materiality of Writing** Christian Mosbæk Johannessen, Theo van Leeuwen, 2017-09-18 This book examines the materiality of writing. It adopts a multimodal approach to argue that writing as we know it is only a small part of the myriad gestures we make, practices we engage in, and media we use in the process of trace making. Taking a broad view of the act of writing, the volume features contributions from both established and up and coming scholars from around the world and incorporates a range of methodological and theoretical perspectives from fields such as linguistics, philosophy, psychology of perception, design, and semiotics. This interdisciplinary framework allows readers to see the relationships between writing and other forms of trace making, including architectural drawings, graphic shapes, and commercial logos, and between writing and reading, with a number of illustrations highlighting the visual data used in the forms and studies discussed. The book also looks forward to the future, discussing digital media and new technology and their implications for trace making. This pioneering volume will be of interest to scholars and researchers in multimodality, literacy, cognitive neuroscience, design theory, discourse analysis, and applied linguistics.

The Materiality of Politics: The technologies of rule Ranabira Samāddāra, 2007. *The Materiality of Politics* uses a series of historical illustrations to reveal the physicality and underlying materiality of political processes. Volume 1, subtitled *The Technologies of Rule*, discusses the techniques of modern rule which form the basis of the post colonial Indian state. Beginning with the rule of law, the volume analyses the nature and manifestations of constitutional rule, the relation between law and terror, and the construction of extraordinary sovereign power. The author also investigates the methods of care, protection, segregation, and stabilization by which rule proceeds. In the processes, the material core of the cultural and the aesthetic is exposed.

Sites, Traces, and Materiality Rosemary A. Joyce, 2024-09-05. *Sites, Traces, and Materiality* proposes a new materialist model for archaeology that brings together the concept of site ontology from geography, a novel analysis of archaeological materiality as traces, and engagement with the concept of animacy hierarchy in order to explore how geological materials can be reconceived as active. Using a sustained analysis of ancient Honduras, the book provides a contribution to global medieval studies, showing how the concept of alchemy can help foreground the kinds of experiential knowledge indigenous people used to advance their technological engagements with mineral matter. Addressing a concern often raised with new materialist work in archaeology, the book

relies on indigenous philosophy of the contemporary and historic Lenca people the descendants of the people who created the archaeological locales the book examines for guidance on how to think about minerals as lively Taking seriously contemporary Lenca concerns with threats to water and land from global industries the book links the archaeological case study to the present day politics of mineral extraction Intended for readers interested in history archaeology and cultural studies the book is accessibly written and appropriate for students as well as academics

Cultures and Materialities of Imagination Stephan S. Sieland, 2020-10-01 In our current digital era imagination and the cultural and material conditions by which it is developed are more crucially than ever implicated in the experienced adversities and contradictions of drug use The technological changes of society underscore the need for rethinking dominant understandings which portray addiction as an immediate and even mindless relation between a person and a substance or behavior only minimally affected by subjective significance and historical alterations of everyday life Indeed from ancient mythology to our modern times drugs have been part of our cultural history Understandings and practices of their uses have developed through cultural ideas and cultural material conditions like traditions rituals and routines Today the omnipresence of digital media in everyday life is massively changing and expanding such cultural and material conditions Digital media equip people with associations between drugs and an incredible abundance of images ideas facts fiction narratives plots soundtracks characters and much more and thereby expanding their imaginable potentials for providing answers to biographical questions People and potential drug use become connected in novel and labyrinthine ways through digital communities and arrangements of everyday life And digital media are part of and transform the cultural material practices in which activities and experiences of intoxication actually take place In the book all these details are extensively analyzed empirically based on qualitative data on the lives of a number of young Danish people who were undergoing treatment for drug related problems at the time of the research An underlying premise of the entire work is that addiction may be seen as a more extreme expression of how the technological developments in our contemporary world more generally speaking magnify the contradictory implications of imagination for modern living Over the recent years psychological research into the significance of the human capacity to imagine for how people deal with and live their lives has received growing attention Yet the complex involvement of imagination in actual living and consequently the theoretical cruxes this engenders continue to amaze and surprise research and researchers This book also contributes to these theoretical ambitions with a substantial work on the concept of imagination It primarily suggests that a critical discussion of how imagining is essentially a contradictory process in everyday life and how it is always grounded in the agency of material aspects ranging anywhere from mundane artifacts over mediated content to advanced technologies is ultimately what makes the scientific study of imagination relevant to understanding and intervening in the dilemmas and crises of modern life and society The book will primarily interest scholars of social psychology of everyday life scholars working conceptually and empirically on imagination scholars of social studies of media materiality and technology

and researchers or practitioners working with addictions

O'Pray, 2004-08-05 This book

explores the ideas of the neglected English aesthete and art historian Adrian Stokes Stokes's Kleinian based concepts of carving and modelling are analysed in relation to film arguing that they replace the traditional notions of realism and montage in film theory and provide a set of aesthetics which encompasses mainstream and art cinema This Kleinian psychoanalytic approach is offered to the films of Eisenstein Rossellini Hitchcock and others

Experimental Film and Queer Materiality Juan A. Suárez, 2024 Often described as an art of abstraction and subjective introspection experimental film is also invested in exploring daily objects and materials and in channeling in the process a peculiar perception of the modern everyday that this book calls queer materiality Queer materiality designates the queer latency of modern material culture which often inspired queer artists and filmmakers to envision wayward bodies and behaviors and refers to the way in which sexual and social dissidence was embedded in the objects technologies substances and spaces that make up the hardware of experience This book studies a rich archive of queer material engagements in work by well known filmmakers such as Andy Warhol Barbara Hammer Carolee Schneemann and Jack Smith as well as under recognized figures such as Tom Chomont Jim Hubbard Ashley Hans Scheirl and Teo Hernández Combining history formal analysis and theoretical reflection author Juan A Suárez shows how plastics glitter mechanical ensembles urban ruins garbage amphetamine film grain and noise have been mobilized in the articulation of queerness for the screen Experimental Film and Queer Materiality is an inquiry into the liveliness of matter and into the interface between sexuality and the material world

Georges Rouault and Material Imaging Jennifer Johnson, 2020-11-26 This book considers questions of materiality and painting focalized through the notoriously obscure work of Georges Rouault and offers an innovative critical approach to the various questions raised by this challenging modernist Described as a difficult and dark painter Rouault's oeuvre is deeply experimental Images of the circus emerge from a plethora of chaotic marks while numerous landscapes appear as if ossified in thick paint Rouault's work explodes the genre of painting drawing upon the residue of Gustave Moreau's symbolism the extremities of Fauvism and the radical theatrical experiments of Alfred Jarry The repetitions and reworkings at the heart of Rouault's process defy conventional chronological treatment and place the emphasis upon the coming into being of the work of art Ultimately the book reveals the process of making as both a search for understanding and a response to the problematic world of the 20th century

Death Rituals and Social Order in the Ancient World Colin Renfrew, Michael J. Boyd, Iain Morley, 2016 This volume with essays by leading archaeologists and prehistorians considers how prehistoric humans attempted to recognise understand and conceptualise death

organizations at work and in technologies **Identities, Borderscapes, Orders** Benjamin Tallis, 2023-02-06 This book provides a pre history of Russia's war on Ukraine and Europe's relations to it illuminating the deep roots of the EU's neighbourhood crisis as well as the migration crises the Union created in the last decade To do so the book employs a new and innovative framework that allows for a comprehensive yet nuanced analysis of borders and a more cogent interpretation of their socio political consequences Drawing on interdisciplinary scholarship the book analytically examines the key common elements of borderscapes and links them in related arrays to allow for nuanced evaluation of both their particular and cumulative effects as well as interpretation of their overall consequences particularly for issues of identities and orders The book offers a significant conceptual and theoretical advance providing a transferable conceptualization of borderscapes to guide research analysis and interpretation Drawing on the author's experience in policy practice and academia it also makes a methodological contribution by pushing the boundaries of reflexivity in interpretive International Relations IR research Analyzing three main sites in Central and Eastern Europe CEE the book challenges conventional critical wisdom on EU bordering in the Schengen zone at its external frontiers and in its Eastern neighborhood In so doing it sheds new light on the politics of post communist transitions as well as the contemporary politics of CEE It also shows how EU bordering and its relations to identities and orders created great benefits for many Europeans but also hindered the lives of many others and became self defeating This book is a must read for scholars students and policy makers interested in a better understanding of Critical Border Studies CBS in particular and International Relations in general It will also appeal to anyone interested in CEE or wishing to get a deeper understanding of Russia's war and the fight for Europe's future Holiness and Society Ronen Shoval, 2024-08-15 Exploring the subtle political philosophy within the Biblical narrative this book presents enduring insights that complement Ancient Greek philosophy for contemporary political distinctions uncovering overlooked socio political ideologies to provide a unique perspective alongside the classical philosophical tradition By adopting a sociological approach Ronen Shovel interprets the Bible as a reflection of perspectives and ideologies emphasizing the intricate dynamics between rulers and subjects balancing justice and power within societies A key focus is the examination of holiness as a distinct political category influencing institutions ethics justice and even the use of force This perspective challenges traditional religious scholarship merging sociology with the concept of holiness Holiness and Society enriches political philosophy religious studies and sociology broadening their boundaries and offering fresh perspectives serving as a bridge between antiquity and modernity providing valuable insights into contemporary political thought *Lines of Site* Desmond Rochfort, Ryoji Ikeda, Musashino Bijutsu Daigaku, University of Alberta. Department of Art and Design, 1999-03 Over a period of more than twenty five years the printmaking division at the University of Alberta's department of Art and Design has become recognized internationally as a centre for printmaking This special exhibition celebrates the work of those who have been associated with University of Alberta's printmaking division Some of these artists like Liz Ingram Walter Jule and

Lyndal Osborne are still instructors and faculty Others like Koichi Yamamoto Marna Bunnell and Ben Wong have studied there as graduate students These artists share a commitment to the idea that the print medium is a form in which artists can still apply high levels of craft push the creative boundaries of the medium beyond the conventional and yet simultaneously express effective meanings in a new and fast changing world In a deliberate play on the title of the Sightlines symposium of October 1997 Lines of Site alludes to the notions of place direction even standpoint of view hinting at important principles of common cause to which print artists might aspire and by which they might be inspired in a world of increasingly immediate and ephemeral visions

Medieval Romance and Material Culture Nicholas Perkins, 2015 Studies of how the physical manifests itself in medieval romance and medieval romances as objects themselves Medieval romance narratives glitter with the material objects that were valued and exchanged in late medieval society lovers rings and warriors swords holy relics and desirable or corrupted bodies Romance however is also a genre in which such objects make meaning on numerous levels and not always in predictable ways These new essays examine from diverse perspectives how romances respond to material culture but also show how romance as a genre helps to constitute and transmit that culture Focusing on romances circulating in Britain and Ireland between the twelfth and sixteenth centuries individual chapters address such questions as the relationship between objects and protagonists in romance narrative the materiality of male and female bodies the interaction between visual and verbal representations of romance poetic form and manuscript textuality and how a nineteenth century edition of medieval romances provoked artists to homage and satire
