**Discovering Your Inner Abilities** Dr. Ignatius

Ekanem, 2010-03-23 God has given every human being tremendous abilities but many times we fail to utilize them because we don't recognize them as such. The main reasons for not recognizing our abilities are because sometimes they can come too naturally and too easily to be real and other times because of lack of self-esteem. Abilities that are not discovered, cultivated and nurtured remain dormant, untapped and wasted. Many people have plodded along all their lives and sometimes gone to their graves without discovering and utilizing their abilities. Consequently, they have not really been of benefit to themselves and to their own generation. This book provides the keys to discovering your inner abilities. The book will help you to break free from low self-esteem, inadequacies, rejection and to appreciate that you have what it takes to accomplish your purpose in life. Your abilities are like gold; you have to dig for them in order to bring them out.

**The Journals of Captain James Cook on his Voyages of Discovery** J.C. Beaglehole, 2017-07-05 On his second expedition to the Pacific in the years 1772-5, Captain James Cook made a voyage which in the annals of exploration is unsurpassed for grandeur of design and execution and for variety of experience. Cook traversed the Indian and Pacific Oceans in high latitudes, demonstrating that the supposed Southern continent could not extend north of 60°. Cook three times crossed the Antarctic Circle, reaching his furthest south in 71° 10' and he proved himself a master of navigation in ice. In the Pacific, his discoveries or rediscoveries included the Tonga Islands, Easter Island, the Marquesas, the New Hebrides and New Caledonia, with the subantarctic islands of South Georgia and the South Sandwich group. Captain Furneaux, commanding the consort ship, examined the coasts of Tasmania. The written and graphic records left by Cook himself and by his officers, by the astronomer William Wales and the artist William Hodges, by the naturalists J.R. and George Forster, are remarkable in their volume and vitality. The editor, Dr J.C. Beaglehole, here prints the full text of Cook's own journal, constructed from two holograph MSS and several MS copies, and a great part of Wales's journal. This facsimile edition reprints the edition of 1961, along with the Addenda and Corrigenda published in 1969. The illustrations, originally in colour, are reproduced in black and white; the fold-outs, divided to fit on separate pages, and the volume split into two parts.
